INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Pension Plan for Hourly Employees of Continental NA Automotive:

Report on the Financial Statements

We have audited the accompanying financial statements of the Pension Plan for Hourly Employees of Continental NA Automotive (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility for the 2019 Financial Statements

Our responsibility is to express an opinion on the 2019 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2019 financial statements.

Auditors' Responsibility for the 2018 Financial Statements

Our responsibility is to express an opinion on the 2018 financial statements based on conducting the audit in accordance with generally accepted auditing standards in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion on the 2018 Financial Statements paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2018 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the investment assets held by State Street Bank and Trust Company and KeyBank National Association, collectively, the Trustees of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 2018 financial statements, except for comparing the information provided by the Trustees, which is summarized in Note 3, with the related information included in the financial statements.

Disclaimer of Opinion on the 2018 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2018 Financial Statements paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements. Accordingly, we do not express an opinion on these financial statements.

Opinion on the 2019 Financial Statements

In our opinion, the financial statements, referred to above, of the Plan, as of December 31, 2019, and for the year then ended, present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019, and the changes in net assets available for benefits for the year then ended in accordance with generally accepted accounting principles in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for the purpose of additional analysis and are not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content of the 2018 Financial Statements in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2018 financial statements, other than that derived from the information certified by the Trustees have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	4	
	Stabilized	Nonstabilized
• First 5 years	3.74%	2.28%
• Next 15 years	5.35%	3.81%
• Over 20 years	6.11%	4.46%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables. These tables are based on RP2014 mortality tables with improvements beyond 2006 removed with static mortality improvement based on the IRS methodology and projection scale MP-2017	
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits	
Other economic assumptions		
• Expected investment Return	6.50% per year for calendar year 2017, 6.25% per year for calendar year 2018 and 4.75% per year for calendar year 2019	
• Expenses	\$278,000 added to current year normal cost	

Rationale for Significant Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 8 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expenses rounded to the nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Demographic assumptions	
• Withdrawal	140% of the Mercer modified 2003 SOA Turnover Table. See table of sample rates.
• Disability incidence	82% of the 1985 Pension Disability Table class - 2. See table of sample rates. 100% of participants becoming disabled are assumed to be eligible for Social Security disability benefits.

65	0.00%	3.03%	2.10%

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for Significant Demographic Assumptions**

- Withdrawal rates, retirement rates and form of payment assumptions are based on the experience study Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.
- The disability decrement assumption is 82% of the 1985 Pension Disability Table - Class 2. The plan's relatively small size would not support a credible decrement study therefore use of a standard table is appropriate.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 19 — Discounted Employer Contribution

Date	Amount contributed	Plan year	Applicable effective interest rate	Discounted value on January 1, 2019
10/07/2020	\$ 483,000	2019	5.45% ¹	\$ 439,854
Total	\$ 483,000			\$ 439,854

¹ In determining the discounted value of contributions, the 2019 effective interest rate of 5.45% was applied from the quarterly contribution due date (September 15, 2020) to the valuation date (January 1, 2019) and the 2020 effective interest rate of 5.29% was applied for the delayed period by which the contribution was made after September 15, 2020 as permitted by the CARES Act.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year covered under PPA. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases			
Year established	Outstanding balance	Years remaining	2019 Installment
2019	\$ 877,729	7	\$ 142,620

Effective date and plan year	Original plan: October 1, 1988 Restated plan: January 1, 2015 Last amended: January 1, 2019 Plan year: January 1	
Status of the plan	Effective December 31, 2004, all benefits accrued under the Plan were frozen.	
Significant events that occurred during the year	None	
Definitions		
• Participation	Date of employment. Participation in the plan is closed.	
• Employee contributions	None	
• Vesting service	From date of hire. One year of Eligibility Service is credited for each Plan Year in which 1,000 hours of service are worked.	
• Credited service	Years worked after employee becomes a participant. A twelfth of a year shall be credited if the hours worked are between 70.83 and 212.50. An additional twelfth is credited for each 141.67 hours in excess of 212.50 such that a full year is credited if there are 1,700 or more hours of service in a plan year. Credited Service is frozen effective December 31, 2004.	
Normal retirement

Early retirement		
• Eligibility	Age 60 with 10 years of Eligibility Service	
• Benefit	The annual pension is the benefit accrued to Early Retirement date reduced by a certain percentage to reflect early commencement. This percentage is 5/9 of the 1% for each month prior to Normal Retirement date.	

