Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

MAHLE Industries Incorporated Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of MAHLE Industries Incorporated Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019 and 2018 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Comerica Bank (the "Custodian"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2019 and 2018 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 4, the financial statements include investments in a limited partnership valued at \$15,608,162 (13 percent of net assets) at December 31, 2019 and at \$14,640,376 (14 percent of net assets) at December 31, 2018, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the Custodian. Our opinion is not modified with respect to this matter.

To the Plan Administrator
MAHLE Industries Incorporated Retirement Plan

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2019 and reportable transactions for the year ended December 31, 2019 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description includes the provisions of MAHLE Industries Incorporated Retirement Plan (the "Plan") and provides only general information. The Plan includes participants that are covered under various plan provisions dependent upon their location. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering eligible active, terminated, and retired employees and beneficiaries of MAHLE Industries, Incorporated (the "Company"), as defined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Vesting

The Plan is frozen to new participants. Employees actively participating in the Plan at December 31, 2011 are generally eligible to continue participating. Participants are fully vested in their accrued benefits after five years of service.

Pension Benefits

Eligible employees with five or more years of service are entitled to normal annual pension benefits beginning at normal retirement age 65 equal to a percentage, as specified in the Plan, of their final average annual compensation for each year of service up to 30 years, reduced by an amount the participant is or would be entitled to receive under the Social Security Act then in effect. The Plan permits early retirement at ages 55-64 with 10 years of service at a reduced benefit and allows participants to continue beyond the normal retirement age of 65.

If employees terminate before rendering 5 years of service, they forfeit the right to receive a benefit. If a participant becomes disabled before retirement but after completing 5 years of service, the participant will receive benefit payments at the time he or she would have reached normal retirement (or early retirement, if elected) based on the participant's compensation for the calendar year preceding the disability.

Death Benefits

If an active or terminated employee dies prior to the commencement of benefits under the Plan, his or her surviving spouse shall receive a survivor benefit, as defined in the Plan. Payments will commence on the deceased participant's normal retirement date or earliest retirement date at a reduced benefit, if elected.

Funding

The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Contributions

All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Payment of Benefits

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested value of the participant's accumulated plan benefits, if less than \$5,000, or in various installment annuities.

December 31, 2019 and 2018**Note 1 - Plan Description (Continued)*****Party-in-interest Transactions***

Certain plan assets are in investment funds managed by Comerica Bank (Comerica) or its affiliates. Comerica is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies***Investment Valuation and Income Recognition***

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are based on final average earnings, as defined in the Plan, subject to an adjustment based upon the date of a participant's termination or elective freezing of active status in accordance with the Plan's provisions.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2018, the date of the most recent valuation, are summarized as follows:

Actuarial cost method	Traditional unit credit
Discount rate	5.0 per annum
Mortality basis	The Pri-2012 blue collar/white collar mortality tables projected generationally using mortality improvement scale MP-2019
Assumed retirement age	Various rates ranging from 3.0 percent at age 55 to 100 percent at age 70+

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

Subsequent to year end, the Plan was restated on January 1, 2020 and amended to freeze the Plan's benefit accruals effective at the end of the day on March 31, 2020. The actuarial present value of accumulated plan benefits disclosed in Note 5 does not reflect the impact of this amendment.

The financial statements and related disclosures include evaluation of events up through and including October 9, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Comerica Bank (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Custodian.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

December 31, 2019 and 2018
Note 4 - Fair Value Measurements (Continued)
Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Common Collective Trust Fund

The common collective trust fund is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets. There are no redemption restrictions or unfunded commitments on this investment.

U.S. Government, Corporate, and Other Debt Securities

The U.S. government securities, corporate debt securities, and other debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Limited Partnership and Hedge Fund

Investments in limited partnership and hedge fund investments are valued at net asset value per share (NAV) (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments.

- (1) This class is composed of an investment in a limited partnership that invests in several different individual limited partnerships and investment funds employing a variety of investing strategies, primarily including multicategory, credit-driven, and equity strategies. Redemption restrictions on this investment include semiannual redemption periods with 95 days' prior notice required. There were no unfunded commitments related to the investment within this class.
- (2) This class is composed of an investment in a hedge fund that seeks long-term growth of capital with reduced volatility by allocating its capital among various money managers that, as a group, employ a variety of investment techniques and strategies. The hedge fund invests primarily in various investment funds managed by other individual portfolio managers. Redemption restrictions on this investment include quarterly redemption periods with 90 days' prior notice required. Redemptions of this investment became restricted during 2017, and compulsory liquidation of the hedge fund was completed in 2019. There were no unfunded commitments related to the investment within this class.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period.

