Southwest Spine & Pain, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2019 (Audited) and 2018 (Compiled)

Note 1 – Plan Description

The following brief description of the Southwest Spine & Pain, LLC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions.

General – Southwest Spine & Pain, LLC is a member of a controlled group. The Plan covers affiliated employers of the controlled group including Frieden Pain Management PC, JBHL Spine and Pain Care PC, and RWO Enterprises PC (collectively referred to as the Company). The Company established the Plan effective as of January 1, 2017 and the Plan was amended and restated effective September 20, 2019. The Plan is a defined contribution plan covering employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Employees are eligible to participate in the Plan if they have completed one year of service and are at least 21 years of age. Employees are credited with a year of service at the end of the twelve month period beginning on the date of hire if they have been credited with at least 1,000 hours of service during such period. Employees enter the plan on the first day of the month on or after they meet the eligibility requirements.

Contributions – Each year, participants may elect to contribute up to the maximum amount of compensation allowed by Code Sections 402(g) and 414(v) not to exceed the limits of Code Sections 401(k), 404, and 415 (for 2019 the limit is \$19,000). This amount is indexed periodically for changes in the cost-of-living index. This limit applies to all employee 401(k) contributions made during a tax year to any 401(k) plans maintained by a present or former employer. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to \$6,000 for 2019. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes a safe harbor non-elective contribution of 3% of the participant's compensation. The Plan also allows for profit sharing contributions at the Company's discretion. Profit sharing contributions are allocated to participants using the grouping method. Participants are eligible for profit sharing if they have met the initial eligibility requirements (age 21 or older and completed one year of service) and are employed on the last day of the plan year. Amounts are funded each pay period and true-up calculations and contributions for the safe harbor non-elective contribution and profit sharing gateway minimum are made after the plan year-end (amounts are accrued as a receivable each year).

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Upon enrollment in the Plan, a participant may direct deferrals and employer contributions in selected investment options. Participants may change their investment options at any time.

Notes to Financial Statements (Continued)

December 31, 2019 (Audited) and 2018 (Compiled)

Note 1 – Plan Description (Continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also immediately vested in the Company's safe harbor non-elective contribution plus actual earnings thereon. Vesting in the Company's profit sharing portion of their accounts plus actual earnings thereon is based on years of continuous service. A year of service requires completion of 1,000 hours of service. A participant is 100% vested after four years of credited service for profit sharing contributions (with 25% vesting each year under a four-year graded vesting schedule).

Payment of Benefits and Withdrawals – On termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts – Forfeited accounts are used to reduce future employer contributions. Forfeited nonvested accounts total \$1,916 and \$4,262 as of December 31, 2019 and 2018, respectively. During the plan year ended December 31, 2019, \$2,129 of nonvested participant funds were forfeited and \$6,180 were used to reduce employer contributions.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review – Subsequent events were evaluated through October 14, 2020, which is the date the financial statements were available to be issued.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting – The accompanying financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but had not yet been paid as of December 31, 2019 and 2018. The Plan does not allow for hardship withdrawals or other in-service distributions.

Note 2 – Summary of Significant Accounting Policies (Continued)

Administrative Expenses – Certain administrative expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

If the Plan terminates, benefits are not insured by the Pension Benefit Guaranty Corporation (PBGC). Under the law, PBGC insurance does not cover the type of plans called defined contribution plans. This Plan is a defined contribution plan and, therefore, is not covered.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 5 – Information Prepared and Certified By Trustees

The following information included in the accompanying financial statements and supplementary schedules was obtained from data that has been prepared and was certified as to complete and accurate by the trustees of the Plan.

Note 6 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. FASB Accounting Standards Codification 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurements*, are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Interest-Bearing Cash – The fair value of interest-bearing cash is based on cash value at year-end.

Mutual Funds – The fair value of mutual funds is based on quoted market prices.

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers in or out of levels 1, 2, or 3.

Note 7 – Tax Status

The Plan uses a volume submitter plan sponsored by Professional Capital Services, LLC which received an opinion letter from the Internal Revenue Service (IRS), dated November 30, 2014, stating that the prototype document satisfies the applicable sections of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS.

The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. Generally, three tax years remain subject to examination by tax jurisdictions.

Note 8 – Exempt Party-in-Interest Transactions

Fees paid by the Plan to service providers amounted to \$9,855 for the year ended December 31, 2019 and are considered to be exempt party-in-interest transactions.

Note 9 – Nonexempt Party-in-Interest Transactions

The Company remitted participant contributions of \$19,630 to the trustee later than required by Department of Labor (DOL) Regulation 2510.3-102. The participant contributions are pending correction in VFCP.

Note 10 – Reconciliation of Financial Statements to Schedule H of Form 5500

As of the beginning of the 2019 plan year, the Form 5500 for the Plan was prepared on a cash basis, therefore, employer and participant contributions receivable are not reflected in the beginning balance of net assets available for benefits and are not reflected as an adjustment to the contribution income received from the employer and participants.

The reconciliation of the financial statements to the Schedule H of Form 5500 on a line-by-line basis is as follows:

	<u>Financial Statements</u>	<u>Schedule H</u>	<u>Difference</u>
<u>Part I Asset and Liability Statement (a) Beginning of Year</u>

Note 11 – Subsequent Events

The COVID-19 pandemic has caused significant business disruption throughout the world. While this disruption is considered temporary, the long-term financial impact to the Plan sponsor and Plan is uncertain.

On March 27, 2020 the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). The CARES Act provides temporary relief for retirement plan sponsors and their participants with respect to distributions. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document.
