NOTES TO FINANCIAL STATEMENTS

THE VINDICATOR PRINTING COMPANY RETIREMENT PLAN FOR NON-UNION EMPLOYEES (007)

December 31, 2019 and 2018

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in accordance with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statement, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note D for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits:

Benefit payments to participants are recorded upon distribution.

Administrative Expenses:

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes of net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events:

The Plan Sponsor evaluated its December 31, 2019, financial statements for subsequent events through October 12, 2020 the date the financial statements were available to be issued. As a result of the Covid-19 Coronavirus, economic uncertainties have arisen which are likely to negatively impact net income. Other financial impacts could occur, though such impact is unknown at this time.

Due to the SECURE Act's newspaper relief provision, there will not be any contributions in 2020 or the foreseeable future.

Reclassifications:

Certain minor reclassifications were made to the December 31, 2018 financial statements in order to conform them to December 31, 2019 presentation

NOTE B - DESCRIPTION OF PLAN

General:

The Plan is a defined benefit pension plan incident to a pension agreement and amendments between The Vindicator Printing Company and non-union employees. The Plan covers employees that have completed at least one year of eligibility service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2020, the Plan Sponsor will be WFMJ Television, Inc.

Participant's Accounts:

A covered employee will become a member of the Pension Plan on the earliest date of January 1 or July 1, whichever follows the date on which the employee satisfies these eligibility requirements. One year of eligibility service is credited for each 12-month period beginning on the date of employment, and each anniversary of the date of employment, during which the covered employee works 1,000 hours.

For service prior to January 1, 1976, the employee will accrue benefit service for years of uninterrupted service with the Company, measured from date of hire with the Company (includes time when not a covered employee). Starting with January 1, 1976, if the employee is credited with 1,000 hours of service while a member of the Plan during a Plan Year, he shall receive a year of benefit accrual service. If he is credited with less than 1,000 hours of service during the Plan Year of termination only because he did not work the entire plan year, he will receive a fractional year of benefit accrual service for the portion of the plan year that he worked while a member of the Pension Plan.

If service credited before January 1, 1976 under non-union plan while covered under another plan, the total non-union benefit is offset for the service that is counted under another plan. When an employee transfers into non-union plan (before April 1, 2009), service is credited based upon each plan's provisions.

The benefit amount of the retirement pension is determined by the greater of two formulas. For further detail, see the plan summary. The pension benefits under the Pension Plan are insured by the Pension Benefit Guaranty Corporation (PBGC), a federal insurance agency. If the Pension Plan terminates (ends) without enough money to pay all benefits, the PBGC will step in to pay pension benefits. Most participants receive all of the pension benefits they would have received under the Pension Plan, but some participants may lose certain benefits. The PBGC guarantee generally covers normal and early retirement benefits and certain benefits for your survivors.

December 31, 2019 and 2018

NOTE B - DESCRIPTION OF PLAN (CONTINUED)

Funding Policy:

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2019 and 2018, the Company made contributions of \$428,578 and \$446,173, respectively. The Company's contributions for 2019 and 2018 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company reserves the right to amend, suspend, or terminate the Pension Plan. However, in the event of any such action, the Company shall not have any right, title, or interest in any assets of the Pension Plan and no assets of the Pension Plan shall revert to the Company except that after satisfaction of all liabilities of the Pension Plan, such remaining part of the Pension Plan may revert to the Company. If the Pension Plan is terminated in whole or in part, the accrued pension benefits of the affected participants will become non-forfeitable and will be allocated to the affected participants according to a schedule of priorities established by federal law to the extent the Pension Plan has assets sufficient to cover the benefits.

Pension Benefits:

The benefits of the Pension Plan are provided primarily for the purpose of providing financial security upon retirement. Accordingly, benefits may not be assigned and are not subject to garnishment, attachment or other legal process of creditors. However, under a qualified domestic relations order, all or a portion of the benefits payable to a participant may be assigned to an alternative payee under procedures established by the Plan Administration Committee. These procedures will be available to a participant upon the receipt by the Plan Administration Committee of notification that a domestic relations order is going to be obtained. A domestic relations order is any judgment, decree, or order (including approval of property settlement agreement) that relates to the provision of child support, alimony payments, or marital property rights to a spouse, former spouse, child or other dependent of a participant that is made pursuant to a state domestic relations law.

