### Note 1 – Description of Plan

The following description of the Moshay, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of plan provisions.

**General** – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Moshay, Inc. and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Moshay, Inc. (the "Company") is the Plan's sponsor and serves as plan administrator.

**Eligibility** – Employees of the Company are eligible to participate in the Plan and receive employer match contributions upon reaching age 21 and after completing six months of service. Employees are eligible to receive employer profit sharing contributions upon reaching age 21 and completing one year of service.

**Contributions**

*Participant contributions* – Each year, participants may contribute between 1–100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

*Employer match and profit sharing contributions* – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The Company matches 10% of employee contributions, up to 6% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2019.

Contributions are subject to regulatory limitations.

**Participant accounts** – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contributions and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into various investment options offered by the Plan.

**Note 1 – Description of Plan (continued)**

**Vesting** – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule:

| Years of Service | Vesting Percentage |
|---|---|
| Less than 1 | 0% |
| 1 to 2 | 20% |
| 2 to 3 | 40% |
| 3 to 4 | 60% |
| 4 to 5 | 80% |
| 5 or more | 100% |

**Notes receivable from participants** – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan Agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through weekly payroll deductions. As of December 31, 2019, the rates of interest on outstanding loans ranged from 5.25–7.50% with various maturities through August 2024.

**Payment of benefits** – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

**Forfeitures** – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used in the subsequent year, and will be used to pay plan administrative expenses or reduce future Company contributions. As of December 31, 2019 and 2018, forfeited nonvested accounts totaled $4,065 and $5,023, respectively. For the year ending December 31, 2019, Company matching contributions were reduced by $1,510 from forfeited nonvested accounts.

**Note 2 – Summary of Significant Accounting Policies**

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Investment valuation** – The investments are reported at fair value and contract value. The Plan's trustee, John Hancock Life Insurance Company, certifies the contract value of the guaranteed investment contracts and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts (FBRIC) because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Notes receivable from participants** – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

**Payment of benefits** – Benefits are recorded when paid.

**Expenses** – General plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution, and loan transaction fees are paid by the plan participants.

**Note 3 – Fair Value Measurements**

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2019 and 2018.

*Pooled separate accounts* – Units held in pooled separate accounts (PSAs) are valued using the net asset value practical expedient ("NAV practical expedient") of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

**Note 3 – Fair Value Measurements (continued)**

The Plan invests in the following significant PSAs:

*JH target date lifetime portfolios* – These portfolios seek high total return through their target retirement date, with a greater focus on income beyond the respective target dates. Under normal market conditions, the funds primarily invest their assets in underlying funds using an allocation strategy designed for investors expected to retire around the year of the target date funds. The expected year in which participants plan to retire and no longer make contributions is referred to as the target date. The portfolios are managed to provide potential growth and income opportunity even in the years after retirement. The most conservative mix occurs about 20 years after the target date when the portfolios have a 75% fixed income and 25% equity allocation. These portfolios allocate their assets among underlying funds according to an asset allocation strategy that becomes increasingly conservative over time. The portfolios' asset mixes increase their allocation to fixed income funds and reduce their allocation to stock funds as they near their target date.

*JH LS aggressive active strategy* – The portfolio seeks to achieve long-term growth of capital by investing 100% of the portfolio's assets in underlying portfolios that invest primarily in equity securities.

*JH LS growth active strategy* – The portfolio seeks long-term growth of capital with some consideration also given to current income. To pursue this goal, the portfolio, which is a fund of funds, normally invests approximately 80% of its assets in underlying funds that invest primarily in equity securities and approximately 20% in underlying funds that invest primarily in fixed-income securities. The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

*JH LS balanced active strategy* – The portfolio seeks a balance between a high level of current income and growth of capital, with a greater emphasis on growth of capital. To pursue this goal, the portfolio, which is a fund of funds, normally invests approximately 60% of its assets in underlying funds that invest primarily in equity securities and approximately 40% in underlying funds that invest primarily in fixed-income securities. The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

*JH LS moderate active strategy* – The portfolio seeks to achieve a balance between a high level of current income and growth of capital, with a greater emphasis on income by investing approximately 60% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 40% of its assets in portfolios that invest primarily in equity securities.

