Summa Health 403(b) Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Summa Health 403(b) Plan (the Plan), formerly known as the Summa Health System Tax Sheltered Annuity Program, is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a tax-sheltered annuity plan under Code §403(b)(1) covering employees of Summa Health (the Company, Employer, or Plan Sponsor). The Plan excludes all employees of the Summa Management Services Organization. The Plan was originally established on January 1, 1989 and subsequently amended and restated effective January 1, 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Effective January 1, 2010, the Plan implemented the SavingsPLUS benefit design for current, active employees of Summa Barberton Hospital and Summa Wadsworth-Rittman Hospital. Newly hired employees of Summa Health beginning January 1, 2010, except Summa Akron City Hospital employees with collective bargaining benefits and physicians of Summa Physicians Inc., are eligible to participate in the elective deferral portion of the SavingsPLUS benefit design on their date of hire. In addition, on July 4, 2010, certain employees of the Company became employees of Summa Western Reserve Hospital and were no longer eligible to contribute to the Plan.

Effective July 1, 2011, the Plan transitioned certain employee groups to the SavingsPLUS benefit design from the SummaMatch benefit design.

Effective October 1, 2013, the Summa/Barberton Citizens Hospital union employees under the age of 60 are no longer able to contribute to the Summa/Barberton Citizens Hospital Bargaining Unit Retirement Savings Plan (Barberton Plan). These employees are now eligible to enroll in the Plan. Those employees age 60 and over will remain eligible to participate in the Barberton Plan.

Effective September 30, 2013, the Barberton Plan spun-off (transferred) certain participants into a newly created Summa/Barberton Retirement Savings Plan for Frozen Pension Plan Participants (the New Plan). The New Plan was terminated effective November 4, 2013 and the participant balances merged into the Plan.

Contributions

Eligible employees may contribute from 1% to 50 % of compensation (as defined) through payroll deductions on a pretax basis or post-tax basis, not to exceed Internal Revenue Service (IRS) limitations. Participants are eligible for the employer match beginning on the first of the month following one year of employment.

Summa Health 403(b) Plan

Notes to Financial Statements

The Company currently makes an employer matching contribution each pay period for active and contributing participants. For the SummaMatch benefit design, the match is equal to 50% of the first 6% of contributions made to the Plan each pay. For the SavingsPLUS benefit design, the match is equal to 100% of the first 1% of contributions made to the Plan each pay, and 50% of the next 5% of contributions made to the Plan each pay. The SavingsPLUS benefit design also includes a 1% automatic retirement contribution made after the close of the calendar year, which is provided to employees eligible to participate in this benefit design who meet the required service and hours requirements for the automatic contribution.

The Plan also provides for the investment of qualified rollover contributions.

Participant accounts

Each participant account is credited with the participant's contributions, the Company's employer matching contributions, and an allocation of Plan earnings. Allocations are based on the amount of deferral each payroll period. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their payroll deferral contributions and actual earnings thereon. Vesting in the Company's employer matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of eligible service in which the participant worked 1,000 hours or more each year.

Forfeited accounts

At December 31, 2019 and 2018, forfeited non-vested accounts totaled \$252,405 and \$83,268, respectively. Forfeitures of non-vested employer matching contributions made by the Company will first be used to pay reasonable Plan expenses. Any remaining forfeitures will be applied to reduce future employer matching contributions. During 2019 and 2018, \$252,405 and \$198,697 of forfeitures were used to offset employer contributions, respectively.

Notes receivable from participants

Loans are permitted to be made to active participants. The notes receivable supporting the loan is secured by the participant's vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant's vested account balance or \$50,000. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed ten years. Interest is charged at a reasonable rate determined by the plan administrator.

Payment of benefits

Upon death, disability, retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, installment payments, or an annuity option.

Summa Health 403(b) Plan

Notes to Financial Statements

Administrative expenses

Certain administrative expenses of the Plan are paid by the Company. All other administrative expenses are paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of presentation

The accompanying financial statements and supplemental schedule have been prepared in accordance with accounting principles generally accepted in the United State of America (GAAP).

Investment valuation and income recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a 403(b) plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through October 9, 2020, the date the financial statements were available to be issued.

Summa Health 403(b) Plan

Notes to Financial Statements

COVID-19

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the COVID-19 Outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 Outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 Outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has fluctuated in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

Coronavirus Aid, Relief, and Economic Security

On March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and intends to implement the following provisions:

- Allow special coronavirus distributions up to \$100,000
- Extend the period for loan repayments, if applicable, up to one year
- Suspend required minimum distributions for 2020

Although Plan management cannot estimate the length or gravity of the impact of the COVID-19 Outbreak at this time, if the pandemic continues, it may have an adverse effect on the Plan.

Recent accounting pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2018-13, *Fair Value Measurements Topic (820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU No. 2018-13). ASU No 2018-13 eliminates certain disclosures, including the disclosure related to transfers between Level 1 and Level 2 investments, the valuation policies for Level 3 measurements and, for nonpublic entities, the change in the Level 3 investments' unrealized gains and losses included in earnings. This ASU also amends certain disclosures, including disclosing purchases, sales and transfers for Level 3 investments instead of the Level 3 roll-forward. ASU No. 2018-13 is effective for periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact of this ASU on the Plan's financial statements.

Summa Health 403(b) Plan

Notes to Financial Statements

3. Guaranteed Investment Contracts

The Plan entered into benefit-responsive traditional guaranteed investment contracts with Principal Life Insurance and Annuity Company (Principal), Great-West Life & Annuity Insurance Company (Great-West) and VOYA Retirement Insurance & Annuity Company (VOYA) (collectively, the Insurance Companies). The Plan's custodians maintain these contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

For those guaranteed investment contracts which are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by the custodians, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional guaranteed investment contracts that are not fully benefit-responsive are presented on the statements of net assets available for benefits at fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain amendments to the Plan document, such as a complete Plan termination. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

The guaranteed investment contracts do not permit the Insurance Companies to terminate the agreement prior to the scheduled maturity date.

4. Information Certified by the Custodians (unaudited)

All investment and participant notes receivable information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant notes receivable held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, Great-West Life & Annuity Insurance Company, Voya Retirement Insurance & Annuity Company and Massachusetts Mutual Life Insurance Company, the custodians. As elected by the plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

Summa Health 403(b) Plan

Notes to Financial Statements

5. Federal Income Taxes

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code) and therefore, it is not currently eligible to receive a determination letter from the IRS. The Plan is required to operate in conformity with the Code to maintain its qualifications under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Transactions with Parties-in-Interest

The Plan invests in pooled separate accounts and guaranteed investment contracts with insurance companies sponsored by the Plan's custodians, and therefore, these transactions qualify as party-in-interest transactions. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor.

9. Fair Value Measurements

The Accounting Standards Codification Topic ASC 820, *Fair Value Measurements and Disclosure*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP. *Fair Value Measurements and Disclosure* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Summa Health 403(b) Plan

Notes to Financial Statements

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values (NAV) of such accounts which are provided by the custodians. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account, less liabilities and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the pooled separate accounts will sell the investment for an amount different than the reported NAV. The accounts allow for daily redemptions and contributions.

Summa Health 403(b) Plan

Notes to Financial Statements

Guaranteed investment contracts (not fully-benefit responsive): Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering credit-worthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Summa Health Pension Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:
