SUPERIOR CONTROLS, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Description of plan:

The following description of the Superior Controls, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Superior Controls, Inc. (the Company, Plan Sponsor, or Plan Administrator). The Plan was a defined contribution plan covering substantially all employees of the Company who had at least three months of service and had attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees was responsible for oversight of the Plan. The Investment Committee determined the appropriateness of the Plan's investment offerings, monitored investment performance, and reported to the Plan's Board of Trustees. Effective December 31, 2019, all Plan participants and assets totaling \$15,831,532 were transferred to the affiliated E-Tech 401(k) Plan (E-Tech Plan), effectively merging the Plan out of existence.

Contributions

Each year, participants could contribute from 1% to 100% of pre-tax or after-tax annual compensation, as defined in the Plan. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically-enrolled participants had their deferral rate set at 3% of eligible compensation and their contributions invested in a designated default investment fund until changed by the participant. The employee contribution deferral rate was automatically increased by one percentage point annually until the amount withheld from the contribution deferral percentage reached 6%. A participant could elect to change their deferral percentage in one percentage point increments, change their investment option, or decline to participate in the Plan at any time. The Company made safe harbor matching contributions. For 2019, the Company made safe harbor matching contributions of 100% of the first 1% of eligible compensation and 50% of the next 5% of compensation deferred to the Plan, not to exceed 6%. The Company could also elect to make discretionary nonelective matching contributions. During the year ended December 31, 2019, the Company did not make a discretionary nonelective matching contribution to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations. Participants directed the investment of their contributions into various investment options offered by the Plan.

Notes to Financial Statements - Continued

December 31, 2019 and 2018

Note 1 - Description of plan - continued:

Participant accounts

Each participant's account was credited with the participant's contributions and Company safe harbor matching contributions, as well as allocations of the Company's discretionary nonelective matching contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon was based on years of continuous service.

Participants became vested in Company safe harbor matching and discretionary nonelective contributions in accordance with the following schedule:

<u>Completed Years of Service</u>	<u>Percentage Nonelective Matching Contributions Vested</u>	<u>Percentage Safe Harbor Matching Contributions Vested</u>
1	0%	50%
2	20%	100%
3	40%	100%
4	60%	100%
5	80%	100%
6 or more	100%	100%

Participants were immediately vested upon termination of the Plan, upon reaching the normal retirement age of 65, or upon disability or death while an employee of the Plan Sponsor. Forfeitures of terminated participants' non-vested accounts were used to reduce the Company's contribution or pay Plan expenses for the Plan year.

SUPERIOR CONTROLS, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements - Continued

December 31, 2019 and 2018

Note 1 - Description of plan - continued:

Forfeitures

At December 31, 2019 there was no balance in the Plan related to forfeited non-vested accounts. At December 31, 2018, forfeited non-vested accounts totaled \$28,875. During the year ended December 31, 2019, no amount of forfeitures were used to reduce Company contributions or to pay Plan expenses. The forfeiture account balance was included in the final transfer to the E-Tech Plan.

Payment of benefits

A participant was entitled to receive a lump-sum amount equal to the vested value of his or her account upon attainment of age 59½, termination of service, retirement, disability, or death. A participant could request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal was limited to the amount of the participant's pre-tax contributions and earnings thereon.

Notes receivable from participants

Participants could borrow from the Plan in any amount greater than \$1,000 up to 50% of the participant's vested account balance, not to exceed \$50,000. Note terms were for a period not exceeding 5 years unless for the purchase of a principal residence, in which case the note repayment period could not extend beyond 15 years. Notes were secured by the balance in the participant's account and bore interest at an agreed-upon percentage based on prevailing market rates. Principal and interest was paid ratably through payroll deductions. Participants were allowed one outstanding note.

Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. The Company reserved the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation of fair value of investments.

