F&P America Manufacturing, Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the F & P America Manufacturing, Inc. (the Company, Employer and Plan sponsor) Retirement Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time associates (other than Japanese national associates who are not on permanent assignment) of the Company who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant contributions: Participants may contribute up to a maximum dollar limit set by law, as defined in the Summary Plan Description. Contributions are subject to certain limitations.

New hires and rehired employees of the Company are automatically enrolled in the Plan upon completing one month of service. Upon meeting eligibility requirements, participants are automatically enrolled at 5% and participants experience an automatic annual deferral increase of 1% per year up to a total of 8% of compensation.

Employer contributions: The Company makes a matching contribution equal to 100% of the first 3% and 50% of the next 2% of annual compensation contributed by the Plan participants.

Rollovers: The Plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan sponsor. Participants are fully vested in these amounts.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Participants are immediately vested in the Company's matching contributions plus earnings thereon made on or after January 1, 2008. Vesting in the Company's matching contributions plus earnings thereon made prior to January 1, 2008 is based on years of continuous service. For the Company's matching contributions made prior to January 1, 2008, a participant is 100% vested after three years of credited service. Earlier vesting may occur upon participant attainment of age 65, death, or retirement due to disability.

Investment options: Upon enrollment in the Plan, the participant directs all employee salary deferral and matching contributions in five percent increments to a variety of investment options, the detail of which can be obtained from the Plan administrator upon request.

Payment of benefits: On termination of service for any reason, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, or annual installments over a period of not more than the participant's assumed life expectancy.

F&P America Manufacturing, Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts. Loans must be a minimum of \$1,000 and may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance and the terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Each loan is collateralized by the remaining balance in the participant's account. Interest charged to participants is reviewed by the loan administrator and is based upon prevailing interest rates for similar loans in the surrounding community. Interest rates on participant loans ranged from 3.25% to 6.50% as of December 31, 2019 and 3.25% to 6.25% as of December 31, 2018.

Forfeited accounts: Forfeited, non-vested accounts totaled \$14,567 and \$7,415 at December 31, 2019 and 2018, respectively. Forfeitures of \$4,300 were used to reduce matching contributions for the plan year ended December 31, 2019. These amounts will be used to reduce future Company matching contributions or pay plan expenses.

Administrative expenses: Investment management and administration fees were paid by both the Plan and the Company during 2019.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as more explicitly described in the Financial Accounting Standards Board Accounting Standards Codification.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Contributions: Participant contributions are recognized when earned. Company matching contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Note 2. Summary of Significant Accounting Policies

Recent accounting pronouncements: In August 2018, the FASB issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurement*, based on the concepts in the FASB Concepts Statements, including the consideration of costs and benefits.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.
2. The policy for timing of transfers between levels.

The amendments in this Update are effective for all entities for the fiscal year, and interim periods within those fiscal years, beginning after December 15, 2019. The entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Plan adopted this Update for the removal, modification, or addition of certain fair value measurement disclosures presented in the financial statements.

Note 3. Information Certified by the Plan's Trustee

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2019 and 2018 and for the year ended December 31, 2019 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 8 and the supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company, Inc. also certified to the completeness and accuracy of \$8,881,331 of net appreciation in fair value of investments, \$2,228,145 of dividend and interest income and \$173,920 of interest income from notes receivable from participants for the year ended December 31, 2019.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

Note 5. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2016.

F&P America Manufacturing, Inc. Retirement Plan

Notes to Financial Statements

Note 6. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments Institutional Operations Company, Inc. Fidelity Investments Institutional Operations Company, Inc. is the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to \$222,879 in 2019.

Note 7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 8. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market fund: Valued using amortized cost, which approximates fair value.

F&P America Manufacturing, Inc. Retirement Plan

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

Common/collective trust fund: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2019 and 2018 segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$55,052,763	\$ -	\$ -	\$55,052,763
Investments measured at fair value	\$55,052,763	\$ -	\$ -	55,052,763
Investments measured at NAV ^(a)				1,224,693
Total investments, at fair value				\$56,277,456

2018				
	Level 1	Level 2	Level 3	Total
Money market funds	\$ -	\$ 713,312	\$ -	\$ 713,312
Mutual funds	43,034,840	-	-	43,034,840
Investments measured at fair value	\$43,034,840	\$ 713,312	\$ -	43,748,152
Investments measured at NAV ^(a)				475,260
Total investments, at fair value				\$44,223,412

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and the size of the transfer relative to the total assets available for benefits.

F&P America Manufacturing, Inc. Retirement Plan

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2019 and 2018.

<u>Investment</u>	2019 Fair Value	2018 Fair Value	2019 Unfunded Commitment	2018 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust funds	\$ 1,224,693	\$ 475,260	None	None	Immediate	None

Note 9. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act, contains specific provisions impacting participant loans and distributions.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's investments and Plan Sponsor. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected losses on investments.

