1. DESCRIPTION OF THE PLAN

The following brief description of the Practice Management Works 401K (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a participant directed, defined contribution plan covering all eligible employees of Practice Management Works, LLC and affiliates (the "Company" or "Plan Administrator"). The Plan was established January 1, 2015 and amended and restated on May 1, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Reliance Trust Company (the "Trustee") is the Plan's trustee.

Eligibility – An employee reaching the age of 18 becomes eligible to participate in the Plan after three months of service. An eligible employee becomes a participant effective on the first day of the month subsequent to meeting the eligibility requirements.

Contributions – Each year, participants may contribute up to the maximum percentage of annual compensation allowable under the Internal Revenue Code ("IRC"). From time to time the contributions of certain employees, designated as highly compensated employees under IRC rules, may be limited so that the Plan may satisfy various nondiscrimination tests required under applicable Federal regulations. Participants may elect to contribute through payroll deductions from 1% to 90% of their eligible compensation as defined by the Plan, in any combination of pre-tax elective deferrals and Roth elective deferrals, up to the statutory maximum of $19,000 for 2019. Eligible employees may make an additional employee contribution known as a "catch-up" contribution in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"). Catch-up contributions were limited to $6,000 for 2019, resulting in a total maximum contribution of $25,000 for 2019.

The Plan permits Company matching contributions to participants' elective deferrals. The amount of the matching contribution is determined annually by the Company. No matching contribution was made for the year ended December 31, 2019.

The Plan allows the Company to make discretionary nonelective employer contributions on behalf of eligible employees. Nonelective employer contributions shall be allocated to each eligible participant based on the ratio that such participant's compensation bears to the total compensation paid to all eligible participants. No discretionary nonelective employer contributions were made for 2019.

Rollovers – Rollover contributions are permitted into the Plan in accordance with IRS regulations and Plan provisions.

Investment Options – Upon enrollment in the Plan, a participant may direct employee contributions in increments among various investment options. Participants may change their investment options on any normal business day.

Participant Accounts – A separate account is maintained for each participant. Each participant's account is credited with his or her contribution, the Company's matching contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (continued)

Vesting – Plan participants are fully vested in their contributions plus actual earnings thereon. In addition, participants vest in employer matching and nonelective contributions at a rate of 20% per year after two years of service, with 100% vesting after six years of service.

A participant will be 100% vested in the Company contributions if he or she attains age 65, incurs a total and permanent disability or dies while employed by the Company.

Benefit Payments – Under the Plan, normal retirement age is 65. On termination of service due to death, disability, retirement or termination of employment, a participant shall have the option to receive an annuity payment over his or her life expectancy, a lump-sum amount equal to the full value of the participant's vested account balance, or rollover the vested account balance to an IRA or other qualified plan. In situations in which a separated participant fails to elect a method of distribution, the Plan has the authority to initiate lump-sum payments for vested account balances below $1,000 and automatic IRA rollovers for vested account balances between $1,000 and $5,000. Separated participants with account balances in excess of $5,000 may elect to leave their account balances in the Plan until they reach the age of 70 ½ at which time one of the above options must be selected.

Prior to age 65, in-service withdrawals from the Plan are allowed for unusual hardship and upon attaining the age of 59 1/2.

In the event a participant's employment is terminated, the participant's accumulated vested benefits will be distributed to the participant in accordance with the provisions of the Plan. A participant's account in excess of his or her vested interest shall be forfeited upon termination.

Notes Receivable from Participants - Participants may borrow a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance from their accounts. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate defined in the Plan agreement. Principal and interest are paid ratably through monthly payroll deductions.

Forfeited Accounts – Forfeited balances of participants' non-vested accounts are used to reduce future employer contributions and pay expenses of the Plan. There are no forfeitures at December 31, 2019 and 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Investments and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for descriptions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included as administrative expenses when incurred. As of December 31, 2019 and 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based upon the terms of the Plan agreement. At December 31, 2019, outstanding notes receivable bear interest rates ranging from 6.75% to 7.25% and mature on various dates through February 2024.

Payment of Benefits – Benefit payments to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The plan management has elected the method of compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan's management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing such information certified by the Trustee with information included in the plan's financial statements and supplemental schedule H, Line 4i-Schedule of Assets (Held at End of Year).