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the year ended December 31, 2018, the most recent actuarial valuation date, are as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 73,924,327
Other vested participants	53,816,053
Total vested benefits	127,740,380

Nonvested benefits	111,246
--------------------	---------

Total actuarial present value of accumulated plan benefits	\$ 127,851,626
--	----------------

December 31, 2019 and 2018**Note 5 - Accumulated Plan Benefits (Continued)**

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2018 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 126,698,292
Increase (decrease) during the year attributable to:	
Benefits accumulated	2,479,602
Increase for interest due to the decrease in the discount period	6,286,630
Changes in actuarial assumptions	(1,862,416)
Actuarial losses	1,140,078
Benefits paid	<u>(6,890,560)</u>
Net increase	<u>1,153,334</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 127,851,626</u>

The increase (decrease) in the actuarial present value of accumulated plan benefits is due to changes in the actuarial assumptions related to a change in the mortality assumption from the RP-2018 mortality tables using MP-2018 improvement scale to using the Pri-2012 mortality tables with the MP-2019 improvement scale.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee is hired.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

■ Healthy The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants and is based on tables issued by the IRS in 2018.

■ Disabled The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants and is based on tables issued by the IRS in 2018.

Retirement For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants eligible to retire by age are shown below.

Age	Rate (%)	Age	Rate (%)
55	3	63	20
56	2	64	20
57	2	65	50
58	2	66	50
59	2	67	50
60	5	68	50
61	2	69	50
62	30	70	100

The weighted average retirement is 63, calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Terminated vested participants are assumed to commence benefits at age 65. However, participants at Manchester who terminated employment due to plant closure who were eligible to commence early benefits are assumed to commence benefits at age 62.

Form of payment	All participants are assumed to elect a single life annuity.
Percent married	80% of participants are assumed married. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Final average earnings	<p>Assumed final average plan compensation for the year beginning on the valuation date was determined as the final average earnings as of December 31, 2006, increased each year prior to the current plan year, by the general wage increase percentage declared by the employer in the December of the preceding calendar year.</p> <p>The final average earnings freezes at the time an employee opts out of the plan.</p>
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the single life annuity form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

**Actuarial value of assets
for determining minimum
required contributions**

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, Aon Hewitt furnished participant data as of the January 1, 2019. Information on assets, contributions, and plan provisions was furnished by Gallagher Retirement Services Inc. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. There were no adjustments to the data to reflect any significant changes in plan population or events that occurred between the date the data was collected and the measurement date. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
■ Final average earnings	<p>Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI).</p> <p>Since annual increases in the final average earnings are limited to 2% by the plan provisions, a 2% final average earnings increase was assumed.</p>
■ National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on historical averages.
■ Increases in statutory limits (CPI)	The assumed CPI increases are based on a combination of historical average CPI increases, current conditions and forecasts prepared by economists.
■ Plan related expenses	Plan related expenses assumed payable from the trust are based on the average of the plan related expenses (excluding PBGC premiums) paid from the trust during the last three plan years, plus the estimated PBGC premium expected to be paid from the trust for the current plan year, rounded to the nearest \$1,000.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in December 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in December 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	<ul style="list-style-type: none">■ The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.■ The mortality table used to calculate the funding target and target normal cost was updated as required by IRC 430.■ The plan related expenses assumed payable from the pension trust increased from \$1,694,000 for the 2018 plan year to \$1,792,000 for the 2019 plan year.■ For the 2019 valuation, retirement and termination decrement timing were updated from occurring at the beginning of the year to occurring at the middle of the year.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee is hired.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

■ Healthy The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants and is based on tables issued by the IRS in 2018.

■ Disabled The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants and is based on tables issued by the IRS in 2018.

Retirement For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants eligible to retire by age are shown below.

Age	Rate (%)	Age	Rate (%)
55	3	63	20
56	2	64	20
57	2	65	50

59	2	67	50
60	5	68	50
61	2	69	50
62	30	70	100

The weighted average retirement is 63, calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Terminated vested participants are assumed to commence benefits at age 65. However, participants at Manchester who terminated employment due to plant closure who were eligible to commence early benefits are assumed to commence benefits at age 62.

