Notes to Financial Statements

Note 1: Description of Plan

The Restated Thrift/Profit Sharing Plan for Cooperatives (the Plan) is a defined contribution plan administered by Associated Benefits Corporation (the Plan Administrator) and invests in the Thrift and Profit Sharing Trust for Cooperatives (the Trust). The participating employer, Farmers Win Cooperative, Group 378, has adopted the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan adopted on January 1, 1999. The Plan covers all full-time employees of the participating employer but does not include leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The most recent amendment to the Plan became effective on December 17, 2019.

TRUST

The trustees for the Plan are Wells Fargo Bank, N.A. and The Ohio National Life Insurance Company (Ohio National). Wells Fargo Bank, N.A. and Ohio National administer the Trust subject to direction from the Plan sponsor.

ELIGIBILITY

Generally, an employee of the Company is eligible to enter the Plan after they have completed at least thirty (30) days of employment and have attained age 21.

ENTRY DATE

Employees may enter the Plan the first day of each month coinciding with or following the date the Plan's eligibility requirements are satisfied.

CONTRIBUTIONS

Participants may make pre-tax or Roth contributions up to 80% of their annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes a fixed amount equal to 100% of the participants' salary deferrals up to 3% of compensation.

Notes to Financial Statements (Continued)

Note 1: Description of Plan (Continued)

CONTRIBUTIONS (CONTINUED)

The total annual addition to a participant's account is subject to calendar year limits declared annually by the Internal Revenue Service. The limit for 2019 and 2018 was \$56,000 and \$55,000, respectively or 100% of participant's compensation. The annual employee contribution is \$19,000 and \$18,500 for the years ended December 31, 2019 and 2018, respectively. Employees age 50 or older may elect or make pretax "Catch-up Contributions" to the Plan after they have reached the Plan or legal limit. The maximum permitted catch-up contribution is \$6,000 for 2019 and 2018.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specified participant transactions, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account.

VESTING

A participant is 100% vested in the employee contributions. A participant is vested in the employer matching contributions according to the following vested schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

INVESTMENT OPTIONS

Upon enrollment in the Plan, a participant may direct employee and employer contributions to any of the investment options offered by the plan and may change investments and transfer amounts between funds daily.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to the prime interest rate quoted at Wells Fargo Bank, N.A. plus 1% on the date the loan is applied for.

Notes to Financial Statements (Continued)

Note 1: Description of Plan (Continued)

NOTES RECEIVABLE FROM PARTICIPANTS (CONTINUED)

All loans are repaid by payroll deductions in equal amounts over the repayment term, which is generally less than 5 years for a general purpose loan or 15 years for a loan to purchase your primary residence. Participants may not have more than one outstanding loan at any time.

PAYMENT OF BENEFITS

Participants may elect to receive either a lump-sum amount equal to the value of their vested account or installments as defined in the Plan Document upon retirement termination, death or disability. Distributions may be made at the participant's election prior to termination upon early retirement age of 59 ½, from rolled over accounts or hardship as defined in the Plan Document.

PLAN TERMINATION

Although it has not expressed any intent to do so, Farmers Win Cooperative has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

FORFEITED ACCOUNTS

At December 31, 2019 and 2018 forfeited non-vested accounts totaled \$15,965 and \$12,930, respectively. Forfeitures will be used to reduce future employer contributions. During the years ended December 31, 2019 and 2018, employer contributions were reduced by \$8,578 and \$4,605, respectively, from forfeited non-vested accounts.

ADMINISTRATIVE EXPENSES

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan Document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses, net of revenue sharing, incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses, net of revenue sharing, are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits. For the years ended December 31, 2019 and 2018, administrative fees amounting to \$20,866 and \$22,667, respectively, were absorbed by the Plan for the services of Alerus Financial, N.A., Associated Benefits Corporation and Wells Fargo Bank, N.A.

Notes to Financial Statements (Continued)

Note 2: Summary of Significant Accounting Policies

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes both realized and unrealized investment gains and losses on investments bought and sold as well as held during the year.

The Plan has a benefit-responsive investment contract with Ohio National. The contract is included in the financial statements at contract value as reported to the Plan by Ohio National. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes to Financial Statements (Continued)

Note 2: Summary of Significant Accounting Policies (Continued)

PAYMENT OF BENEFITS

Benefit payments to participants are recorded upon distribution. As of December 31, 2019 and 2018, net assets available for benefits included no benefits due to participants who had withdrawn from participation in the Plan but have not yet been paid.

RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2017, the *Financial Accounting Standards Board* (FASB) issued *Accounting Standards Update* (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)*, which relates to the reporting requirements for an employee benefit plan with an interest in a master trust. ASU 2017-06 requires a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. ASU 2017-06 removes that requirement to disclose the percentage interest in the master trust for plans with divided interests and require that all plans disclose the dollar amount of their interest in each of those types of investments, which supplements the existing requirement to disclose the master trusts balances in each general type of investments. During 2019, the Plan adopted ASU 2017-06. As a result, additional disclosures related to the Plan's interest in the master trust have been made. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Note 3: Information Certified by the Plan Trustees

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus Financial, N.A., The Ohio National Life Insurance Company and Wells Fargo Bank, N.A., the Trustees of the plan, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reported in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.
- Net appreciation/depreciation in fair value of investments, dividends and interest income from notes receivable from participants reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Investments reflected on the schedule of assets (held at end of year).

