Note 1. Description of Plan

The following description of SPFM, LP 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution safe harbor plan that covers all employees of SPFM, LP and its affiliate, Protex Beauty, Inc. (collectively, the Company or Plan Sponsor), who have completed 12 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Company contributes 100% of the first 4% of eligible compensation, as defined in the Plan document that a participant contributes to the Plan. These amounts are safe harbor contributions. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. There were no additional profit sharing contributions for the year ended December 31, 2019.

Participants may elect to contribute up to 100% of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, Company safe harbor contributions, Company discretionary contributions and actual earnings thereon.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may only have one note outstanding at a time. The notes are secured by the balance in the participant's account and bear interest, as determined by the Plan Administrator. Interest rates range from 4.25% to 5.50% as of December 31, 2019, and the notes mature through December 2024. Principal and interest are paid through payroll deductions.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The Plan invests in various types of investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of rear).

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants in September 2020.

Payment of benefits: Benefits paid to participants are recorded when paid.

Administrative expenses: Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID-19) a "Public Health Emergency of International Concern" and on March 10, 2020, declared COVID-19 a pandemic. This has resulted in substantial volatility in financial markets and, as a result, the Plan's investments have experienced significant fluctuations in fair value since December 31, 2019. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report; therefore, the extent of any adverse impact to the Plan's participants cannot be predicted at this time.

The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company (Trustees)

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Great-West Trust Company, LLC, and Great-West Life & Annuity Insurance Company, the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that the information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedules related to the following assets:

	December 31	
	2019	2018
Investments at fair value	$ 6,817,581	$ 5,422,412
Investments at contract value	337,764	266,000
Notes receivable from participants	279,389	276,657

The trustees also certified to the completeness and accuracy of $823,572 of net appreciation in fair value of investments, $264,692 of interest and dividends of the aforementioned investments and $11,768 of interest income from notes receivable from participants for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC, Fair Value Measurements and Disclosures, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Note 4. Fair Value Measurements (Continued)

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market accounts: Money market accounts are valued at the NAV of shares held by the Plan at year-end.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Investments at fair value:				
Mutual funds	$ 6,817,581	$ -	$ -	$ 6,817,581

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investments at fair value:				
Mutual funds	$ 5,422,412	$ -	$ -	$ 5,422,412

Note 4. Fair Value Measurements (Continued)

Transfers between levels: For the year ended December 31, 2019, there were no significant transfers in or out of Level 3.

Note 5. Guaranteed Investment Contract

The Plan offers as an investment option a benefit-responsive guaranteed investment contract. Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company (Great-West) maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the Plan is the yield earned (i.e., interest credited) on the benefit-responsive guaranteed investment contract. At December 31, 2019 and 2018, the net crediting rate was an effective rate of 1.2%.

Note 6. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Great-West, therefore, these investments qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

Effective November 1, 2003, the Plan adopted a nonstandardized form of a prototype plan. The Plan has received a determination letter from the Internal Revenue Service (IRS), dated March 31, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan.

Note 8. Tax Status (Continued)

Although the Plan has been amended since receiving this determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2019	2018
Net assets available for benefits per the financial statements	$ 7,456,604	$ 5,978,274
Less employee contributions receivable	(16,460)	(9,384)
Less employer contributions receivable	(6,445)	(5,053)
Add excess contribution payable	1,035	1,232
Net assets available for benefits per Form 5500	$ 7,434,734	$ 5,965,069

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500 as of the year ended December 31, 2019:

Net increase in net assets available for benefits per the financial statements	$ 1,478,330
Adjustment for change in employee contributions receivable	(7,076)
Adjustment for change in employer contributions receivable	(1,392)
Adjustment for change in excess contributions payable	(197)
Net income per Form 5500	$ 1,469,665

Note 10. Delinquent Participant Contributions

During the 2019 Plan year, the Plan Sponsor inadvertently failed to deposit $3,181 of participants' contributions within the required timeframe as stated by Department of Labor regulations. The delay in remitting contributions to the trustee was due to administrative error and these late contributions qualify as prohibited transactions. The Company deposited the participant contributions during the 2020 Plan year and reported these contributions late within the Form 5500.
