DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF THE PLAN

The following brief description of the Dynegy Pension Plan (formerly Dynegy, Inc. Frozen Retirement Benefit Plan) (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

General

The Plan was previously sponsored by Dynegy Inc. (“Dynegy”) as of December 15, 2017. Sithe Energies, Inc., a Delaware corporation was the former Plan sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Dynegy Inc. Benefit Plans Committee served as the “Plan Administrator” for the Plan as of April 9, 2018. Assets of the Plan are held by the Northern Trust Company (the “Trustee”).

Effective at the close of business on December 28, 2017 the Dynegy Inc. Retirement Plan (“DRP”) was merged into the Plan. As a result, DRP’s assets totaling approximately \$285.9 million were transferred into the Plan on December 31, 2017. Plan was also re-named from Dynegy Inc. Frozen Retirement Plan to Dynegy Pension Plan.

Effective as of April 9, 2018, Dynegy was merged with and into Vistra Energy Corp. (“Vistra Energy”), with Vistra Energy being the surviving entity, the Plan was amended to reflect Vistra Operations Company LLC (the “Company”) as the Plan sponsor. Effective as of the end of the day on December 31, 2018, no newly hired or rehired non-represented employees shall be eligible to participate in the Plan, and the benefits of non-represented employees and represented employees of Local 600 benefits shall be frozen. The represented participants not in Local 600 are still accruing.

Vesting

All participants in the Plan are fully vested.

Contributions

Employer contributions are based upon minimum funding requirements as calculated by the Plan’s actuary.

Distributions

Distributions are made pursuant to the terms of the Plan.

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Termination of the Plan

Although it has not expressed any intent to do so, the Company has reserved the right to terminate the Plan. Whether all participants receive their entire Plan benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations. The receipt of full Plan benefits may also depend on the financial condition of the Company, and its affiliates, the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) at that time and the priority of those benefits. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by Section 4044 of ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former participants or their beneficiaries have been receiving for at least a three-year period ending on the Plan's termination date, or that participants eligible to retire before the beginning of that three-year period would have been receiving as of the beginning of that three-year period if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during that three-year period. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five-year period ending on the Plan's termination date.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Generally, vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and the changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of the valuation date. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and current employees.

The actuarial present value of accumulated plan benefits is determined by the Plan’s independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

The significant actuarial assumptions used in the valuation as of January 1, 2019 are as follows:

Mortality basis:	Amounts-weighted aggregate rates of the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2019.
Discount rate:	5.31%

Contributions

Contributions to the Plan from the Company are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefit payments to participants/beneficiaries are recorded upon distribution.

Expenses of the Plan

Certain expenses incurred in the administration of the Plan paid by the Plan or the Plan sponsor.

Recently Issued Accounting Pronouncement

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-09, which among other things amends an illustrative example of a fair value hierarchy disclosure contained in FASB Accounting Standards Codification (ASC) Subtopic 962-325, Plan Accounting – Defined Contribution Pension Plans – Investments – Other to avoid the interpretation that common collective trust funds would never have a readily determinable fair value and, would always be considered eligible to use the net asset value (NAV) per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether the its investments qualify for the NAV per share practical expedient in accordance with FASB ASC Topic 820 (FASB ASC 820), Fair Value Measurement. The effective date is for annual periods beginning after December 15, 2018. Management is currently evaluating this ASU to determine its impact to the Plan's financial statements and it is not expected to have a material impact to the Plan's net assets available for benefits.

3. INCOME TAXES

A determination letter dated December 5, 2013 was received from the Internal Revenue Service stating that the Plan constitutes a qualified plan under the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. FUNDING POLICY

The Plan's participating employers' funding policy is to contribute an amount at least equal to the minimum funding requirement and no more than the maximum tax deductible contribution in accordance with ERISA and the Code. Such amount is determined by a consulting actuary and is certified in an Actuarial Valuation Report. For the Plan year ended December 31, 2019 and 2018, the Plan has met the minimum funding requirements of ERISA.

