Ali Industries, Inc. Employees Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Ali Industries, Inc. (the Company) Employees Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have attained age 18 and have three months of service. The Plan was amended and restated effective January 1, 2020, for termination of deferral suspension related to hardship distributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under this type of plan, participants may choose to reduce their compensation and have these amounts contributed to their account.

The Plan Administrator is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. Alerus Financial, N.A. (Alerus) is trustee and recordkeeper of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Contributions and rollovers: Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct 100% of the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

The employer's contribution for each plan year is discretionary. For 2019, the discretionary matching contribution was equal to 100% of the first 3% of eligible compensation that a participant contributed to the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Participant accounts: Each participant's account is credited with the participant's contributions and the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to either receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions are permitted once a participant has attained age 59½. Upon proof, to the satisfaction of the Plan Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose.

Forfeitures: At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$11,054 and \$18,644, respectively. These accounts are used to pay expenses of the Plan. Plan expenses were reduced by \$34,200 from forfeited non-vested accounts during the year ended December 31, 2019.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend income.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Contributions: Participant contributions are recognized when earned. Employer discretionary contributions are recognized on an annual basis.

Note 3. Information Certified by the Plan's Trustee

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2019 and 2018, and for the year ended December 31, 2019, was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 7 and the supplemental schedule related to the Plan's assets.

Alerus also certified to the completeness and accuracy of \$2,161,673 of net appreciation in fair value of investments and \$402,751 of interest and dividends related to the aforementioned assets for the year ended December 31, 2019.

Note 4. Party-in-Interest Transactions

Alerus is the trustee, as defined by the Plan and provides record keeping and investment advisory services to the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan to Alerus for these services amounted to \$42,592 for the year ended December 31, 2019.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6. Tax Status

The Plan operates under a prototype defined contribution plan sponsored by Alerus, which received a favorable opinion letter from the IRS on March 31, 2014, stating that the prototype Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2016.

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 7. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the closing price reporting on the active market on which the individual securities are traded.

Collective investment trust: Valued based on the net asset value (NAV) of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the trust will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2019 and 2018, segregated by level of valuation inputs within the fair value hierarchy utilized to measure fair value.

	2019			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value - mutual funds	\$ 12,839,415	\$ -	\$ -	\$ 12,839,415
Investments measured at net asset value ^(a)				878,978
Total investments, at fair value				<u>\$ 13,718,393</u>
	2018			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value - mutual funds	\$ 9,563,763	\$ -	\$ -	\$ 9,563,763
Investments measured at net asset value ^(a)				861,767
Total investments, at fair value				<u>\$ 10,425,530</u>

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended 2019 and 2018, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 7. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2019 and 2018.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Redemption Notice Period
	2019	2018				
Collective trust fund	\$ 878,978	\$ 861,767	None	Daily	None	up to 12 Months

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): *Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the FASB Concepts Statement, including the consideration of costs and benefits.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy.
2. The policy for timing of transfers between levels.

The following disclosure requirements were modified in Topic 820:

For investments in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.

The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Plan adopted this Update for the removal, modification or addition of certain fair value measurement disclosures presented in the financial statements.

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. The full impact of the coronavirus outbreak continues to evolve as of the date of this report; therefore, the extent of any adverse impact to the Plan's participants cannot be predicted at this time.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related withdrawals, relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

On September 1, 2020, Ali Industries, Inc. was acquired by Rust-Oleum via its parent company, RPM International. At the date of the acquisition, RPM International became the successor in interest to Ali Industries, Inc. and therefore, by the terms of the Plan, became the new plan sponsor. All participant account balances will be merged with the surviving plan of the new plan sponsor in 2020.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2020, the date the financial statements were available to be issued.