Form of payment	All participants are assumed to elect a single life annuity.
Percent married	80% of participants are assumed married. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Final average earnings	<p>Assumed final average plan compensation for the year beginning on the valuation date was determined as the final average earnings as of December 31, 2006, increased each year prior to the current plan year, by the general wage increase percentage declared by the employer in the December of the preceding calendar year.</p> <p>The final average earnings freezes at the time an employee opts out of the plan.</p>
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the single life annuity form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

**Actuarial value of assets
for determining minimum
required contributions**

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, Aon Hewitt furnished participant data as of the January 1, 2019. Information on assets, contributions, and plan provisions was furnished by Gallagher Retirement Services Inc. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. There were no adjustments to the data to reflect any significant changes in plan population or events that occurred between the date the data was collected and the measurement date. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
■ Final average earnings	<p>Assumed compensation increases are based on a combination of assumed future (i) cost-of-living increases (CPI), (ii) productivity increases and (iii) promotional increases. CPI increases assumed are as described below. Productivity increases are consistent with the assumed real increases in NAW described below (i.e., increases in assumed NAW less increases in assumed CPI).</p> <p>Since annual increases in the final average earnings are limited to 2% by the plan provisions, a 2% final average earnings increase was assumed.</p>
■ National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on historical averages.
■ Increases in statutory limits (CPI)	The assumed CPI increases are based on a combination of historical average CPI increases, current conditions and forecasts prepared by economists.
■ Plan related expenses	Plan related expenses assumed payable from the trust are based on the average of the plan related expenses (excluding PBGC premiums) paid from the trust during the last three plan years, plus the estimated PBGC premium expected to be paid from the trust for the current plan year, rounded to the nearest \$1,000.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in December 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in December 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	<ul style="list-style-type: none">■ The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.■ The mortality table used to calculate the funding target and target normal cost was updated as required by IRC 430.■ The plan related expenses assumed payable from the pension trust increased from \$1,694,000 for the 2018 plan year to \$1,792,000 for the 2019 plan year.■ For the 2019 valuation, retirement and termination decrement timing were updated from occurring at the beginning of the year to occurring at the middle of the year.

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. This change in funding method was made in accordance with a class ruling issued to Willis Towers Watson on March 18, 2019, and the effects of the change fall within the parameters of the class ruling

Vesting Service

Effective January 1, 1999 whole calendar months, of employment. A whole month is graded in the month of employment and month of termination if the Participant is employed for at least 15 days in that month. Before 1999, vesting service was granted on a 1,000 hour rule.

Benefit Service

The Participant's whole and partial years of Vesting Service, excluding (1) periods before the employer adopted the plan (unless specified), (2) leaves longer than 12 months, (3) periods between date of termination and rehire, (4) periods worked for an employer who did not adopt the plan, (5) periods for which an employee was paid a lump sum, (6) periods covered by another defined benefit plan, and (7) periods after the employee opts out of the plan.

Compensation

The participant's taxable earnings as reported on Form W-2 plus deferrals. Please refer to the Plan document for additional detail.

Final Average Base Earnings

The average of a Participant's greatest five consecutive or non-consecutive calendar years during his final 10 consecutive calendar years of Employment. Plan includes any partial calendar year in the 5 year average, if it yields a higher average. If a participant has fewer than 5 complete years all Earnings are averaged.

After December 31, 2006: Final Average Earnings shall be determined by calculating the Final Average Earnings as of December 31, 2006, increased each year by the general wage increase percentage declared by the employer in the December of the preceding calendar year (not less than 0% nor more than 2%), with increases applied from January 1st to the date of termination on a pro-rata basis.

The Final Average Earnings freezes when an employee opts out of the plan.

Accrued Benefit

For a participant terminating employment on or after his/her Normal Retirement Date, the accrued benefit is a monthly benefit equal to $\frac{1}{12}$ of the sum of 1 and 2 multiplied by Years of Benefit Service not in excess of 30:

1. 0.9 percent of his Final Average Earnings not in excess of Covered Compensation
2. 1.525 percent of his Final Average Earnings in excess of Covered Compensation

Minimum Monthly Benefit is \$6.50 times Benefit Service not in excess of 30 years.

