1. Description of Plan

The following description of the Gripple, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering employees of Gripple Inc. (Company) who are 19 years of age and have completed six months of service. The Plan excludes employees who are union employees, certain non-resident aliens, leased employees, and part-time, temporary, and seasonal employees whose regularly scheduled service hours are less than 1,000 hours per year. The Plan is subject to the provisions of ERISA.

2019 Amendment – The Plan was amended effective June 10, 2019, to allow Roth deferrals and granted the ability to withdraw a portion of their account balances.

Contributions – Each year, participants may elect to defer a portion of their pretax annual compensation, as defined by the Plan. The maximum contribution to the Plan in any year is determined by provisions in the Plan and the Internal Revenue Code (IRC) and Income Tax Regulations. Participants direct the investment of these contributions into various investment options. As of December 31, 2019, the Plan offered mutual funds and three common collective trusts as investment options for participants.

Company contributions are safe harbor nonelective contributions equal to 8 percent of each eligible participant's compensation.

Participant Accounts – Each participant's account is credited with the participant's contribution, if any, and allocations of (a) the Company's contribution, (b) administrative expenses, and (c) plan earnings, net of investment fees. Allocations are based on participant earnings, account balances, or other participant events, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of Benefits – On termination of service, for any reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for an automatic lump-sum distribution of account balances of $5,000 or less. The Plan allows for financial hardship withdrawals of all or part of the participant's deferral contributions, if the participant can prove financial hardship and is unable to meet their financial needs another way.

On January 1, 2019, the Plan began following the proposed regulations issued by the Internal Revenue Service (IRS) on hardship withdrawal provisions resulting from the enactment of the Bipartisan Budget Act of 2018. Changes include no longer requiring participants to suspend contributions for six months following a hardship withdrawal. The Plan formally adopted the amendment on December 11, 2019.

Notes Receivable from Participants – Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance for reasons as defined by the Plan. The minimum amount of a loan is $1,000. Loan terms range from one to five years except for the purchase of a primary residence, which is a longer term determined by the plan administrator. The loans are secured by the vested balance in the participant's account and bear interest at prevailing rates. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts – Forfeited amounts are used to reduce any employer contributions to be made for the plan year or to pay plan expenses.

2. Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Investment Fees – Certain fees are charged to the Plan for services provided to the Plan. When applicable, these fees and fees charged by mutual funds are netted with investment earnings.

Payment of Benefits – Benefits are recorded when paid for financial statement purposes.

Subsequent Events – The Plan has evaluated subsequent events through October 9, 2020, the date on which the financial statements were available to be issued.

3. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no auditing procedures were performed on the following information certified by the custodian of the Plan, as complete and accurate except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

	2019	2018
Investments, at Fair Value	$ 7,188,041	$ 5,611,643
Net Appreciation (Depreciation) in Investments	$ 864,737	
Interest and Dividend Income	$ 238,058	

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10 establishes a framework for measuring fair value under generally accepted accounting principles. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

- *Mutual Funds:* Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

- *Common Collective Trusts (CCT):*

  Wealth Preservations Funds consist of exchange traded securities whose NAV values are aggregated and combined with stated fees through these procedures to arrive at the fair value.

  The Stable Value Trust held by the Plan is a collective investment trust that invests in a fully benefit responsive group annuity contract with MetLife. The contract consists of the units of the MetLife separate accounts and an insurance wrapper that guarantees plan participants can transact at contract value in perpetuity. Withdrawals resulting from an employer or plan sponsor-initiated event (e.g. a decision to terminate the Plan's participation in the trust) could result in a payment less than the guaranteed value if the contract's market value is less than the guaranteed value. An event limiting the ability of plan participants is not considered probable of occurring.

  Management has determined the CCT – Stable Value qualifies for the net asset value practical expedient under FASB ASC 820, and, as such, the CCT is not categorized in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 5,643,988	$ -	$ -	$ 5,643,988
CCTs - Wealth Preservation	-	34,238	-	34,238
Total	$ 5,643,988	$ 34,238	$ -	$ 5,678,226
Assets Measured at Net Asset Value per FASB ASC 820 Practical Expedient:				
CCT - Stable Value				1,509,815
Total Investments, at Fair Value				$ 7,188,041

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Assets Included in the Fair Value Hierarchy:				
Mutual Funds	$ 4,160,065	$ -	$ -	$ 4,160,065
Assets Measured at Net Asset Value per FASB ASC 820 Practical Expedient:				
CCT - Stable Value				1,451,578
Investments, at Fair Value				$ 5,611,643

There are no unfunded commitments, or significant redemptions or restriction on the investment measured at net asset value per share using the practical expedient as of December 31, 2019 and 2018.

5. Administrative Expenses and Party-in-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Service provider fees, either directly or indirectly, are paid to the investment custodian, third-party administrator, investment advisor, record keeper, and auditor. Of these fees, $5,024 is included in administrative expenses on Exhibit B. Other investment fees are netted with investment earnings. Expenses, net of any revenue sharing credits, incurred in the administration of the Plan were also paid by the plan sponsor.

Additionally, certain plan investments are both held and managed by the custodian.

Notes receivable from participants are considered to be both party-in-interest and a related-party transaction.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype plan adopted by the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated and amended since receiving this opinion letter, the plan administrator and the prototype plan provider believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent Events

On March 11, 2020, the World Health Organization declared the outbreak of a coronavirus (COVID-19) a pandemic. Local, U.S., and world governments have encouraged self-isolation to curtail the spread of COVID-19, by mandating temporary work stoppage in many sectors and imposing limitations on travel and size and duration of group meetings. Most industries are experiencing disruption to business operations and the impact of reduced consumer spending. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. As a result, economic uncertainties have arisen and may impact the fair value of the Plan's investments subsequent to year-end. As the situation with COVID-19 was still unfolding as of October 9, 2020, management is uncertain of what, if any, additional financial impacts the Plan will face due to the pandemic.

Additionally, the Plan has elected to adopt a plan provision available under the Coronavirus Aid, Relief, and Economic Security Act (CARES) enacted on March 27, 2020, that offers hardship withdrawals of 50-100% (less any outstanding loan amount). Plan management will amend the plan document to reflect the adoption on or before December 31, 2022.