The Plan maintained an ERISA budget account to hold ERISA budget account credits transferred to the Plan by the Plan's service provider in accordance with the ERISA Budget Account Agreement. For each year in which an ERISA Budget Account Agreement was in effect with a service provider, the Plan Administrator could, in its discretion direct the service provider to either pay reasonable Plan administrative expenses with the ERISA budget account

credits or allocate the ERISA budget account credits among the accounts of the participants with a balance in the Plan. Income related to these credits was recorded as "Other income" on the accompanying financial statements.

At December 31, 2019, there was no balance in the ERISA budget account. During the year ended December 31, 2019, \$109,983 was allocated to participant accounts from the ERISA budget account.

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principals generally accepted in the United States of America (U.S. GAAP).

Fully benefit-responsive investment contract

Fully benefit-responsive investment contracts are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contract plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the guaranteed interest account, see Note 8. The statements of net assets available for benefits present the contract value of the guaranteed interest account.

Investment valuation and income recognition

Investments are reported at fair value (except for those noted in Note 8, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and Empower Retirement as agent for Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (Empower). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes to Financial Statements - Continued

December 31, 2019 and 2018

Note 2 - Summary of significant accounting policies - continued:

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

New accounting pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). ASU 2018-13 changes the fair value measurement disclosure requirements of Accounting Standards Codification 820, *Fair Value Measurement* (ASC 820). Applicability of the provisions in ASU 2018-13 can depend on whether the reporting entity is a non-public entity. New disclosure requirements under ASU 2018-13 are applicable only to other than non-public entities and not applicable to this Plan. Eliminated and modified disclosure requirements under ASU 2018-13 impact the reporting of transfers between Level 1

and Level 2 assets, Level 3 asset disclosures, and disclosures about investments in certain entities valued at net asset value (NAV). ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Early adoption is permitted. Entities early adopting are permitted to early adopt the eliminated or modified disclosure requirements and delay the adoption of all new disclosure requirements until the effective date. Retrospective or prospective application to periods presented varies by specified disclosure. Management elected not to early adopt ASU 2018-13 and believes that the adoption of ASU 2018-3 would not have had a material impact on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through October 14, 2020, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2019, have been incorporated into these financial statements.

Note 3 - Investments and information certified by Empower:

Empower held the Plan's investment assets and executed investment transactions. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends, other income, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Empower.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SUPERIOR CONTROLS, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements - Continued

December 31, 2019 and 2018

Note 4 - Fair value measurements - continued:

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

- Units of participation in pooled separate accounts are valued at the NAV provided by the fund's trustee as a practical expedient to estimate fair value. The NAV is based on the quoted market prices of the underlying investments held in the pooled separate accounts at year-end.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no assets included in the fair value hierarchy at December 31, 2019 and 2018.

Note 4 - Fair value measurements - continued:

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018:

<u>December 31, 2018</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$ 11,800,843	None	Daily	Daily

Note 5 - Related-party transactions:

Certain Plan investments were pooled separate accounts and a guaranteed interest account managed by an affiliate of Empower. Empower held the Plan investment assets and executed investment transactions and, therefore, these transactions qualify as party in interest transactions and are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation.

Note 6 - Plan termination:

Effective December 31, 2019, all participants and assets of the Plan were transferred to the E-Tech Plan effectively merging the Plan out of existence. As a result of the transfer, participants became 100% vested in their accounts.

Note 7 - Tax status:

The underlying prototype plan has received an opinion letter from the IRS dated March 31, 2014 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Guaranteed investment contract with insurance company:

The Plan entered into a fully benefit-responsive guaranteed interest account with Great-West Life & Annuity Insurance Company (GWLAI). GWLAI maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account was presented on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by GWLAI, represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting. The contract could not be terminated before the scheduled maturity date.

Certain events might have limited the ability of the Plan to transact at contract value with the contract issuer. These events could be different under each contract. Examples of such events included the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes on the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

The Plan Administrator believed that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would have limited the ability of the Plan to transact at contract value with the participants.

Note 8 - Guaranteed investment contract with insurance company - continued:

In addition, certain events allowed the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events could be different under each contract. Examples of such events included the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.
