We have audited the accompanying financial statements of the Marathon Oil Company Thrift Plan (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019, and the related Notes to the Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America ("US GAAP"); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("US GAAS"). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019, in accordance with US GAAP.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to the Financial Statements
December 31, 2019 and 2018

1. Description of Plan

The following brief description of the Marathon Oil Company Thrift Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description or the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution thrift savings plan. The Plan covers substantially all regular and casual employees of the following entities, which are participating employers in the Plan: Marathon Oil Corporation ("MRO"), Marathon Oil Company (the "Company"), and Marathon Service Company. All of these participating employers, other than MRO, are wholly owned subsidiaries of MRO. An eligible employee may participate in the Plan by making contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Amendments

Effective as of January 1, 2019, the Company amended and restated the Plan in its entirety. The provisions of this amended and restated Plan incorporate certain plan design changes, including certain changes to the definition of eligible pay, certain changes to the plan's deferral election limits, making catch-up contributions eligible for company match, a decrease in the number of allowable participant loans, implementation of hardship withdrawals and automatic enrollment for new hires and rehires, and other governance revisions. The provisions of the Plan apply to determine eligibility, eligible pay, contributions, distributions, investments, and other Plan activities.

Contributions

Participants may elect to contribute 1% to 60% of their eligible pay, as defined in the Plan document, each pay period on a combined 401(k) pre-tax, after-tax, and/or Roth after-tax basis, up to the annual IRS limits. The 2019 annual IRS contribution limit is \$19,000 for participants age 49 or younger and \$25,000 for participants who are or who will attain at least age 50 by the end of the 2019 calendar year.

The contributions of highly compensated employees are subject to additional limitations pursuant to the provisions of Code Sections 401(k) and 401(m). Compensation of a participant taken into account under the Plan is limited to \$280,000 and \$275,000 for 2019 and 2018, respectively, as provided in Code Section 401(a)(17).

Newly hired or rehired eligible employees will automatically be enrolled into the Plan at a 7% pre-tax contribution rate, unless the participant opts out or proactively enrolls in the Plan. With this automatic enrollment, participant plan contributions will be invested in the applicable default age based FIAM Blend Target Date Commingled Pool Class Q fund if an investment election is not on file for a participant.

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2019 and 2018

Participants may also make rollover contributions or direct-plan transfer contributions of qualified distributions from the qualified plans of the Company, its subsidiaries, its affiliates, and any other qualified plans or conduit individual retirement accounts ("IRA") upon specific authorization and subject to such terms and conditions as set forth by the Plan Administrator.

To the extent that the Company has accumulated earnings and profits, the Company will match on a dollar for dollar basis each participant's after-tax, pre-tax/Roth 401(k), and catch-up contributions to the Plan up to an aggregate of 7 percent of each participant's eligible gross pay.

Valuation of Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings (losses) based on the participant's relative investment holdings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company contributions, plus actual earnings thereon, in any of the following ways: upon retirement under the Retirement Plan of the Company; at death; after three years of vesting service with the Company or another employer within the controlled group of MRO; or upon attainment of age 65.

Participant Loans

Participants may borrow from their fund accounts at a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are collateralized by the balance in the participant's account and bear interest rates that ranged from 3.25 percent to 8.25 percent throughout 2019 and 2018, determined in accordance with Plan provisions. Principal and interest is paid ratably through payroll deductions for active employees and through automatic payments for participants not receiving pay and retirees. The loans must be repaid within a certain period of time as specified in the Plan's loan procedures. The terms of these Plan loan notes range from a minimum of 12 months to a maximum of 60 months. Upon a participant's termination of employment from a participating employer and all companies within the controlled group of MRO prior to being a retired member, an outstanding loan generally becomes payable (with a limited exception for parties-in-interest). Effective January 1, 2019, generally no more than two outstanding loans at one time are allowed per participant under the Plan.

Hardship Withdrawals

Hardship withdrawals are available to participants. A hardship withdrawal is a withdrawal due to an immediate and significant financial need at a time when other resources are not readily available. Reasons for hardship withdrawals are limited to specific IRS requirements.

