Salary Deferral 401(k) Profit Sharing Plan

Notes to Financial Statements
December 31, 2019 and 2018

1. Description of Plan

The following brief description of the Sames Motor Company, Inc. Salary Deferral 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, except nonresident aliens, of Sames Motor Company, Inc. and members of its controlled group which include Sames Bastrop Ford, Inc., Sames Bastrop Chrysler Dodge Jeep Ram, Sames Kingsville Ford, Inc., Sames Kingsville Nissan, Inc., Crosstown Partners, Inc., Thunderbird Auto Finance, Ltd., Sames Automotive, Inc., Sames Budget Center, Ltd., of Sames Imports, Inc., and Jitney Jungle Ltd dba Siete Banderas (collectively the employer) located in Laredo, Bastrop, Corpus Christi, Kingsville, and Austin, Texas. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees of the employer are eligible for participation in the Plan after the completion of one year of service. The initial "eligibility computation period" is the 12-month period beginning with the hire date. Entry dates are the first day of each calendar quarter after meeting the eligibility requirements.

Contributions

The employer may make matching, qualified non-elective and discretionary contributions. The employer did not make any qualified non-elective or discretionary contributions for the year 2019. However, the employer did make a matching contribution for the year 2019 equal to 50% of the amount deferred with the total amount of the matching contribution not to exceed 2% of compensation. The employer contributions are not limited by profits. To receive employer contributions an employee must be employed on the last day of the year and have completed more than 1,000 hours of service during the Plan year. An employee is eligible to receive employer contributions if the employee dies, retires, or becomes totally disabled during the Plan year.

Each year, participants may contribute up to a maximum amount determined the by Federal Government, which for the year 2019 was $19,000. Also, participants who have obtained the age of 50 before the close of the Plan year are eligible to make catch-up contributions, which for the year 2019 was up to an additional $6,000. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their

1. Description of Plan (continued)

deferral rate initially set at 4% of eligible compensation and their contributions are invested in the default investment alternatives as established under the Plan until changed by the participant.

Participant Accounts

Participants may direct their contributions to selected investments as made available by the Plan administrator. Participants may change their investment options throughout the year via direct access with the Plan's custodian.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions (if any) and Plan earnings. Allocations of the Company's contributions are based on elective deferrals or considered compensation, as defined. Plan earnings are credited to each participant's account based upon the performance of the investments selected at each valuation date. The benefit to which a participant is entitled is the benefit that can be derived from the participant's vested account.

Payment of benefits

On termination of service for any reason and if the vested interest in a participant's account is $5,000 or less, it will be distributed in a lump-sum amount. If the vested interest in a participant's account is more than $5,000 the vested interest may be distributed in a lump-sum, rolled over into another qualified plan or to an individual retirement account. Additionally, a participant may elect to receive either (a) substantially equal installment payments over a specified period of time; or (b) monthly annuity payments from an insurance company. Hardship distributions are also available subject to certain limitations.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 10% vested after one year of service, 20% after two years, and then increasing by 20% per year until 100% vested at six years of service in Company matching and discretionary contributions. A participant is 100% vested at all times in qualified non-elective Company contributions. Upon death or disability, a participant becomes fully vested in their account balance.

1. Description of Plan (continued)

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts may be used to pay any administrative expenses or to reduce the Employer's subsequent contributions to the Plan. Unallocated forfeitures at December 31, 2019 and 2018 were $28,422 and $16,074, respectively. Unallocated forfeitures in the amount of $28,422 were used to reduce the 2019 employer matching contributions funded in 2020.

Notes Receivable from Participants

Loans are available to all participants. The amount that may be borrowed is the lesser of $50,000 or 50% of the participant's vested interest in the Plan. The $50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous 12 months, even if amounts have been repaid. The loans are secured by the balance in the participant's account. The interest rate charged will be determined when the loan is originated and will be the prime rate as listed in the Wall Street Journal plus 1%. The interest rate remains constant throughout the term of the loan. All loans must be repaid within five years except for the purchase of a primary residence, which have a maximum repayment period of ten years and are repaid through Automated Clearing House (ACH) deductions from the employee bank accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, including the removal, modification to, and addition of certain disclosure requirements. The updated guidance is effective for fiscal years beginning after December 15, 2019, with early adoption permitted.

2. Summary of Significant Accounting Policies (continued)

The Plan has elected not to early adopt ASU 2018-13 and does not expect the ASU to have a material impact on its financial statements or disclosures.

3. Certification of Plan Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company (MLIC), the custodian of the Plan has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018.
- Investment income (loss) and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the year ended December 31, 2019.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2019.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to

4. Fair Value Measurements (continued)

unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for major categories of investments measured at fair value:

Level 2 Fair Value Measurements

The fair values of pooled separate accounts reported by the insurance company are measured based upon data provided by outside valuation service providers who in turn generally use the mean of bid and asked prices but may also use alternative observable pricing inputs for certain securities less a separate account charge.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ 9,586,401	$ -	$ 9,586,401

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ 7,150,899	$ -	$ 7,150,899

5. Tax Status

Effective November 1, 2015 the Company has adopted the MLIC Volume Submitter Profit Sharing Plan with CODA which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014 which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in accordance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, no uncertain positions taken or expected to be taken would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are investments managed by MLIC. MLIC is the custodian of Plan assets and they provide participant accounting and, therefore these transactions qualify as party-in-interest transactions. Total fees paid by the Plan for administration and trustee fees amounted to $27,411 for the year ended December 31, 2019.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed intent to do so, the employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants would become fully vested in their account balances.

9. Delinquent Employee Contribution and Loan Remittances

During 2019 the Company did not remit employee elective deferral and loan repayments totaling $1,026 in a timely manner, as defined by ERISA. These untimely remittances are considered nonexempt party-in-interest transactions, which may result in an imposition of an excise tax on the amount of the transactions. The Company funded all late remittances in 2019 and corrected all such remittances in 2019. The Company computed the lost earnings on all of these untimely remittances and contributed the lost earnings to the participants affected by the late remittances. These nonexempt transactions do not affect the tax status determination of the Plan, and the Company has paid all fines or excise taxes imposed as a result of these untimely remittances.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per financial statements at December 31, 2019 and 2018 to Form 5500:

	2019	2018
Net assets available for benefits per financial statements	**$ 10,407,838**	$ 7,967,513

Net assets available for benefits per Form 5500	**$ 10,112,301**	$ 7,659,407

10. Reconciliation of Financial Statements to Form 5500 (continued)

The following are reconciliations of total contributions and the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2019 to Form 5500:

Total contributions per financial statements	$ 1,609,327
Add: Receivable, employer match at December 31, 2018	308,106
Less: Receivable, employer match at December 31, 2019	(295,537)
Total contributions per Form 5500	$ 1,621,896
Net increase in net assets available for benefits per financial statements	$ 2,440,325
Add: Receivable, employer match at December 31, 2018	308,106
Less: Receivable, employer match at December 31, 2019	(295,537)
Net income per Form 5500	$ 2,452,894

10. Subsequent Events

Subsequent to December 31, 2019, the World Health Organization declared the Coronavirus (COVID-19) outbreak a public health emergency. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the COVID-19 pandemic could have a significant adverse impact on investment portfolios and may affect the market price of Plan's assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) that was signed into law on March 27, 2020 and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions.

The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

10. Subsequent Events (continued)

Subsequent events were evaluated through October 10, 2020, the date the financial statements were available to be issued.
