Independent Auditors' Report

To the Retirement Committee
Retirement Plan for Employees of Aquarion Company
Bridgeport, Connecticut

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Aquarion Company, which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by SEI Private Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Independent Auditors' Report (continued)

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2019 financial statements referred to in the first paragraph.

Other Matter - Supplemental Schedule

The supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2019 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Other Matter – 2018 Financial Statements

The financial statements of the Plan as of December 31, 2018, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by SEI Private Trust Company, the trustee of the Plan. Their report, dated October 11, 2019, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations - 2019

The form and content of the information included in the 2019 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements

Years ended December 31, 2019 and 2018

1. Description of Plan

The following description of the Retirement Plan for Employees of Aquarion Company (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit, noncontributory pension plan covering substantially all salaried and hourly employees of Aquarion Company and certain subsidiaries (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Retirement Committee appointed by the Company, and who serve without compensation, is responsible for the general administration of the Plan and makes the final determination on all questions arising in connection with the interpretation, application and administration of the Plan.

Eligibility

The Plan was closed to new noncollectively bargained employees hired on or after October 1, 2009. The Plan was closed to any employees hired on or after January 1, 2011, or those employees who were not participants as of that date, with the exception of former United Water Plan participants who had completed one year of service under the United Water Plan as of September 1, 2012. Such former United Water Plan participants were eligible to participate as of September 1, 2012.

Pension Benefits

Annual retirement benefits are calculated based upon the average annual compensation, years of service and certain other components, as defined in the plan document. Normal retirement benefits are payable at age 65.

The Plan also provides for the payment of lesser benefits if an employee elects early retirement after attaining age 55 and completing 10 years of credited service.

Disability Benefits

An active employee who has completed 10 or more years of service and becomes permanently disabled on or prior to retirement or separation from service, shall be entitled to receive the actuarial equivalent of his accrued benefit, unreduced for early retirement.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Vesting

A participant who has completed five years of service is 100% vested in their accrued benefit.

Form of Benefits

The normal form of benefit is an actuarially reduced joint and 50% survivor annuity for married participants and a five-year certain and life annuity for single participants. Optional forms of annuity payments are also available.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are held by SEI Private Trust Company (SEI) and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefit

Benefit payments to participants are recorded when paid.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Plan Expenses

Investment-related expenses are included in net appreciation (depreciation) in fair value of investments. Investment management and custodial fees are paid directly from plan assets. Certain expenses of maintaining the Plan are paid directly by the Company.

Reclassification

Certain items from the prior year financial statements have been reclassified to conform to the current year presentation.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are determined based upon certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

3. Certification by the Investment by the Investment Trustee

Information presented in the accompanying statements and schedules as of and for the years ended December 31, 2019 and 2018 for investments and investment income (loss) was derived, without audit, from information certified to be complete and accurate by SEI, the investment trustee, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions based on the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the average of the participant's annual compensation over their five consecutive highest-paid calendar years of employment with the Company within the last ten years prior to retirement or termination. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances including retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Calculations of the actuarial present value of accumulated plan benefits were made by the consulting independent actuary as of January 1, 2019 and 2018. The calculations represent the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits for 2019 and 2018 is as follows:

	January 1,	
	2019	2018
Actuarial present value of vested benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 49,170,635	\$ 46,736,888
Other participants	43,434,330	42,755,400
Terminated participants	4,668,831	4,259,406
	<u>97,273,796</u>	<u>93,751,694</u>
Actuarial present value for non-vested benefits	2,686,411	2,778,011
Actuarial present value of accumulated Plan benefits	<u>\$ 99,960,207</u>	<u>\$ 96,529,705</u>

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The change in the actuarial present value of accumulated plan benefits 2019 and 2018 is as follows:

	January 1,	
	2019	2018
Actuarial present value of accumulated plan benefits, Beginning of year	\$ 96,529,705	\$ 93,662,892
Increase (decrease) during the year attributable to:		
Benefits accumulated	2,216,273	1,433,157
Interest accumulation	6,548,574	6,383,169
Benefits paid	(5,334,345)	(4,949,513)
Net decrease	3,430,502	2,866,813
Actuarial present value of accumulated plan benefits, End of year	\$ 99,960,207	\$ 96,529,705

The significant actuarial assumptions used in the valuations as of January 1, 2019 and 2018 are as follows:

Mortality basis: 2018 and 2019 - Mortality rates based on RP-2014 Employee and Healthy Annuitant mortality tables for males and females without collar or amount adjustments, using RP-2014 rates published in the final RP-2014 report adjusted on the 2006 base year by factoring out the projection under Scale MP-2018 with generational mortality improvements using Scale MP-2018.