	2019	2018
Statements of net assets available for benefits-		
Investments:		
Mutual funds	$ 170,821	$ 98,128
Common/collective trusts	36,829	29,349
	$ 207,650	$ 127,477

- Investment income for the year ended December 31, 2019 as shown in the accompanying statement of changes in net assets available for plan benefits included dividend income of $6,968.
- The Plan's investments appreciated in value by $26,987 for the year ended December 31, 2019.
- All investment-related information in the accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2019.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 — Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth the plan investment assets at fair value by level within the fair value hierarchy as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 170,821	$ -	$ -	$ 170,821
Total assets in the fair value hierarchy	170,821	-	-	170,821
Investments measured at net asset value (a)	-	-	-	36,829
Investments at fair value	$ 170,821	$ -	$ -	$ 207,650

The following table sets forth the plan investment assets at fair value by level within the fair value hierarchy as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 98,128	$ -	$ -	$ 98,128
Total assets in the fair value hierarchy	98,128	-	-	98,128
Investments measured at net asset value (a)	-	-	-	29,349
Investments at fair value	$ 98,128	$ -	$ -	$ 127,477

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if Currency Eligible)	Redemption Notice Period
Common/collective trusts	$ 36,829	N/A	Daily	None

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (if Currency Eligible)	Redemption Notice Period
Common/collective trusts	$ 29,349	N/A	Daily	None

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

ADP LLC ("ADP") is the record-keeper for the Plan. The Plan incurred administrative expenses with ADP amounting to $540 for the year ended December 31, 2019. Loans to participants are secured by the balances in the respective participant account. These transactions qualify as party-in-interest transaction and are exempt from the prohibited transaction rules.

6. FEDERAL INCOME TAX STATUS

The Plan's administrator adopted a prototype non-standardized 401(k) plan with cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on July 8, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal or state taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. If the Plan is terminated, the amounts credited to the employer contribution accounts of all participants become fully vested.

8. RISK AND UNCERTAINTIES

The Plan invests in various securities including mutual funds and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. SUBSEQUENT EVENTS

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Plan, its performance, and its financial results.

The Company has evaluated subsequent events through October 13, 2020, the date which the financial statements were available to be issued.

10. RECONCILIATION TO FORM 5500

No material differences exist between the Form 5500 and the financial statements.

1. DESCRIPTION OF THE PLAN

The following brief description of the Practice Management Works 401K (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a participant directed, defined contribution plan covering all eligible employees of Practice Management Works, LLC and affiliates (the "Company" or "Plan Administrator"). The Plan was established January 1, 2015 and amended and restated on May 1, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Reliance Trust Company (the "Trustee") is the Plan's trustee.

Eligibility – An employee reaching the age of 18 becomes eligible to participate in the Plan after three months of service. An eligible employee becomes a participant effective on the first day of the month subsequent to meeting the eligibility requirements.

Contributions – Each year, participants may contribute up to the maximum percentage of annual compensation allowable under the Internal Revenue Code ("IRC"). From time to time the contributions of certain employees, designated as highly compensated employees under IRC rules, may be limited so that the Plan may satisfy various nondiscrimination tests required under applicable Federal regulations. Participants may elect to contribute through payroll deductions from 1% to 90% of their eligible compensation as defined by the Plan, in any combination of pre-tax elective deferrals and Roth elective deferrals, up to the statutory maximum of $19,000 for 2019. Eligible employees may make an additional employee contribution known as a "catch-up" contribution in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"). Catch-up contributions were limited to $6,000 for 2019, resulting in a total maximum contribution of $25,000 for 2019.

The Plan permits Company matching contributions to participants' elective deferrals. The amount of the matching contribution is determined annually by the Company. No matching contribution was made for the year ended December 31, 2019.

The Plan allows the Company to make discretionary nonelective employer contributions on behalf of eligible employees. Nonelective employer contributions shall be allocated to each eligible participant based on the ratio that such participant's compensation bears to the total compensation paid to all eligible participants. No discretionary nonelective employer contributions were made for 2019.

Rollovers – Rollover contributions are permitted into the Plan in accordance with IRS regulations and Plan provisions.

Investment Options – Upon enrollment in the Plan, a participant may direct employee contributions in increments among various investment options. Participants may change their investment options on any normal business day.

Participant Accounts – A separate account is maintained for each participant. Each participant's account is credited with his or her contribution, the Company's matching contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN (continued)

Vesting – Plan participants are fully vested in their contributions plus actual earnings thereon. In addition, participants vest in employer matching and nonelective contributions at a rate of 20% per year after two years of service, with 100% vesting after six years of service.

