1. **DESCRIPTION OF THE PLAN**

The following is a general description of The Scripps Pension Plan-Journal Publishing Company (the "Plan"). Participants should refer to the Plan document for more complete information.

General-The Plan represents the participation of the Journal Publishing Company (the "Company") in The Scripps Pension Plan, a defined benefit pension plan maintained by The E.W. Scripps Company ("Scripps"). Russell Investments Trust Company (the "Trustee") serves as the trustee of the Plan and manages the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On March 31, 2009, the Plan was amended to freeze the accrual of participants' plan benefits.

Pension Benefits-The Plan covers certain employees of the Company (principally employees not covered under a bargaining agreement). Normal retirement occurs upon attainment of age 65; however, early retirement may be elected if certain conditions are met. Vesting occurs after five years of credited service or upon normal retirement. The amount of monthly benefits is a function of participants' compensation, years of credited service, and in some circumstances, age. Retirement benefits are reduced 0.5% for each month participants are under age 65 at the time benefits commence. For participants who are considered to be early retirees (age 55 and 10 years of credited service), retirement benefits are reduced 5% for each year the participant is under age 62 at the time benefits commence. There is no post-retirement death benefit for participants retiring after December 31, 2010. Participants who became permanently and totally disabled before December 31, 2010 and after completing 15 years of credited service are entitled to accrued benefits, with no reduction for commencement prior to normal retirement age. The surviving spouses of participants may be entitled to death benefits under certain conditions. Contributions by participants are not required or permitted.

2. **SUMMARY OF ACCOUNTING POLICIES**

Basis of Accounting-The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Subsequent Events-The Plan has evaluated all subsequent events through October 14, 2020, the date the financial statements were available to be issued.

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. This contagious disease has adversely impacted workforces, economies and financial markets globally. The extent of the impact on the Plan's net assets and benefit obligations will depend on the duration and spread of the outbreak, including any further developments. While the nature of the Plan's net assets have been negatively impacted, the duration of the total magnitude cannot be reasonably estimated at this time.

Investments-The Plan's investments in commingled trust funds are presented at fair value, which has been determined based on the fair value of the underlying investments. Generally, quoted market prices are used to value the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates-The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein,

disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties-The Plan invests in commingled trust funds which have underlying investments including corporate debt instruments, mutual funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Expenses-Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Administration-Scripps is responsible for the administration of the Plan. Scripps provides the Plan with certain accounting and administrative services for which no fees are charged.

Payment of Benefits-Benefit payments to participants or their beneficiaries are recorded upon distribution.

3. FAIR VALUE INVESTMENTS

As permitted by US GAAP, the Plan uses net asset value as a practical expedient to determine the fair value of all investment funds which do not have a readily determinable fair value and have the attributes of an investment company. In accordance with US GAAP, the investments that are measured at net asset value have not been classified in the fair value hierarchy. For all years presented all investments have been valued using the net asset value.

The Plan's investments in commingled trust funds are based on the net asset value of the funds, all which have a daily redemption frequency and do not require a notice of redemption. At December 31, 2019 and 2018, the Plan had no unfunded commitments from redemption of commingled trust funds.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2019 and 2018.

5. **INFORMATION CERTIFIED BY THE TRUSTEE**

The following is a summary of the unaudited information as of and for the years ended December 31, 2019 and 2018, included in the Plan's financial statements and supplemental schedules, that was prepared by the Trustee or derived from the information prepared by the Trustee. The plan administrator has obtained certifications from the Trustee that such information prepared by the Trustee is complete and accurate.

	2019	2018
Statements of net assets available for benefits:		
Investment in commingled trust funds	$ 14,837,519	$ 13,043,838
Receivable for investments sold	84,548	77,499
Statements of changes in net assets available for benefits:		
Net appreciation (depreciation) in fair value of commingled trust funds	2,599,574	(809,986)

All investment balances and information included in the supplemental schedules.