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. INVESTMENTS AND RELATED INCOME (CERTIFIED BY TRUSTEE)

Information related to investments and related investment income as of December 31, 2019 and 2018, and for the years ended December 31, 2019 and 2018, presented in the financial statements and supplemental schedules, were certified by the Trustee of the Plan, as permitted by 29 CFR 2520.103-8 of the Department of Labor rules under ERISA.

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

7. FAIR VALUE MEASUREMENTS

The FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the closing price reported on the active market on which the investment is traded.

Common Collective Trusts & 103-12 investments: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. In accordance with the provisions of ASU 2015-07, these funds are not required to be presented in the fair value hierarchy table.

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Partnerships: The interest in this fund has been valued using the partner's capital contributions, withdrawal or distributions, the allocation of the partnership's net profits and losses and any other capital account adjustments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the assets held by the plan at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

8. NAV PER SHARE

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable as of December 31, 2019 and 2018. For the Plan, such assets include investments in common collective trust funds and 103-12 investments.

The following tables for December 31, 2019 and 2018, sets forth a summary of the Plan's and Master Trust's investments with a reported NAV.

9. PARTIES-IN-INTEREST

Certain Plan investments are managed by the Northern Trust Company. Because Northern Trust Company is the trustee as defined by the Plan, these qualify as parties-in-interest transactions allowable under ERISA regulations. Fees paid during the year for professional services rendered by parties-in-interest, including Northern Trust Company, were based on customary and reasonable rates for such services. As of December 31, 2019 and 2018 total fees paid to parties-in-interest in connection with services rendered to the Plan totaled \$64,938 and \$72,974 respectively.

10. GUARANTEED INVESTMENT CONTRACT

In 2019, the plan entered into a guaranteed investment contract with Banner Life Insurance Company (Banner). At the direction of the plan's administrator, a single premium to buy an annuity for a retiring employee is withdrawn by Banner from the unallocated fund. Purchased annuities are contracts under which Banner is obligated to pay benefits to named employees or their beneficiaries. Funds under the guaranteed investment contract that have been allocated and applied to purchase annuities (that is, Banner is obligated to pay the related pension benefits) are excluded from the plan's assets.

The Plan was amended, effective December 5, 2019, to provide for the purchase on January 1, 2020 of an annuity contract or contracts from an annuity provider to pay the benefits of certain Participants whose benefits (1) were in pay status as of September 1, 2019; (2) were being paid in the form of an annuity; and (3) had a monthly payment of \$600 or less as of September 1, 2019. The annuity purchase was also limited to the extent necessary to prevent settlement accounting for 2020 under U.S. Generally Accepted Accounting Principles ("GAAP"). Other exclusions applied as described in the Plan document, as amended. In accordance with this amendment, a group annuity contract amounting to \$10,108,000 was purchased from Banner and is accounted for as a benefit payment in the statement of changes in net assets available for benefits. The annuity contracts purchased will not be assets of the Plan or trust following the purchase.

11. SUBSEQUENT EVENTS

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2019, and through October 13, 2020, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

DYNEGY PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

Effective July 2, 2020, Vistra Energy changed its name to Vistra Corp.

In March 2020, the World Health Organization categorized the novel coronavirus (COVID-19) as a pandemic, triggering volatility in financial markets and significant economic uncertainties. This volatility and related uncertainties could have a material impact on the amounts reported in the statements of net assets available for benefits, changes in net assets available for benefits and the accumulated plan benefits. The duration of these uncertainties and the ultimate financial effects are unknown at this time. Plan management does not believe there is substantial doubt about the Plan's ability to continue as a going concern.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate assumption for Sithe cash balances from 3.00% to 4.00%. The cash balance interest crediting rate assumption for cash balances other than Sithe changed from 4.25% to 3.50%. These changes were made to better reflect anticipated plan experience.

The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so the approval of the Commissioner is not required.

This choice occurred effective January 1, 2009, for UWUA 600 employees, and effective January 1, 2010, for IBEW 1347 employees.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate assumption for Sithe cash balances from 3.00% to 4.00%. The cash balance interest crediting rate assumption for cash balances other than Sithe changed from 4.25% to 3.50%. These changes were made to better reflect anticipated plan experience.

The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so the approval of the Commissioner is not required.
