Report of Independent Auditors

The Administrator of the GPM Home Office Employees' Retirement Plan
GPM Home Office Employees' Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of GPM Home Office Employees' Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entities that certified the investment information meet the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2019 and 2018, and for the year ended December 31, 2019, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedules

The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2019, and delinquent participant contributions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GPM Home Office Employees' Retirement Plan

Notes to Financial Statements

December 31, 2019

1. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the GPM Home Office Employees' Retirement Plan (the Plan) are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP). Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements, supplemental schedules, and accompanying notes. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the fully benefit-responsive investment contract discussed below. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The fair value of the pooled separate accounts owned by the Plan is based on the net asset value of each investment on the last business day of the plan year as determined by the issuer. Shares of mutual funds are based on quoted market prices, which represent the net asset value of shares held by the Plan at the Plan's year-end. See Note 3 for further discussion and disclosures related to fair value measurements.

1. Significant Accounting Policies (continued)

The Plan provides for investments in a fully benefit-responsive group unallocated annuity contract (GAC) with Massachusetts Mutual Life Insurance Company (MMLIC). Investment held include a Guaranteed Interest Account which is recorded at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Guaranteed Interest Account – 1 is supported by the general assets of MMLIC and has no maturity date. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Other investment options under the GAC are investments in various MassMutual Separate Investment Accounts (SIA). The assets of the SIAs are separate from MassMutual's general investment accounts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits and participant account balances.

New Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-09, *Codification Improvements,* which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in

1. Significant Accounting Policies (continued)

accordance with Accounting Standards Codification 820, *Fair Value Measurement.* Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. The guidance is effective for fiscal years beginning after December 15, 2019. Plan management is currently evaluating the effect of this new pronouncement on the Plan's financial statements.

On August 28, 2018, the Financial Accounting Standards Board issued ASU 2018-13 to improve the effectiveness of disclosures about fair value measurements required under ASC 820. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying, and adding certain disclosures. The ASU is effective for all entities for fiscal years beginning after December 15, 2019. Plan management is currently evaluating the effect of this new pronouncement on the Plan's financial statements.

2. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering virtually all employees of Government Personnel Mutual Life Insurance Company (GPM). An employee becomes eligible to participate in the Plan after completing three months of service (during which time the employee must complete 250 hours of service) and attaining age 18. If the employee does not complete 250 hours of service in the three-month time period, the employee is subject to the year of service requirement (must complete 1,000 hours of service) to become eligible for the Plan. Entry dates are the first day of the month following completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

MMLIC serves as administrator for the MMLIC related investments (Guaranteed Investment Account and pooled separate accounts) and participant record keeper for the Plan. Reliance Trust Company serves as the directed trustee for the mutual funds and participant loans.

2. Description of the Plan (continued)

Contributions

Participants may contribute on a pretax basis an amount not to exceed the limits of Internal Revenue Code (the Code) Sections 401(k), 402(g), 404, and 415 pursuant to a salary deferral agreement. Upon becoming eligible to make a salary deferral contribution, an employee will be deemed to have entered into a salary deferral election of 6% of compensation. For those employees continuing with the 6% deferral, there is an annual auto increase of 1% until a maximum of 15% of compensation is reached. An employee may choose to opt out of any of these automatic features or may elect a lower or higher deferral percentage. Participants may also make Roth contributions. Roth contributions are currently included in a participant's gross income, unlike pretax contributions. However, a qualified distribution of designated Roth contributions is excludable from a participant's gross income. Participants may convert all or part of their accounts into Roth accounts.

GPM makes a matching contribution of 62.5% of a participant's contribution up to 6.0% of compensation. In addition, GPM also makes a safe harbor employer contribution of 3.0% of a participant's compensation as approved annually by the board of directors.

Additional amounts may be contributed at the option of GPM's board of directors. All contributions to the Plan are participant directed. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and GPM's matching contributions and allocations of plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of his or her respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may redistribute balances among selected investments as frequently as daily. However, to avoid excessive trading, a participant will be prohibited from transferring into most mutual funds and similar investment options if he or she has transferred into and out of the same option within the previous 60 days. Certain stable value, guaranteed interest, fixed-income, and other investment options are not subject to this restriction.

2. Description of the Plan (continued)

Participants may transfer out of any option at any time. Purchases and sales resulting from regular contributions, distributions, loans, and certain other transactions are excluded when determining whether trading activity is excessive.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or GPM, as provided by the Plan's provisions. Administrative expenses paid by the Plan include record-keeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by GPM. Expenses that are paid by GPM are excluded from these financial statements.

Vesting

Participants are immediately vested in their contributions and safe harbor qualified nonelective contributions. Participants become vested in matching contributions made by GPM and earnings thereon as follows:

Years of Service	Vested Percentage
Less than 1 year	–%
1 year (but less than 2)	10
2 years (but less than 3)	20
3 years (but less than 4)	40
4 years (but less than 5)	60
5 years or more	100

Forfeited Accounts

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $9,205 and $6,915, respectively. These accounts will be used to reduce future employer contributions. Approximately $4,725 was used to reduce employer contributions during 2019.

2. Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or payment in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participant Loans

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The Plan allows the maximum of two loans. Loan terms may not exceed five years, even for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates.

3. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets

3. Fair Value Measurements (continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**

Small cap funds[5]	688,582	–	Daily	None
International/global funds[6]	906,277	–	Daily	None
	$ 8,097,497	$ –		

[1] This category includes pooled separate accounts that invest in intermediate-term fixed-income investments, which typically range between four years to ten years to maturity, from companies, governments, or government agencies.

3. Fair Value Measurements (continued)

[2] Asset allocation/life cycle pooled separate account investments are date based and blend investments from among stocks, bonds, and cash into one investment option that serves as one choice in a series. Investments in a series will feature a "roll down" strategy in which the portfolio becomes more conservative over time. In general, the further the target date of the investment is from the present, the more aggressive the portfolio is.

[3] Large cap pooled separate account funds invest in stocks of well-established, large companies that typically have capitalization exceeding $5 billion. They include core funds that include a mixture of value and growth stocks. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. Also included are growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[4] Mid cap pooled separate account funds invest in stocks of midsize companies that typically have capitalization ranging from approximately $2 billion to $5 billion. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They also include growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[5] Small cap pooled separate account funds invest in stocks of smaller companies that typically have capitalization of less than $2 billion. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They include core funds that include a mixture of value and growth stocks. Also included are growth funds that invest in the stock of midsize companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[6] International/global pooled separate account funds invest in stocks of larger companies in developed markets, including Japan, Great Britain, France, and Germany. They may also invest in emerging markets, such as Hong Kong, Brazil, Mexico, and Thailand. Some may invest a portion of their assets in U.S. stock. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They also include growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

4. Investments at Contract Value

Investments at contract value include the Guaranteed Interest Account – 1. The crediting interest rate for the Guaranteed Interest Account – 1 may be reset on a semiannual basis in advance of the period to which it relates and will be at least 3% per year. The crediting interest rate applies to the entire contract value. Crediting rates are set in response to several factors: (1) the cash flows in and out of the account during the calendar year, (2) the overall investment results of the custodian's general investment account for the year, (3) projected levels of cash flows within the current interest rate environment, (4) projected maturity of the underlying investments, and (5) interest rates that may be applied to the reinvestment of assets in maturing investments.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contract is dependent on the issuer's (MassMutual) ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations

The Guaranteed Interest Account – 1 does not specify any events that would limit the ability of the Plan to transact at contract value with the issuer or any events that would allow the issuer to terminate the contract and settle for an amount different from the contract value. The Guaranteed Interest Account – 1 provides payment options of the contract value for surrendering the account; however, GPM does not intend to surrender the account. GPM may refuse to accept the offer of guaranteed interest rates at the January renewal date. If GPM refuses the offer, the account would be liquidated.

5. Investments and Notes Receivable

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivable from participants at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by MMLIC for the Guaranteed Interest Account and the pooled separate accounts, and Reliance Trust Company for the mutual funds and notes receivable.

6. Plan Termination

Although it has not expressed intent to do so, GPM has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Income Tax Status

The underlying volume submitter plan has received an advisory letter from the IRS dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Code and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-in-Interest Transactions

The investments of the Plan held under a Guaranteed Interest Account and the pooled separate accounts, are managed by MMLIC. MMLIC holds title to these assets and does the daily valuation and trades, and therefore these transactions qualify as party-in-interest transactions. MMLIC may receive fees for managing these investments. These transactions are exempt from the prohibited transaction rules.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported on the statements of net assets available for benefits.

10. Delinquent Participant Contributions

During April 2019, GPM failed to transmit certain participant contributions to the Plan in the amount of $54,163 within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA Section 406, regardless of materiality. GPM transmitted the delinquent participant contributions to the Plan by April 30, 2019, and reimbursed the Plan for lost earnings in the amount of $528 by June 30, 2019. Related excise taxes will be paid by GPM .

11. Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2020, the date the accompanying financial statements were available to be issued.

Subsequent to December 31, 2019, beginning in March 2020 the COVID-19 pandemic was recognized and impacted the values of the investment securities held by the Plan. The COVID-19 pandemic has created, and is expected to continue to create, significant economic disruption and decreased economic activity. The extent to which the COVID-19 pandemic will continue to negatively impact the values of the investments held by the Plan is highly uncertain and cannot be predicted as it depends on the scope and duration of the pandemic, as well as other market participants and actions taken by governmental authorities and other third parties in response to the pandemic.

11. Subsequent Events (continued)

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act eliminate the need for terminated employees to take a required minimum distribution in calendar year 2020.

In September 2020, Empower Retirement announced its planned acquisition of MassMutual's retirement business. Management is evaluating the effect, if any, that this move will have on its Plan.