6. **ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2019 and 2018, were:

a. Life expectancy of participants
   i. 2019- Pri-2012 generationally projected using Scale MP-2019
   ii. 2018- RP-2014 generationally projected using Scale MP-2018

b. Average retirement age - 62 years in both 2019 and 2018

c. Discount rate - 5.50% in both 2019 and 2018

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

As of December 31	**2019**	**2018**
Actuarial present value of accumulated vested benefits:		
Participants/beneficiaries currently receiving payments	$ 9,716,219	$ 9,656,138
Other participants	4,504,761	5,433,895
Total actuarial present value of accumulated vested benefits	14,220,980	15,090,033
Actuarial present value of accumulated unvested benefits- active participants	27,086	45,472
Total actuarial present value of accumulated benefits	$ 14,248,066	$ 15,135,505

For the Years Ended December 31	**2019**	**2018**
Actuarial present value of accumulated benefits- beginning of the year	$ 15,135,505	$ 15,600,357
Increases (decreases) due to:		
Changes in assumptions	(216,912)	(674,190)
Interest	805,545	772,698
Benefit payments to participants or their beneficiaries	(978,453)	(898,835)
Actuarial (gains)/losses	(497,619)	330,693
Plan amendments	—	4,782
Actuarial present value of accumulated benefits- end of year	$ 14,248,066	$ 15,135,505

7. **EXEMPT PARTY-IN-INTEREST TRANSACTIONS**

Certain investments of the Plan are shares of commingled trust funds managed by the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were approximately $56,700 and $53,500 for the years ended December 31, 2019 and 2018, respectively.

8. **FEDERAL INCOME TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated December 3, 2013, that the Plan was designed in accordance with applicable regulations of the Internal Revenue Code. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

9. **PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plans net assets to provide these benefits, the priority of benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Percent married	80% of males; 60% of females.
Spouse age	Male participants are assumed to be three years older than their spouse. Female participants are assumed to be three years younger than their spouse.
Administrative expenses	Administrative expenses are assumed to equal non-PBGC expenses paid from the trust from the prior year plus an estimate of the PBGC premiums for the current plan year that are to be paid from the trust. The amount included this year for expected administrative expenses is $158,775.
Loadings	None.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	An average value of assets is determined based on the market value as of the valuation date and the market values on the two preceding 12-month periods. Adjustments are made to the asset values for contributions, benefit payments, expenses and expected investment returns over the period between the respective preceding determination dates and the current valuation date, as applicable. Expected investment returns are equal to the expected return on assets assumed for ASC 715 calculations (4.65% for 2017, 5.10% for 2018). The rate of return used in determining the average value of assets is equal to the lesser of the expected rate and the third segment rate from the prescribed yield curve that applies to the appropriate earnings period.

SCHEDULE SB ATTACHMENTS

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with The Journal Publishing Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in Assumptions and Methods Since Prior Valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018, reflecting the interest rate corridors of MAP-21, and are updated for the extension of the corridors under HATFA and the Bipartisan Budget Act of 2015. They were further updated to reflect the funding relief provisions for community newspapers that were included in the Setting Every Community Up For Retirement Enhancement (SECURE) Act.
- The valuation reflects the updated static mortality tables provided in final regulations under IRC §430 issued in October 2017, which increased the minimum funding requirement and the funding shortfall.
- The assumed plan-related expenses added to the target normal cost were changed from $152,264 for 2018 to $158,775 for 2019. The method to determine the assumed plan-related expenses is unchanged.

There have been no changes in non-prescribed assumptions and methods since the prior valuation.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of 1/1/2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

No data adjustments were made and we are unaware of any data adjustment made by the data provider.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative expenses

Administrative expenses are assumed to equal non-PBGC expenses paid from the trust from the prior plan year plus an estimate of the PBGC premium expenses for the current plan year that are to be paid from the trust.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on anticipated turnover. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual turnover different than assumed, Journal Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed
Retirement	Retirement rates were based on anticipated retirements. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual retirements different than assumed, Journal Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