*JH LS conservative active strategy* – This portfolio seeks to achieve a high level of current income with some consideration given to growth of capital by investing approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 20% of its assets in underlying portfolios that invest primarily in equity securities.

**Note 3 – Fair Value Measurements (continued)**

*Fidelity advisor total bond fund* – This portfolio seeks a high level of current income. The fund normally invests at least 80% of assets in debt securities of all types and repurchase agreements for those securities. The manager uses the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment-grade, high yield, and emerging market asset classes. It invests up to 20% of assets in lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds).

*Wells Fargo core bond fund* – This portfolio seeks total return, consisting of income and capital appreciation. The fund is a gateway fund that invests substantially all of its assets in the Core Bond Portfolio, a master portfolio with a substantially identical investment objective and substantially similar investment strategies. It may invest in additional master portfolios, in other Wells Fargo Funds, or directly in a portfolio of securities. The fund invests principally in investment-grade debt securities, including U.S. Government obligations, corporate bonds, and mortgage- and asset-backed securities. As part of the fund's investment strategy, the fund may enter into mortgage dollar rolls and reverse repurchase agreements, as well as invest in U.S. dollar-denominated debt securities of foreign issuers. It may also use futures, options, or swap agreements to manage risk or to enhance return or as a substitute for purchasing the underlying security.

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

| | Fair Value 12/31/19 | Fair Value 12/31/18 | Redemption Frequency | Redemption Notice Period | Redemption Restrictions |
|---|---|---|---|---|---|
| John Hancock Pooled Separate Accounts | $ 2,896,264 | $ 2,278,508 | Daily | N/A | None |

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 4 – Guaranteed Investment Contract with John Hancock Life Insurance Company**

In 2000, the Plan entered into an FBRIC with John Hancock Life Insurance Company ("John Hancock"). John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on an annual basis for resetting. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

**Note 4 – Guaranteed Investment Contract with John Hancock Life Insurance Company (continued)**

The contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreements without the consent of the issuer.

**Note 5 – Tax Status**

The Plan Document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 6 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

**Note 7 – Information Certified by the Trustee**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.

- Net appreciation in fair value of investments, interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

- Investments reflected on the schedule of assets (held at end of year).

**Note 8 – Party-in-Interest Transactions**

Certain plan investments are managed by John Hancock. John Hancock Life Insurance Company is the trustee of the Plan and, therefore, transactions with this entity qualify as exempt party-in-interest transactions.

**Note 9 – Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

**Note 10 – Subsequent Events**

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant impact on the global economy. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

In response to the COVID-19 outbreak, the CARES Act was signed into law March 27, 2020. The CARES Act includes mandatory provisions including the delay of loan repayments of up to one year for participants who elect to do so and the waiving of minimum required distributions for 2020. It also includes optional provisions which the Plan has not elected to apply including allowing participants to take loans of up to $100,000 and 100% of their account balance from April through September 2020 and allowing participants to take a CARES Act distribution of up to $100,000 if they have experienced adverse financial impacts due to COVID-19.

The Plan has evaluated subsequent events through October 14, 2020, which is the date the financial statements were available to be issued.

**Note 11 – Delinquent Participant Contributions**

As disclosed in the accompanying supplemental schedule, certain employee deferrals related to the 2019, 2018, 2017, and 2016 plan years were not remitted to the Plan within the timeframe required by the Department of Labor. During 2019, the Company corrected the amounts related to the 2018, 2017, and 2016 plan years. The Company will determine the amount of related lost earnings for the 2019 plan year and will remit these amounts to participants' accounts subsequent to the plan year.
