Participant contributions are limited by the maximum allowable contribution under the IRC. Newly eligible employees are automatically enrolled in the Plan at 5% of eligible compensation unless they affirmatively elect not to participate. The Plan also has a provision for employer matching contributions, whereby the Company will match 35% of employee contributions up to $1,500, which is increased annually based upon a calculation of the unused employer matching contribution from the previous year. The Company may also make a discretionary profit sharing contribution, which is determined at year-end by the Board of Directors. The Company declared profit sharing contributions of $456,675 and $682,130 for the years ended December 31, 2019 and 2018, respectively. In order to share in the discretionary contribution, an employee must be employed on the last day of the Plan year and have completed one year of service as defined by the Plan.

Vesting – Participants are immediately vested in both their voluntary contributions and Company matching contributions and the earnings thereon. Vesting in the discretionary profit sharing contributions, and earnings thereon, are based on a graded vesting schedule with participants 100% vested after six years.

Forfeitures – Forfeitures for profit sharing contributions may first be used to reduce employer contributions, then used to pay administrative expenses of the Plan which would otherwise be paid by the Company, and then allocated to participants in the ratio which the compensation of each participant for the plan year bears to the total compensation for the plan year of all participants otherwise entitled to share in the employer contributions. The Plan had $39,193 and $26,578 in forfeitures available as of December 31, 2019 and 2018, respectively. During the years ended December 31, 2019 and 2018, $27,299 and $169,048 of forfeitures were used to reduce employer profit sharing contributions, respectively.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the employer contributions and Plan earnings. Allocations of earnings are based on participant account balances.

1. PLAN DESCRIPTION (continued)

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall become 100% vested and entitled to the amount of their account at the date of such termination.

Payment of Benefits – Employees are eligible for retirement at normal retirement age 65 or early retirement age 55. Benefits are determined by the final value of the participant's account at the time of retirement, termination or death. Various payment options are available upon retirement including lump-sum cash or minimum distribution installments.

Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date. Distributions are also permitted in the event of financial hardship, as defined by the Plan. In addition, in-service distributions may be made from any of the participant's vested accounts at any time upon or after the participant attains age 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investments – The Plan establishes a fair value based on a hierarchy which identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded, on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded, on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2, and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2019 and 2018:

Mutual funds: Valued based on quoted market prices, which represent the net asset values of the shares held by the Plan.

Money market fund: Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the Securities and Exchange Commission and deemed to be actively traded. The fund is required to publish a daily net asset value and to transact at that price.

Common collective trusts: Are fully benefit-responsive and are valued based on the net asset values ("NAV") of the underlying investments. The common collective trusts have been valued based on the net asset values ("NAV") of the shares held by the Plan at year-end using NAV contract value, and generally have no redemption restrictions or unfunded capital commitments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan presents in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through October 14, 2020, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures (as discussed in Note 2). The following table sets forth, by level within the fair value hierarchy, the Plan's assets that are measured at fair value, with the exception of the common collective trusts that are measured at fair value using the NAV practical expedient. The fair value of the common collective trusts is provided below to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

	2019	2018
Level 1:		
Mutual funds	$ 30,873,663	$ 24,248,782
Money market fund	3,000	-
Investments measured at net asset value:		
Common collective trusts	4,904,184	4,093,628
Total investments at fair value	$ 35,780,847	$ 28,342,410

4. INCOME TAX STATUS

The Plan is utilizing a prototype plan which received a favorable determination letter from the Internal Revenue Service stating that the Plan is qualified under applicable sections of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan was amended subsequent to the IRS determination letter. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust income is tax exempt.

5. SUMMARY OF TRUSTEE INFORMATION

Common collective trusts are reported at NAV contract value in the financial statements and at NAV fair value for Form 5500.

7. SUBSEQUENT EVENTS

The COVID-19 pandemic started to affect the United States in March 2020. The Plan Sponsor was deemed an essential business and therefore continued to operate. However, on-premise customers, such as bars, restaurants, and casinos, were required to close for a period time and were subject to restrictions upon reopening. The duration and impact of the outbreak on the Plan Sponsor, and the resulting impact on the Plan, is currently uncertain and cannot be quantified.

On March 27, 2020, Congress enacted the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), which included certain provisions to provide economic relief to plan sponsors and participants of employee benefit plans. These provisions are not mandatory and can be adopted at the discretion of the Plan Sponsor. Effective April 3, 2020, the Plan adopted the provision available under the CARES Act that participants may take a coronavirus-related distribution of up to $100,000 from their account through December 31, 2020, without incurring a 10% early withdrawal penalty.