Investment rate of return: 7.0% per annum for both 2019 and 2018.

Normal retirement age: Annual rates of retirement were assumed as follows:

Age	Rate
55-59	2%
60-61	5%
62	30%
63	20%
64	30%
65	100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits subsequent to the termination.

Notes to Financial Statements (continued)

5. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Common and Collective Trust Fund

The common and collective trust fund is valued at the net asset value of the units held of the collective trust. The net asset value is used as a practical expedient to estimate fair value.

Mutual Funds

Mutual funds are valued at the quoted price of shares held by the Plan at year end.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

There have been no changes in the methodologies used at December 31, 2019 and 2018.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Description	Level 1	Level 2	Level 3	Total
2019				
Investments:				
Mutual funds	\$ 118,589,855	-	-	\$ 118,589,855
Common and collective trusts*				6,932,622
Total investments at fair value				<u>\$ 125,522,477</u>
2018				
Investments:				
Mutual funds	\$ 92,763,808	-	-	\$ 92,763,808
Common and collective trusts*				6,476,208
Total investments at fair value				<u>\$ 99,240,016</u>

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the Statement of Net Assets Available for Benefits.

There were no transfers between levels of investments during the years ended December 31, 2019 and 2018.

Investments in common and collective trusts provide for daily liquidity and have no redemption features or other restrictions.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

6. Funding Policy

The Company's funding policy is to make annual contributions to the Plan within the range determined by the Plan's actuary. The actuarial assumptions have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2019 and 2018.

7. Party-in-Interest / Related Party Transactions

Certain plan investments are managed by SEI or its affiliates. SEI is a trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Investment management and custodial expenses paid by the Plan to SEI or its affiliates totaled \$526,936 and \$493,660 for the years ended December 31, 2019 and 2018, respectively. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan.

8. Income Tax Status

The Plan obtained its latest determination letter on October 16, 2012 in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan has no uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2016.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated to the participants and beneficiaries of the Plan in accordance with ERISA and its related regulations and the plan document.

Retirement Plan for Employees of Aquarion Company

Notes to Financial Statements (continued)

9. Plan Termination (continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's guaranty, while other benefits may not be provided for at all.

10 Subsequent Events

Subsequent events were evaluated through October 14, 2020 the date the financial statements were available to be issued.

In early March 2020, there was a global outbreak of COVID-19 that has resulted in significant disruptions in the global economy. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law. The CARES Act contains several provisions that temporarily impact the Plan, including options of delaying contributions for 2020 until January 1, 2021 and basing the plan's AFTAP for the last plan year before January 1, 2020. The Company has not adopted these provisions and does not expect to adopt them, however is reviewing the provisions currently.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1970, as amended December 31, 2016
Participation	<p>An Employee becomes a Participant on the first day of the month coincident with or next following completion of one Year of Service.</p> <p>The plan is closed to new participants hired after January 1, 2011 for Union participants and October 1, 2009 for Non-union participants, with the exception of former United Water Plan participants who have completed one Year of Service under the United Water Plan as of September 1, 2012. Such former United Water Plan participants were eligible to participate as of September 1, 2012.</p>
Benefit Service	<p>For service prior to January 1, 1976, Years of Service equal completed years and full months of employment. For service on and after January 1, 1976, one year of Service is earned for each Plan Year during which a Participant completed 1,000 Hours of Service. In the first and last year of employment, a partial Year of Service is earned based on the ratio of completed Hours of Service over 1,000 hours.</p> <p>For former United Water Plan participants, with respect to the Accrued Benefit under the United Water Plan, Years of Benefit Service are determined in accordance with the provisions of the United Water Plan immediately prior to September 1, 2012.</p>
Vesting Schedule	A Participant who has completed 5 Years of Vesting Service is 100% Vested in his Accrued Benefit. A vested Participant may elect commencement on an Early Retirement Date of his Vested Benefit, reduced 5% for each year that commencement of payment precedes age 65.
Final Average Compensation	<p>The average of a Participant's base pay over the five consecutive years out of the latest ten years which produce the highest average pay.</p> <p>Effective January 1, 2004, the definition of applicable compensation was changed to include bonuses as eligible compensation on a prospective basis.</p>
Normal Retirement Date	The first day of the month coincident with or next following attainment of age 65 and completion of 5 Years of Service
