We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. 1. Description of the Plan

The following description of the AEgis Technologies Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan with 401(k) salary deferral provisions covering all employees of AEgis Technologies Group, Inc. (the Company or Employer), except for residents of Puerto Rico, employees covered by a collective braining agreement, leased employees, and hourly employees after they have reached 21 years of age and have completed 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate on their first day of employment.

Contributions

Each year, participants may contribute up to 60% of pretax eligible compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code (IRC) through pretax contributions and after-tax Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions), as defined in the Plan's provisions. For the year ended December 31, 2019, participants contributed rollover contributions totaling $780,291. These contributions are included in participant contributions on the accompanying statement of changes in net assets available for benefits. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 6% of eligible compensation unless they elect otherwise. The automatic contributions invested in a designated balanced fund until changed by the participant. Automatic contributions are subject to annual increases until the deferral rate reaches a maximum of 10.00%, unless participants elect to change their elective deferral rate. Participants direct the investment of their contributions into various investment options offered by the Plan. Under Safe Harbor provisions, the Company is required to match 100% of each participant's contribution up to 3% of the participant's pretax annual compensation.

In addition, the Company may make discretionary contributions to the Plan as determined by the Company's Board of Directors. During the year ended December 31, 2019, the discretionary contribution was equal to 7% of the participant's regular pretax annual compensation. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's contributions including amounts rolled over from other qualified plans, and allocations of the Company's safe harbor matching and discretionary contribution, if any, and Plan earnings and losses thereon. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, and safe harbor matching employer contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service based on the elapsed time method. A participant is 100% vested after five years of credited service, as defined, or in the event of death or total and permanent disability. Vesting schedule for the Company's discretionary contributions are as follows:

Years of service	Vesting percentage
Less than 2	0%
2 years	50%
3 years	65%
4 years	80%
5 years	100%

Notes receivable from participants

Participants may borrow from their vested account balances a minimum of $1,000, up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding balance on any loan to the participant during the one-year period before the date of the new loan or 50% of their vested account balance on the date the loan is requested. Notes are secured by the vested balance in the participant's account, have a one to five year permissible term and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. During 2019, interest rates ranged from 5.25% to 7.50%.

Payment of benefits

Benefits are payable upon early retirement age of 55 and upon completion of 5 years of service or normal retirement age 65, disability, death or termination of employment. In-service withdrawals upon reaching age 59½ are also permitted, subject to provisions stipulated in the Plan document. In-service withdrawals, at any age, from a participant's rollover contributions into the Plan are permitted. Benefits are payable via lump-sum or rollover payments.

Upon termination of service, if the vested value of a participant's account is less than $1,000, his or her account will be distributed in a single lump-sum payment. If the vested value of a participant's account exceeds $1,000, he or she may elect to maintain an investment balance within the Plan, or elect to receive either a lump-sum amount or have the distribution paid in a direct rollover to another qualified plan, or a combination of the above.

Forfeited accounts

At December 31, 2019 and 2018, forfeited accounts totaled $1,120 and $27,899, respectively. Forfeited accounts are utilized to reduce Plan expenses and Employer contributions. During the year ended December 31, 2019, $403,272 of forfeited nonvested accounts were used to reduce Employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

The Plan's shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan invests in the Fidelity Stable Value Fund, a collective trust fund. The fund is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that the securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments, and the collective trust fund is a direct filing entity.

Purchases and sales of securities are recorded principally on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments on the statement of changes in net assets available for benefits.

3. Information Certified by Fidelity

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity) has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2019	2018
Mutual funds	$ 72,505,402	$ 55,151,977
Common/collective trust fund	4,034,061	4,625,287
Notes receivable from participants	264,927	308,949

Year Ended December 31,	2019
Net appreciation in fair value of investments	$ 9,491,633
Interest and dividends	5,344,944
Interest income on notes receivable from participants	17,226

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> *Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
		Fair Value Hierarchy Level		
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 72,505,402	$ 72,505,402	$ -	$ -
Total assets at fair value	72,505,402	$ 72,505,402	$ -	$ -
Total investments measured at net asset value (NAV)*	4,034,061			
Total investments at fair value	$ 76,539,463			

	Assets at Fair Value as of December 31, 2018			
		Fair Value Hierarchy Level		
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 55,151,977	$ 55,151,977	$ -	$ -
Total assets at fair value level	55,151,977	$ 55,151,977	$ -	$ -
Total investments measured at net asset value (NAV)*	4,625,287			
Total investments at fair value	$ 59,777,264			

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

5. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are held and managed by Fidelity. Fidelity is the trustee, as defined by the Plan, and, therefore, transactions involving these investments qualify as party-in-interest transactions. The Plan pays fees to Fidelity and affiliates for services. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Notes receivable from participants are also exempt party-in-interest transactions.

6. Income Tax Status

The IRS determined and informed Fidelity by a letter dated March 31, 2014, that the prototype plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of complete or partial Plan termination, participants would become 100% vested in their account balances.

9. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2019 and 2018, to the Form 5500:

December 31,	2019	2018
Net assets available for benefits per the financial statements	$ 76,804,390	$ 60,899,303
Employer contribution receivables not reported on Form 5500	-	(813,090)
Net assets available for benefits per the Form 5500	$ 76,804,390	$ 60,086,213

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2019 to the Form 5500:

Year ended December 31,		2019
Net increase per the financial statements	$	15,905,087
Prior year Employer contribution receivable		813,090
Net increase per the Form 5500	$	16,718,177

10. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements except as noted below.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant volatility in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

On March 27, 2020, the "Coronavirus Aid, Relief, and Economic Security (CARES) Act" was signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has not implemented any of the available provisions.

Plan management continues to examine the impact that the CARES Act may have on its financial position, results of operations and liquidity.