The Plan was amended effective March 1, 2020 to allow participants to elect to have a portion of their compensation contributed to the Plan on a before-tax basis.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2020, the date the financial statements were available to be issued.

Participant contributions: Participants may contribute up to a maximum dollar limit set by law, as defined in the Summary Plan Description. Contributions are subject to certain limitations.

New hires and rehired employees of the Company are automatically enrolled in the Plan upon completing one month of service. Upon meeting eligibility requirements, participants are automatically enrolled at 5% and participants experience an automatic annual deferral increase of 1% per year up to a total of 8% of compensation.

Employer contributions: The Company makes a matching contribution equal to 100% of the first 3% and 50% of the next 2% of annual compensation contributed by the Plan participants.

Rollovers: The Plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan sponsor. Participants are fully vested in these amounts.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Participants are immediately vested in the Company's matching contributions plus earnings thereon made on or after January 1, 2008. Vesting in the Company's matching contributions plus earnings thereon made prior to January 1, 2008 is based on years of continuous service. For the Company's matching contributions made prior to January 1, 2008, a participant is 100% vested after three years of credited service. Earlier vesting may occur upon participant attainment of age 65, death, or retirement due to disability.

Investment options: Upon enrollment in the Plan, the participant directs all employee salary deferral and matching contributions in five percent increments to a variety of investment options, the detail of which can be obtained from the Plan administrator upon request.

Payment of benefits: On termination of service for any reason, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly, or annual installments over a period of not more than the participant's assumed life expectancy.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts. Loans must be a minimum of \$1,000 and may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance and the terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Each loan is collateralized by the remaining balance in the participant's account. Interest charged to participants is reviewed by the loan administrator and is based upon prevailing interest rates for similar loans in the surrounding community. Interest rates on participant loans ranged from 3.25% to 6.50% as of December 31, 2019 and 3.25% to 6.25% as of December 31, 2018.

Forfeited accounts: Forfeited, non-vested accounts totaled \$14,567 and \$7,415 at December 31, 2019 and 2018, respectively. Forfeitures of \$4,300 were used to reduce matching contributions for the plan year ended December 31, 2019. These amounts will be used to reduce future Company matching contributions or pay plan expenses.

Administrative expenses: Investment management and administration fees were paid by both the Plan and the Company during 2019.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as more explicitly described in the Financial Accounting Standards Board Accounting Standards Codification.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Contributions: Participant contributions are recognized when earned. Company matching contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Note 2. Summary of Significant Accounting Policies

Recent accounting pronouncements: In August 2018, the FASB issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurement*, based on the concepts in the FASB Concepts Statements, including the consideration of costs and benefits.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.
2. The policy for timing of transfers between levels.

The amendments in this Update are effective for all entities for the fiscal year, and interim periods within those fiscal years, beginning after December 15, 2019. The entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Plan adopted this Update for the removal, modification, or addition of certain fair value measurement disclosures presented in the financial statements.

Note 3. Information Certified by the Plan's Trustee

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2019 and 2018 and for the year ended December 31, 2019 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 8 and the supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company, Inc. also certified to the completeness and accuracy of \$8,881,331 of net appreciation in fair value of investments, \$2,228,145 of dividend and interest income and \$173,920 of interest income from notes receivable from participants for the year ended December 31, 2019.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

Note 5. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2016.

Note 6. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments Institutional Operations Company, Inc. Fidelity Investments Institutional Operations Company, Inc. is the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to \$222,879 in 2019.

Note 7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 8. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market fund: Valued using amortized cost, which approximates fair value.

Note 8. Fair Value Measurements (Continued)

Common/collective trust fund: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2019 and 2018 segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$55,052,763	\$ -	\$ -	\$55,052,763
Investments measured at fair value	\$55,052,763	\$ -	\$ -	55,052,763
Investments measured at NAV ^(a)				1,224,693
Total investments, at fair value				\$56,277,456

2018				
	Level 1	Level 2	Level 3	Total
Money market funds	\$ -	\$ 713,312	\$ -	\$ 713,312
Mutual funds	43,034,840	-	-	43,034,840
Investments measured at fair value	\$43,034,840	\$ 713,312	\$ -	43,748,152
Investments measured at NAV ^(a)				475,260
Total investments, at fair value				\$44,223,412

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and the size of the transfer relative to the total assets available for benefits.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2019 and 2018.

<u>Investment</u>	2019 Fair Value	2018 Fair Value	2019 Unfunded Commitment	2018 Unfunded Commitment	Redemption Frequency	Redemption Notice Period

Note 9. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act, contains specific provisions impacting participant loans and distributions.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's investments and Plan Sponsor. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected losses on investments.

The Plan was amended effective March 1, 2020 to allow participants to elect to have a portion of their compensation contributed to the Plan on a before-tax basis.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2020, the date the financial statements were available to be issued.