Effective March 31, 2009, the Company has chosen to freeze the future accrual of pension benefits and to close participation. While the Company has not expressed any intent to discontinue contributions or terminate the Plan, it has the right to do so under the Plan, the net assets are to be allocated in accordance with the plan documents.

Reconciliation of Present Value of Accumulated Benefits

1.) Present value of accumulated benefits as of December 31, 2018	\$ 5,714,623
2.) Changes during the year due to:	
a. Benefits accumulated	\$ -
b. Actuarial (gains)-losses	378,002
c. Decrease in the discount period	394,840
d. Actual benefits paid	(537,096)
e. Assumption changes	(48,732)
f. Plan amendments	-
g. Net increase-(decrease)	\$ 187,014
3.) Present value of accumulated benefits as of December 31, 2019	\$ 5,901,637

The actuarial present value of accumulated benefits and the unfunded actuarial liability (credit) were calculated by Towers Watson, consulting actuaries, as of January 1, 2020 and 2019. The actuary's method and assumptions include the entry age normal actuarial cost method, life expectancy of participants, assumed retirement age 65, or attained age, if later, and asset values at the amount reported by Suntrust Bank in their pension plan fund account. The interest rate used to value the vested benefits was 7.25% for January 1, 2020 and 2019. A 8.00% and 5.47% interest rate was used to calculate the unfunded actuarial liability for January 1, 2020 and 2019, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue; if the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

According to the actuary, the Plan was adequately funded in compliance with ERISA requirements during both plan years.

NOTE D – FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There are only Level 1 investments in the Plan.

The fair values of the Pension Plan assets at December 31, 2019 and 2018, by asset category are as follows:

Fair Value Measurements at December 31, 2019

December 31, 2019 and 2018

NOTE E – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions in the near term would be material to the financial statements.

NOTE F - INCOME TAX STATUS

The IRS has determined and informed the Plan Sponsor by a letter dated February 28, 2017 that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Service Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE G - RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

During 2019, the Plan paid administrative expenses of approximately \$162,760. Of this amount, \$32,068 was paid to Suntrust Bank for the trustee fee. \$99,981 was paid to the Pension Benefit Guarantee Corporation for the plan year premium. \$20,711 was paid to Towers Watson for their actuary fee. \$10,000 was paid to Wm G. Barth & Associates, Inc. for their auditing fee.

During 2018, the Plan paid administrative expenses of approximately \$154,818. Of this amount, \$31,504 was paid to Suntrust Bank for the trustee fee. \$96,117 was paid to the Pension Benefit Guarantee Corporation for the plan year premium. \$17,522 was paid to Towers Watson for their actuary fee. \$9,675 was paid to Wm G. Barth & Associates, Inc. for their auditing fee.

NOTE H – CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Suntrust Bank, the Trustee of the Plan, has certified as of and for the years ended December 31, 2019 and 2018, that the information, regarding the fair value of investments and the related investment income is complete and accurate.

NOTE I – PARTIAL TERMINATION

As a result of a reduction of the Plan Sponsor's workforce in 2019, the Plan experienced a partial plan termination as defined by ERISA in 2019. Under ERISA a partial plan termination may occur if a significant percentage of the Plan participants are terminated because of an action taken by the Plan Sponsor. As a result of the partial termination, all accumulated benefits of affected employees were fully vested as of August 31, 2019, the date the employees were terminated.

Change in Method

The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Retirement

Rates varying by age, average age 67.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below:

Age	Retirement Rate
Under 60	0.0%
60	2.0
61	3.0
62	5.0
63-64	5.0
65	37.5
66	25.0
67-69	50.0
70	100.0

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit The later of age 65 or termination of employment.
- Retirement benefit Upon termination of employment.

Form of payment

Married participants are assumed to elect a 50% J&S annuity and single participants are assumed to elect a single life annuity.

Percent married

85% of males; 75% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

Male spouses are assumed to be three years older than female spouses.

Covered pay

Not applicable after the March 31, 2009 plan freeze.

