1. Description of the Plan

The following description of the Reliance Test & Technology, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide retirement and other benefits to all full-time employees of Reliance Test & Technology, LLC (the Company). The Plan is subject to the provisions of the ERISA.

On July 21, 2015, Reliance Test & Technology, LLC (RT&T) was formed as a new entity and joint venture (a limited liability company) by InDyne, Inc. (InDyne) and URS Federal Services, Inc. RT&T began operations in October 2016. Certain employees, along with their participant account balances, of InDyne were transferred to RT&T. Accordingly, the accounts of these employees under the Plan were transferred to the 401(k) retirement plan of RT&T effective October 1, 2016.

Contributions

Eligible participants may contribute up to the lessor of 50% of the compensation or up to maximum amount allowed by law. In addition, the Plan allows for catch up contributions by employees over 50 years of age and older before the end of the year. For the year ended December 31, 2018 employee rollover contributions totaled $1,900,644.

Effective January 1, 2018, the Company makes qualified non-elective contributions to certain employees as defined by the Plan. For the year ended December 31, 2018, qualified non-elective contributions totaled $383,200.

The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company's Board of Directors. The Company matched the first 100% of each employee's contribution up to 3% of each participant's compensation and 50% on the next 2% for a maximum of 4%. Both participant and employer contributions are subject to the nondiscrimination requirements of the Internal Revenue Code (the IRC). For the year ended December 31, 2018 employer contributions totaled $1,346,252.

Participant accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, and allocations of the Company's matching and profit sharing contribution, if any, and Plan earnings and losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and Company contributions plus earnings and losses thereon.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Notes are treated as a transfer to (from) the investment fund from (to) the participant loan fund. The notes are secured by the balance in each participant's account and bear interest rates ranging from 4.25% to 6.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect to receive a lump sum amount, defer payment until retirement age established by the Plan, or receive an annuity equal to his or her vested account balance. However, if the employee's vested balance is less than $5,000, he or she must receive a lump-sum distribution. In certain hardship situations, as described in the Plan, participants may withdraw all or part of their account balances while actively employed.

Forfeitures

Forfeited accounts are utilized first to reduce Plan expenses and second to reduce employer contributions. Remaining forfeitures are allocated to participants in proportion to each participant's compensation for the year. No forfeitures were used to reduce Plan expenses or to reduce employer contributions during the years ended December 31, 2018 and 2017. As of December 31, 2018 and 2017, the total balance in the forfeiture accounts was $82,647 and $28,751, respectively.

2. Summary of Significant Accounting Policies

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments are reported at fair value, including a collective trust, which holds indirect investments in fully-benefit responsive contracts.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 4 for additional information related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Recently adopted authoritative guidance

In September 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: transfers in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permissible to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact that the ASU will have on the plan financial statements.

3. Concentrations of Significant Investments

At December 31, 2018 and 2017 the Plan's significant investments are as follows:

December 31, 2018		Percent of investments
Putnam Stable Value Fund	$ 10,921,871	22.95%
T. Rowe Price Blue Chip Growth Fund	5,495,100	11.55%

Putnam Stable Value Fund	$ 10,474,237	22.33%
T. Rowe Price Blue Chip Growth Fund	5,456,759	11.63%

4. Information Certified by Great-West Trust Company, LLC

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate.

Mutual funds	$ 34,546,862	$ 34,422,665

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at the end of year).

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurements* (ASC 820), are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust: The investments include a stable value fund. The fair values of participation units held in the stable value fund are based on NAV to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts. The NAV is used as a practical expedient to estimate fair value. The stable value fund generally permits redemptions daily. If the fund experiences periods of insufficient liquidity then the stable value fund may defer honoring any payment request until liquidity is sufficient. The Plan is permitted to redeem investment units at NAV on the measurement date.

Self-directed brokerage account: Valued at the quoted net asset values at year end.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Fair Value Hierarchy Level

Investments measured at net asset value (NAV)*:

**Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

Fair Value of Investments in Entities that Use Net Asset Value (NAV)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018 and 2017, respectively.

Description	2018 Fair Value	2017 Fair Value	Redemption Frequency	Redemption Notice Period
Collective trust	$ 10,921,871	$ 10,474,237	Daily	None

6. Collective Trust

The Putnam Stable Value Fund, a collective trust fund, invests in a variety of investment contracts such as guaranteed investment contracts issued by insurance companies and other financial institutions, security-backed investment contracts, separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds. The Putnam Stable Value Fund may also invest in high-quality money market instruments or other similar short-term investments.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of complete or partial Plan termination, the trustee shall determine whether the assets of the Plan shall continue to be held in trust or be liquidated and distributed in accordance with the terms of the Plan.

9. Income Tax Status

The Internal Revenue Service (the IRS) has determined and informed the Company by a letter dated March 26, 2019, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Related Parties and Party-in-Interest Transactions

Certain Plan investments are managed by Great-West. Great-West is the current trustee and custodian as defined by the Plan and, therefore, transactions with Great-West qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 15, 2019, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