Notes to Financial Statements (Continued)

Note 3: Information Certified by the Plan Trustees (Continued)

The following is a summary of the unaudited information regarding the Plan as of December 31, 2019 and for the year then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Wells Fargo Bank, N.A., the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that such information is complete and accurate.

Note 4: Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes to Financial Statements (Continued)

Note 4: Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Funds: Valued at the net asset value of units of the funds. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to confirm that securities liquidations will be carried out in an orderly business manner. As the practical expedient is utilized, these funds are not included in the fair value leveling table, but are included as a reconciling line item to the statements of net assets available for benefits.

Notes to Financial Statements (Continued)

Note 4: Fair Value Measurements (Continued)

Common/Collective Trust Funds (Continued): The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of the Trust's investments whose values were estimated using a reported NAV at December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$366,295,176	\$0	\$0	\$366,295,176
Investments Measured at Net Asset Value (Practical Expedient)				478,885,403
Investments at Fair Value				\$845,180,579

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the year ended December 31, 2019.

The following table sets forth the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total

- (a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a "multi-style, multi-manager" approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investment in equity securities of companies with above-average earning growth prospects.

Value: Emphasizes investment in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Notes to Financial Statements (Continued)

Note 4: Fair Value Measurements (Continued)

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented investment styles to ensure style diversification.
- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. treasury securities and other debt securities issued or guaranteed by the U.S. government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.
- (d) The general fund is a stabilized fixed income portfolio managed by the trustees. The objective of the general fund is to produce stable returns that are usually higher than traditional money market investments. The general fund usually experiences little or no fluctuation in principal value as it is invested predominately in common collective trust funds invested in direct obligations of the U.S. government and U.S. government agencies. The general fund simulates the performance of a guaranteed investment contract, whereby participants execute Plan transactions at NAV per share based on contract value, as a practical expedient for measuring fair value. Contract value represents contributions made to the general fund, plus earnings, less participant withdrawals. The general fund is composed of a portfolio of fixed income securities and an investment contract issued by a financial institution, designed to provide a contract value "wrapper" around the fixed income portfolio to guarantee a specific return. Primary variables impacting future returns of the general fund include the current yield, duration and performance of the underlying assets within the wrap contract. Plan management believes that the occurrence of events that would cause the general fund to transact as less than contract value is not probable.

Note 5: Investment and Interest in the Thrift and Profit Sharing Trust for Cooperatives

Wells Fargo Bank, N.A. manages the Trust on behalf of the Thrift/Profit Sharing Plan under the terms of the trust agreement between the Trustee and the Thrift/Profit Sharing Plan. The Plan is a participant in the Trust. The authority to invest is vested in the Trustee, subject to the funding policy and investment objectives established by the Plan Administrator. The investment and changes therein of the Trust have been reported to the Thrift/Profit Sharing Plan by the Trustee. Since the Plan's funds are commingled with funds from other plans participating in the Trust, the investments are reported in these financial statements reflect only the Plan's allocable portion of the individual investments. The Plan participates in the investment activity of the Trust based on a weighted average of invested Plan assets to the total assets of the Trust on a daily basis. Common stock consists of certain investments which have been allowed to be rolled into the Trust without allocation to the Plan's investment options. Participation in these common stocks is based on the specific investments attributable to the Plan of which the participant is a member.

Note 6: Investment Contract with Insurance Company

The investment in the fixed annuity is a traditional guaranteed investment contract and is reported in the financial statements at contract value as reported to the Plan by Ohio National. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The following represents the disaggregation of contract value between types of investment contracts held by the Plan.

	2019	2018
Investment Contract at Contract Value	<u>\$33,899</u>	<u>\$65,823</u>

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the Trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Note 6: Investment Contract with Insurance Company (Continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material representation.
4. A material amendment to the agreements without the consent of the issuer.

Note 7: Related Party and Party-in-Interest Transactions

As described in Note 1, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. These transactions are exempt party-in-interest transactions under ERISA.

Note 8: Tax Status

The Plan has not requested a determination nor an opinion letter from the Internal Revenue Service (IRS) as of December 31, 2019. However, the participating employer and the Plan Administrator believe that the Plan currently is designed and is being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under IRC section 401(a), and the related trust continues to be tax exempt as of December 31, 2019 and 2018. Therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities, including mutual funds, common/collective trust funds, commingled funds and fully benefit-responsive contracts. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Subsequent Events

The financial impact of the COVID-19 pandemic continues to evolve as of the date of this report. The pandemic has adversely affected global economic activity and has contributed to deterioration and instability in the financial markets. As a result, the Plan's investment portfolio has incurred a decline in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that may be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

The Plan has evaluated subsequent events through October 12, 2020, the date the financial statements were available to be issued. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