Plan-related expenses

The amount included this year for administrative expenses is \$154,818.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the 50% Joint & Survivor form of payment.

Suspension of benefits It is assumed that suspension of benefit notices have been issued to participants who are working past normal retirement age. Therefore, no actuarial increased benefit has been included in the valuation.

Methods

Valuation date First day of plan year.

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with The Vindicator Printing Company regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with The Vindicator Printing Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan-related expenses

Plan-related expenses are estimated to be the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination and Retirement

These assumptions were selected by the plan sponsor and represent a best estimate of future experience. We have not completed a detailed experience study of these assumptions due to limited exposure; however we annually review actual retirement and termination experience with expected retirement and termination experience for the valuation and believe these assumptions are reasonable.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in Assumptions and Methods Since Prior Valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to 8.00%.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
- The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.
- The Interest rate was changed to 8.00% in 2019 based on an election by the plan sponsor to utilize the community newspaper relief provisions of the CARES Act.

Plan Year The twelve-month period ending December 31.

Coverage and Participation Covered employees become participants on the next July 1 or January 1 following completion of one Year of Eligibility Service and attainment of age 21. Participation in the plan has been closed since March 31, 2009.

Definitions

Normal Retirement Date (NRD) The attainment of age 65.

Vesting service A plan year during which an employee completes 1,000 hours of service.

Accrued normal retirement benefit 45% of average earnings (the average of the best five consecutive years Compensation out of the last 10 years prior to retirement), less one-half of the employee's Social Security benefit (the "offset"); provided such offset shall not exceed the lesser of the "maximum offset allowance" defined in IRC Section 401(1)(B) or 50% of the member's normal retirement benefit determined without regard to the offset. The net benefit is reduced for service less than 30 years at retirement. There is a minimum benefit equal to 1% of average earnings (maximum of \$1,000 a month) times credited service (maximum of 30 years). After 1991, Compensation includes overtime, commissions, and bonuses. All benefits under the plan have been frozen as of March 31, 2009.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	First day of any month after the attainment of age 55 and the completion of 10 Years of Vesting Service.
Vesting termination	A participant becomes vested upon completion of five consecutive years of service.
Disability	Eligible upon attaining age 45 and 10 years of vesting service if the disability was incurred prior to March 31, 2009.
Pre-retirement death benefit	Benefit payable to spouse of an active or terminated employee who dies after becoming eligible for a Termination Benefit.

Benefits Paid Upon the Following Events

Normal retirement	The accrued normal retirement benefit paid at NRD.
Early retirement	Actuarial equivalent of the accrued Normal Retirement Benefit, determined on the assumption that the employee continued to age 65 at his final average earnings at termination with the resulting normal retirement benefit reduced by the ratio of actual service to assumed service to age 65. The accrued benefit is reduced 6-2/3% per year for the first five years and 3-1/3% per year for each additional year for early retirement commencing prior to age 65.
Vested termination	A benefit determined as for early retirement but payable at age 65 or, for terminating employees with at least 10 years of vesting service, a benefit reduced for early commencement payable between age 55 and 65, utilizing the above Early Retirement reductions

Disability

A benefit determined as for normal retirement assuming that the employee had attained his normal retirement age upon disability retirement. The disability benefit is payable until age 65 or until the employee recovers if earlier; at age 65 the benefit is re-determined under the normal formula.

Pre-retirement death

The benefit is calculated as if the employee had terminated his employment the day of his death (if he was in active status), had elected to have his pension commence on his earliest retirement date, had elected the 50% joint and survivor option, had survived to his earliest retirement date and died the following day.

Other Plan Provisions

Forms of payment

The normal form of payment for single participants is a Life Only annuity. However, if the participant has a spouse an employee may elect to receive his benefit on a straight-life basis or on an actuarially equivalent 50%, 75% or 100% Joint and Survivor basis. Unless otherwise elected, any benefit payable under the Plan shall be paid on a 50% Joint and Survivor basis, if the employee is then married or on a straight-life basis otherwise. A Social Security Level Income Option is also available.

Actuarial equivalence

1971 Group Annuity Mortality Table, based on a dispersion of 90% males, 10% females and an interest rate of 6% per year.

Plan participants' contributions

Not applicable.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.