Notes to the Financial Statements

Payment of Benefits

On termination of service, unless a participant elects otherwise or as required by the Code, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The participant alternatively may elect to defer the commencement of benefits until a date no later than the April 1 immediately following the calendar year in which such participant attains age 70-1/2. However, if a participant's vested account balance is \$5,000 or less when he or she terminates employment from all companies within the controlled group of MRO or thereafter, if he or she does not initiate a full distribution or rollover, the participant's vested account balance will be distributed. In such case, vested accounts of \$1,000 or less will be paid as a lump sum distribution, and in accordance with the provisions of the Code, mandatory distributions equal to or less than \$5,000 but greater than \$1,000 require automatic rollover to an IRA for participants who fail to make an active election otherwise available under the Plan. A retired member or a spouse beneficiary member may withdraw, during any year, all or any portion of the remaining balance in his or her account, subject to certain restrictions. An installment settlement option is available to retired participants subject to certain requirements and restrictions.

Forfeitures

Non-vested participants whose services with the Company have been terminated will forfeit their entire Company-matching contribution and earnings thereon when either of the following takes place: (1) they remove their participant contributions from the Plan, or (2) they do not regain employment within five years of termination. Company contributions and earnings thereon are eligible for reinstatement, should a member be rehired prior to the limitation indicated under the Plan. Total forfeitures of \$240,000 for the year ended December 31, 2019 were used to reduce employer matching contributions made to the Plan. The forfeited balance held in the Plan as of December 31, 2019 and 2018 was \$17,860 and \$7,223, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

investments bought and sold as well as held during the year. Investment related expenses are also included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Administration of Plan Assets

All costs, expenses, and fees incurred in administering the Plan, to the extent not paid by the Company, are incurred by the participants. Fees or charges for investment management services are not paid by the Company but are borne by the participants electing such services. Any taxes applicable to the participants' accounts are charged or credited to the participants' accounts by Fidelity Investments Institutional Operations Company, Inc ("FIIOS").

Accounting Standards Update

In July 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards ("ASU") No. 2018-09, "Codification Improvements". ASU No. 2018-09 requires prospective application and is effective January 1, 2019, with early adoption permitted. This standard reflects several provisions, with the relevant amendment to the Plan being the disclosure requirements relating to stable value common collective trust funds. This accounting standard has no impact on the Plan's disclosures.

In August 2018, FASB issued ASU No. 2018-13, "Fair Value Measurement (Topic 820) - Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement". The ASU No. 2018-19 modifies the disclosure requirements for the fair value measurements in Topic 820, including the elimination, modification to, and addition of certain disclosures. The ASU is effective January 1, 2020. The updated guidance is not expected to have a material impact on the Plan's financial statements.

3. Fair Value Measurements

The FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach, and the cost approach, each of which includes multiple valuation techniques. This hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities and have the highest priority;

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2019 and 2018

- Level 2 inputs consist of quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in inactive markets, or inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- Level 3 inputs are unobservable and significant to the fair value measurement and have the lowest priority.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following provides a description of the valuation techniques employed for each major plan asset class at December 31, 2019 and 2018.

Common stock - Investments in common stocks are valued using a market approach at the closing price reported in an active market and is therefore considered Level 1.

Brokeragelink Investments - Participants can open a self-directed brokerage account within the Plan that allows participants to buy and sell stocks, corporate bonds, treasury securities, and other securities on the active market. These securities are valued using a market approach at the closing price reported in an active market and are therefore considered Level 1.

Mutual funds - Investments in mutual funds, including money market mutual funds, are valued using a market approach at the net asset value of shares held. The net asset value is generally based on prices from a public exchange, which is normally the principal market on which the investments are traded, and is considered Level 1. Interest-bearing cash includes cash on deposit.