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	Age 60 with 10 years of Eligibility Service
• Benefit	The annual pension is the accrued benefit deferred to age 65 or, if the participant elects, a reduced pension to begin any time between age 60 and 65. The reduction for early commencement is described in the Early Retirement section above.
Disability	
• Eligibility	Ten years of Eligibility Service and eligible for Social Security disability benefits.
• Benefit	The annual pension payable immediately is computed as under Normal Retirement. A temporary benefit is also payable until age 65 and is computed under Normal Retirement, not to exceed \$212.50.
Pre-retirement death	
• Benefit prior to early retirement	50% Joint & Survivor benefit payable to beneficiary at later of date of participant's death or participant's attainment of age 60, unless pre-retirement death benefit coverage waived by employee
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Late retirement factor	UP 1984 Mortality Table and 7% Interest Rate
• Automatic form for married participants	50% Joint and Survivor
• Optional forms	75% Joint and Survivor
• Lump sum cash-out	Benefit paid immediately to participant as a lump sum if the Actuarial Equivalent of the age-65 monthly retirement benefit payable as a Life Annuity is less than \$5,000.
• Optional form conversion factors	IRC Section 417(e) mortality table for the applicable year and interest based on 3-segment yield curve with 4 month look-back, but not less than IRC Section 417(e) mortality table and 7% interest rate or UP 1984 mortality table and 7% interest rate.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. When the plan benefits were frozen, the limit was \$165,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015 including second amendment are included in this valuation

- **Most recent plan amendments included:** October 1, 2019 amendment changed the name of the plan.
- **Plan amendments excluded:** None

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

The Plan was renamed from the *Pension Plan for Hourly Employees of Continental NA Automotive* to the *Continental Powertrain Hourly Pension Plan* on January 1, 2019. Further, the plan was renamed to the *Vitesco Technologies Hourly Pension Plan* on October 1, 2019.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

The following assumption changes have occurred since the January 1, 2018 valuation.

- The expense component of normal cost increased from \$181,000 to \$278,000 to reflect our expectations for the current plan year.
- Expected investment return decreased from 6.25% for 2018 to 4.75% for 2019.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Pension Plan for Hourly Employees of Continental NA Automotive:

Report on the Financial Statements

We have audited the accompanying financial statements of the Pension Plan for Hourly Employees of Continental NA Automotive (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility for the 2019 Financial Statements

Our responsibility is to express an opinion on the 2019 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2019 financial statements.

Auditors' Responsibility for the 2018 Financial Statements

Our responsibility is to express an opinion on the 2018 financial statements based on conducting the audit in accordance with generally accepted auditing standards in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion on the 2018 Financial Statements paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2018 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the investment assets held by State Street Bank and Trust Company and KeyBank National Association, collectively, the Trustees of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 2018 financial statements, except for comparing the information provided by the Trustees, which is summarized in Note 3, with the related information included in the financial statements.

Disclaimer of Opinion on the 2018 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2018 Financial Statements paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements. Accordingly, we do not express an opinion on these financial statements.

Opinion on the 2019 Financial Statements

In our opinion, the financial statements, referred to above, of the Plan, as of December 31, 2019, and for the year then ended, present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019, and the changes in net assets available for benefits for the year then ended in accordance with generally accepted accounting principles in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for the purpose of additional analysis and are not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content of the 2018 Financial Statements in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2018 financial statements, other than that derived from the information certified by the Trustees have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

VITESCO TECHNOLOGIES HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF PLAN

Effective October 1, 2019, the name of the plan was changed to the Vitesco Technologies Hourly Pension Plan (the "Plan"). Prior to October 1, 2019, the name of the Plan was the Pension Plan for Hourly Employees of Continental NA Automotive. The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan sponsored by Vitesco Technologies USA, LLC ("the Employer"). The Plan commenced October 1, 1988. Effective December 31, 2004, the Plan was frozen, and accordingly, there will be no further benefit accruals with respect to any employee after December 31, 2004, and no new employees may enter the Plan after December 31, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan, the Continental NA Automotive Union Pension Plan (Huntsville), the ContiTech USA, Inc. Defined Benefit Plan and the Vitesco Technologies USA, LLC Pension Plan (collectively, the "Participating Plans") in the Master Trust. These plans own specific assets of the Master Trust. Investment earnings for each fund is allocated to each plan based on the ownership interest of each plan in the fund.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the year ended December 31, 2019, the Employer made contributions totaling \$483,000. The Employer's contributions for the year ended December 31, 2019 exceeded the minimum funding requirements of ERISA. For the year ended December 31, 2018, no contributions were necessary to meet the minimum funding requirements of ERISA.