For a participant who terminated employment prior to his/her Normal Retirement Date, the above calculation is determined assuming he/she continues to earn benefit service to the Normal Retirement Date, but Final Average Earnings and Covered Compensation is determined as of the termination date. The projected benefit is then multiplied by the ratio of the number of years of benefit service at termination to the number of years of benefit service projected at the Normal Retirement Date.

Normal or Late Retirement Benefit

Eligibility: Later of Age 65 or the fifth anniversary of Employment

Benefit: Accrued Benefit at Normal or Late Retirement Date.

Early Retirement Benefit

Eligibility: Age 55 and 10 years of Vesting Service.

Benefit: Accrued Benefit reduced by 5/9% for first five years and 5/18% for next five years benefit begins prior to the normal retirement date.

Disability Benefit

If a Participant becomes disabled after 5 years of Vesting Service, he continues to accrue service and compensation continues at the same rate until his Early or Normal Retirement Date. Upon retirement, the Early or Normal Retirement Benefit is payable. The Final Average Earnings and Covered Compensation are frozen at the disability date.

For employees who opted out, the benefit is based on the May 1, 2007 frozen benefit, reduced for early retirement.

Vested Benefits upon Termination of Service

Eligibility: 5 years of Vesting Service.

Benefit: Accrued Benefit payable at age 65.

Early Commencement of Benefit: Participants who have completed 10 years of vesting service may elect to begin receiving a reduced benefit as early as age 55. Accrued benefit reduced 5/9% for the first five years and 5/18% for the next five years benefit begins prior to the normal retirement date.

Normal Form of Retirement Income

The normal form of benefit is a monthly annuity payable for the life of the participant. If married, then the 50% Joint and Survivor annuity will be payable to the employee during his lifetime with 50% of such reduced amount payable to his surviving spouse after his death, unless the retiree elects otherwise in writing and the spouse consents.

Optional Forms

Joint and Survivor Annuities:

1. Life only
2. 50% Joint and Survivor, 66-2/3% Joint and Survivor, 75% Joint and Survivor and 100% Joint and Survivor
3. 10 Years Continuous and Life
4. Lump sum is automatically payable if amount is less than or equal to \$5,000.

Actuarial Equivalence

Lump Sum: Participant shall receive a single sum payment calculated using the applicable segment rates for the fourth month preceding the first day of the calendar quarter commencing January, April, July and October in which payment is made and the applicable mortality table described in IRC Section 417(c)(3).

Other: 7% interest rate and the 1971 Forecast Mortality Table with a one-year age setback for participants and a five-year age setback for beneficiaries.

Pre-Retirement Death Benefits

If the Participant is not vested, no death benefits are payable. If the participant is vested, then the death benefit is 50% of the amount that would have been payable to the Participant under the 50% Joint and Survivor option assuming the participant had terminated employment on the earlier of his termination date or date of death, survived to the early retirement date, had begun receiving benefits that day under the 50% Joint and Survivor form of payment and died the next day.

Post-Retirement Death Benefits

None except as provided by the annuity form elected.

Employee Contributions

They are not required or permitted.

2007 Voluntary Retirement Opportunity (VRO)

A participant who retired under the 2007 VRO shall have his early retirement benefit determined by increasing his Benefit Service by an additional three years (up to a maximum of 30 years of Benefit Service) and be deemed three years older than the participant's actual age (up to a maximum of age 65). Employees eligible for the 2007 VRO are participants at the Morristown, Tennessee facility who are at least age 55 with 10 or more years of service as of March 30, 2007, who elect the special benefits between December 11, 2006 and March 30, 2007, retires between January 1, 2007 and March 30, 2007, and sign an appropriate waiver and release.

Vesting Service

Effective January 1, 1999 whole calendar months, of employment. A whole month is graded in the month of employment and month of termination if the Participant is employed for at least 15 days in that month. Before 1999, vesting service was granted on a 1,000 hour rule.

Benefit Service

The Participant's whole and partial years of Vesting Service, excluding (1) periods before the employer adopted the plan (unless specified), (2) leaves longer than 12 months, (3) periods between date of termination and rehire, (4) periods worked for an employer who did not adopt the plan, (5) periods for which an employee was paid a lump sum, (6) periods covered by another defined benefit plan, and (7) periods after the employee opts out of the plan.

Compensation

The participant's taxable earnings as reported on Form W-2 plus deferrals. Please refer to the Plan document for additional detail.