Thrift Plan

Notes to the Financial Statements

December 31, 2019 and 2018

Common Collective Trusts ("CCTs") - The FIAM Target Date Commingled Pools, the Fidelity Growth Company Commingled Pool, and the MIP II are CCTs. The target date pools seek active return until the pool's targeted retirement year. Thereafter, the pool's objective will be capital preservation. These pools invest in a diversified portfolio of equity, fixed income and/or short-term products. The underlying pools may use futures, options, swaps, and exchange traded funds to remain fully invested, while being able to respond to participant cash flows and to take advantage of changes in interest rates and other factors affecting value. Each target date pool's target asset allocation percentages will become more conservative over time by reducing allocations to equity and increasing allocations to fixed income and/or short-term products. Each target date pool's retirement date target allocation will be approximately 50 percent equity index, 40 percent fixed income index, and 10 percent short term. The growth company CCT normally invests primarily in common stocks of domestic and foreign issuers with the potential for above-average growth. Growth may be measured by factors such as earnings or revenue. The MIP II invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds. Under the terms of the contracts, the assets of the fund are invested in fixed income securities and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. The fund seeks principal preservation to maintain a stable net asset value (NAV) of \$1 per share. There are no redemption restrictions on any of these CCTs. There are also no unfunded commitments attributable to any of the CCTs. Investment in CCTs are valued using a market approach at the net asset value of units held, but investment opportunities in such funds are limited to institutional investors on behalf of defined contribution plans. CCTs have been reported in the fair value table without leveling since fair value is measured using the net asset value per share practical expedient.

The following tables set forth the Plan's total investments:

4. Party-in-Interest Transactions

The trustee of the Plan's trust (Trustee) provides certain accounting and administrative services to the Plan for which approximately \$34,601 and \$10,851 of expenses were charged for the years ended December 31, 2019 and 2018, respectively. Certain Plan investments, amounting to \$738,432,381 and \$731,265,901 at December 31, 2019 and 2018, respectively, are managed by affiliates of the Trustee.

Certain employees and officers of the Company, who may also participate in the Plan, perform administrative services to the Plan at no cost.

Shares of MRO common stock previously could be purchased directly from MRO or on the open market. MRO common stock held in the Plan as of December 31, 2019 and 2018 was \$16,713,103 and \$20,796,578, respectively. During 2016, all shares of the MRO common stock were purchased on the open market until December 30, 2016 when MRO stock became a frozen investment option in the Plan. Certain Plan investments are shares of mutual funds managed by FIIOS, and the CCTs are managed by FIAM (Fidelity Institutional Asset Management). Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

The Plan also holds notes receivable representing participant loans that qualify as party-in-interest transactions.

All party-in-interest transactions noted above are deemed exempt from the prohibited transaction rules.

5. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Marathon Oil Company
Thrift Plan
Notes to the Financial Statements
December 31, 2019 and 2018

6. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Plan Administrator by letter dated June 11, 2015, that the Plan, as amended, meets the requirements of Code Section 401(a), and the trust is not subject to tax under present income tax law. This determination letter was applicable for the amendments executed September 24, 2014 and prior. The Plan Administrator and the Plan's tax counsel believe that the Plan, as amended and restated, is designed and is currently being operated in compliance with the applicable requirements of the Code.

GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Marathon Oil Company
Thrift Plan
Notes to the Financial Statements
December 31, 2019 and 2018

8. Subsequent Events

Events and transactions subsequent to the balance sheet date have been evaluated through the date these financial statements were issued for potential recognition or disclosure in the financial statements.

On March 11, 2020, the World Health Organization (“WHO”) classified the global coronavirus outbreak (COVID-19) as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan’s investment portfolio has incurred a significant decline in fair value since December 31, 2019. However, because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

In December of 2020, the Setting Every Community up for Retirement Enhancement Act of 2019 (the “SECURE Act”) was signed into law, and in March of 2020, in connection with the global COVID-19 pandemic, the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) was signed into law. The Plan is implementing certain provisions of the SECURE Act and CARES Act, including any that are legally required, and continues to evaluate other provisions of these Acts.

In 2020, the Company implemented a workforce reduction. The workforce reduction impacted over 200 positions, but the corresponding reduction in Plan participation was less than 20% of active employees participating in the Plan. As described in IRS Revenue Ruling 2007-43, a partial termination is presumed to occur with respect to a plan if 20% of employees participating in the plan have an employer-initiated severance from employment during the applicable period (the specific calculation referred to as the “turnover rate”). Because the reduction in force affected less than 20% of employees participating in the Plan, and the turnover rate determined including the workforce reduction is less than 20%, as of the date of these financials, there is no presumption that a partial termination has occurred. The Plan Administrator will continue to monitor changes in its workforce and employer-initiated terminations during 2020 and thereafter and will evaluate whether additional subsequent events result in a partial termination of the Plan based on the specific facts and circumstances surrounding such subsequent events.