Pension Benefits - Participants with at least five years of eligible service, as defined in the plan document, who retire after January 1, 1997 at normal retirement age 65, are entitled to monthly pension benefits for life equal to a specified dollar amount ranging from \$16 to \$30 for each year of credited service. If the present value of vested benefit is less than \$1,000, then the Plan provides for lump sum payments of accumulated pension benefits to participants.

The Plan permits early retirement provided the participant has reached age 60 and has completed at least ten years of eligible service. Eligible participants may elect to receive monthly early retirement benefits which are payable after age 60 but prior to age 65, in the amount of \$300 per month. Eligible participants who are age 63 and seven months or older on the date employment is terminated may elect to receive a lump sum payment of \$5,000 in lieu of the \$300 monthly amount.

Death and Disability Benefits - Unless a participant elects otherwise, in the event of a participant's death, the Plan also provides for a life annuity to a participant's surviving spouse equal to 50% of the reduced monthly benefit amount to which the participant was entitled under the Plan at the time of the participant's death. Benefits commence on the first day that the participant would have been eligible for early retirement.

Participants disabled prior to age 65, having completed at least ten years of employment and eligible for Social Security disability benefits, are eligible for disability benefits. The amount is equal to the normal retirement benefit based upon years of credited service at the disability retirement date, plus an additional benefit in the same amount payable during the period from the disability retirement date until age 65 or the date the participant becomes eligible for full disability insurance benefits under the Federal Social Security Act, whichever comes first.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - As of December 31, 2019, the Master Trust and the Plan place their temporary cash and cash equivalents with high credit quality financial institutions. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. The plan administrator believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Investments, and the income and losses therein, are allocated to the Participating Plans based on each plan's participation in investment options within the Master Trust. Accordingly, the Plan's investment income (loss) includes its allocable share of the Master Trust's interest income and net appreciation (depreciation) in fair value of investments.

The Plan's cash equivalents held outside of the Master Trust record purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are reflected as a reduction of the Plan's interest in the Master Trust's income (loss) in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - Management has evaluated subsequent events through October 13, 2020, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's asset information as of December 31, 2018, and for the year then ended, included in the financial statements that was prepared by, or derived from, information prepared by State Street Bank and Trust Company ("State Street") and KeyBank National Association (collectively, the Trustees of the Plan), and furnished to management. Management has obtained certifications from the Trustees that such information is complete and accurate as of and for the year ended December 31, 2018.

Assets:

Plan interest in the Master Trust (Note 5)	\$ 19,247,476
Cash equivalents	\$ 101,895

Income (loss):

Plan interest in the Master Trust's income (loss) (Note 5)	\$ (328,394)
Interest income	\$ 330

4. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2019 and 2018.

Government and corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issues with similar credit ratings.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Cash equivalents: Valued as of the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

5. INTEREST IN MASTER TRUST

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following is a summary of the net assets of the Master Trust as of December 31, 2019 and 2018, and for the years then ended, that was prepared by, or derived from, information prepared by State Street and furnished to management.

6. RISKS AND UNCERTAINTIES

The Master Trust and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated October 18, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the Pension Benefits Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments of the Master Trust and the Plan are managed by the Trustees, as defined by the master trust agreement and plan document, and therefore, these transactions qualify as exempt party-in-interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party in interest transactions.

10. SUBSEQUENT EVENT

On March 10, 2020, the World Health Organization declared the coronavirus outbreak ("COVID-19") to be a pandemic. COVID-19 pandemic has also led to extreme volatility in financial markets and has affected, and may continue to affect, the market price of the Plan's assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

11. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2019. Had the valuation been performed as of December 31, 2018, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2018 were:

Discount rate	4.35%
Mortality basis after normal retirement age	RP-2014 separate annuitant/non-annuitant generational tables back projected to 2006 using MP-2014 with future improvement using the MP-2018 projection scale
Expected long-term return on assets	4.35%, net of expenses in the amount of \$210,000

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2018, was as follows:

Vested benefits:	
Active participants	\$ 4,546,573
Inactive participants receiving benefits	12,802,144
Inactive participants with deferred benefits	<u>2,896,740</u>
Total vested benefits	20,245,457
Nonvested benefits	<u>146,758</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 20,392,215</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2018, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	\$ 22,366,670
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	802,482
Change in actuarial assumptions	(1,571,590)
Benefits paid	(1,251,621)
Benefits accumulated and losses	<u>46,274</u>
Net change	<u>(1,974,455)</u>
Actuarial present value of accumulated plan benefits as of end of year:	<u>\$ 20,392,215</u>