Final Average Base Earnings

The average of a Participant's greatest five consecutive or non-consecutive calendar years during his final 10 consecutive calendar years of Employment. Plan includes any partial calendar year in the 5 year average, if it yields a higher average. If a participant has fewer than 5 complete years all Earnings are averaged.

After December 31, 2006: Final Average Earnings shall be determined by calculating the Final Average Earnings as of December 31, 2006, increased each year by the general wage increase percentage declared by the employer in the December of the preceding calendar year (not less than 0% nor more than 2%), with increases applied from January 1st to the date of termination on a pro-rata basis.

The Final Average Earnings freezes when an employee opts out of the plan.

Accrued Benefit

For a participant terminating employment on or after his/her Normal Retirement Date, the accrued benefit is a monthly benefit equal to $\frac{1}{12}$ of the sum of 1 and 2 multiplied by Years of Benefit Service not in excess of 30:

1. 0.9 percent of his Final Average Earnings not in excess of Covered Compensation
2. 1.525 percent of his Final Average Earnings in excess of Covered Compensation

Minimum Monthly Benefit is \$6.50 times Benefit Service not in excess of 30 years.

For a participant who terminated employment prior to his/her Normal Retirement Date, the above calculation is determined assuming he/she continues to earn benefit service to the Normal Retirement Date, but Final Average Earnings and Covered Compensation is determined as of the termination date. The projected benefit is then multiplied by the ratio of the number of years of benefit service at termination to the number of years of benefit service projected at the Normal Retirement Date.

Normal or Late Retirement Benefit

Eligibility: Later of Age 65 or the fifth anniversary of Employment

Benefit: Accrued Benefit at Normal or Late Retirement Date.

Early Retirement Benefit

Eligibility: Age 55 and 10 years of Vesting Service.

Benefit: Accrued Benefit reduced by 5/9% for first five years and 5/18% for next five years benefit begins prior to the normal retirement date.

Disability Benefit

If a Participant becomes disabled after 5 years of Vesting Service, he continues to accrue service and compensation continues at the same rate until his Early or Normal Retirement Date. Upon retirement, the Early or Normal Retirement Benefit is payable. The Final Average Earnings and Covered Compensation are frozen at the disability date.

For employees who opted out, the benefit is based on the May 1, 2007 frozen benefit, reduced for early retirement.

Vested Benefits upon Termination of Service

Eligibility: 5 years of Vesting Service.

Benefit: Accrued Benefit payable at age 65.

Early Commencement of Benefit: Participants who have completed 10 years of vesting service may elect to begin receiving a reduced benefit as early as age 55. Accrued benefit reduced 5/9% for the first five years and 5/18% for the next five years benefit begins prior to the normal retirement date.

Normal Form of Retirement Income

The normal form of benefit is a monthly annuity payable for the life of the participant. If married, then the 50% Joint and Survivor annuity will be payable to the employee during his lifetime with 50% of such reduced amount payable to his surviving spouse after his death, unless the retiree elects otherwise in writing and the spouse consents.

Optional Forms

Joint and Survivor Annuities:

1. Life only
2. 50% Joint and Survivor, 66-2/3% Joint and Survivor, 75% Joint and Survivor and 100% Joint and Survivor
3. 10 Years Continuous and Life
4. Lump sum is automatically payable if amount is less than or equal to \$5,000.

Lump Sum: Participant shall receive a single sum payment calculated using the applicable segment rates for the fourth month preceding the first day of the calendar quarter commencing January, April, July and October in which payment is made and the applicable mortality table described in IRC Section 417(c)(3).

Other: 7% interest rate and the 1971 Forecast Mortality Table with a one-year age setback for participants and a five-year age setback for beneficiaries.

Pre-Retirement Death Benefits

If the Participant is not vested, no death benefits are payable. If the participant is vested, then the death benefit is 50% of the amount that would have been payable to the Participant under the 50% Joint and Survivor option assuming the participant had terminated employment on the earlier of his termination date or date of death, survived to the early retirement date, had begun receiving benefits that day under the 50% Joint and Survivor form of payment and died the next day.

Post-Retirement Death Benefits

None except as provided by the annuity form elected.

Schedule SB, Line 25 Change in Method

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. This change in funding method was made in accordance with a class ruling issued to Willis Towers Watson on March 18, 2019, and the effects of the change fall within the parameters of the class ruling