A participant will be 100% vested in the Company contributions if he or she attains age 65, incurs a total and permanent disability or dies while employed by the Company.

Benefit Payments – Under the Plan, normal retirement age is 65. On termination of service due to death, disability, retirement or termination of employment, a participant shall have the option to receive an annuity payment over his or her life expectancy, a lump-sum amount equal to the full value of the participant's vested account balance, or rollover the vested account balance to an IRA or other qualified plan. In situations in which a separated participant fails to elect a method of distribution, the Plan has the authority to initiate lump-sum payments for vested account balances below $1,000 and automatic IRA rollovers for vested account balances between $1,000 and $5,000. Separated participants with account balances in excess of $5,000 may elect to leave their account balances in the Plan until they reach the age of 70 ½ at which time one of the above options must be selected.

Prior to age 65, in-service withdrawals from the Plan are allowed for unusual hardship and upon attaining the age of 59 1/2.

In the event a participant's employment is terminated, the participant's accumulated vested benefits will be distributed to the participant in accordance with the provisions of the Plan. A participant's account in excess of his or her vested interest shall be forfeited upon termination.

Notes Receivable from Participants - Participants may borrow a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested balance from their accounts. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate defined in the Plan agreement. Principal and interest are paid ratably through monthly payroll deductions.

Forfeited Accounts – Forfeited balances of participants' non-vested accounts are used to reduce future employer contributions and pay expenses of the Plan. There are no forfeitures at December 31, 2019 and 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Investments and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for descriptions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included as administrative expenses when incurred. As of December 31, 2019 and 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based upon the terms of the Plan agreement. At December 31, 2019, outstanding notes receivable bear interest rates ranging from 6.75% to 7.25% and mature on various dates through February 2024.

Payment of Benefits – Benefit payments to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The plan management has elected the method of compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan's management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing such information certified by the Trustee with information included in the plan's financial statements and supplemental schedule H, Line 4i-Schedule of Assets (Held at End of Year).

	2019	2018
Statements of net assets available for benefits-		
Investments:		
Mutual funds	$ 170,821	$ 98,128
Common/collective trusts	36,829	29,349
	$ 207,650	$ 127,477

- Investment income for the year ended December 31, 2019 as shown in the accompanying statement of changes in net assets available for plan benefits included dividend income of $6,968.
- The Plan's investments appreciated in value by $26,987 for the year ended December 31, 2019.
- All investment-related information in the accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2019.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 — Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth the plan investment assets at fair value by level within the fair value hierarchy as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 170,821	$ -	$ -	$ 170,821
Total assets in the fair value hierarchy	170,821	-	-	170,821
Investments measured at net asset value (a)	-	-	-	36,829
Investments at fair value	$ 170,821	$ -	$ -	$ 207,650

The following table sets forth the plan investment assets at fair value by level within the fair value hierarchy as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 98,128	$ -	$ -	$ 98,128
Total assets in the fair value hierarchy	98,128	-	-	98,128
Investments measured at net asset value (a)	-	-	-	29,349
Investments at fair value	$ 98,128	$ -	$ -	$ 127,477

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if Currency Eligible)	Redemption Notice Period
Common/collective trusts	$ 36,829	N/A	Daily	None

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (if Currency Eligible)	Redemption Notice Period
Common/collective trusts	$ 29,349	N/A	Daily	None

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

ADP LLC ("ADP") is the record-keeper for the Plan. The Plan incurred administrative expenses with ADP amounting to $540 for the year ended December 31, 2019. Loans to participants are secured by the balances in the respective participant account. These transactions qualify as party-in-interest transaction and are exempt from the prohibited transaction rules.

6. FEDERAL INCOME TAX STATUS

The Plan's administrator adopted a prototype non-standardized 401(k) plan with cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on July 8, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal or state taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. If the Plan is terminated, the amounts credited to the employer contribution accounts of all participants become fully vested.

8. RISK AND UNCERTAINTIES

The Plan invests in various securities including mutual funds and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. SUBSEQUENT EVENTS

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Plan, its performance, and its financial results.

The Company has evaluated subsequent events through October 13, 2020, the date which the financial statements were available to be issued.

10. RECONCILIATION TO FORM 5500

No material differences exist between the Form 5500 and the financial statements.
