OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Contributions

The Plan provides that each participant may contribute up to a maximum of 90% of their annual compensation, as defined by the Plan, representing pre-tax and/or Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

The Company may elect to make discretionary matching contributions to the Plan. Discretionary matching contributions of 50% of the first 4% of participant's contributions were made through July 30, 2019. Discretionary matching contributions of 100% of the first 3% of employee contributions plus 50% of employee contributions that exceed 3% but do not exceed 5% were made beginning August 1, 2019 through the end of the year.

The Company may also elect to make discretionary profit sharing contributions to the Plan. Participants are eligible for the profit sharing contribution if they are employed on the last day of the Plan year and must have completed a year of service. There were no discretionary profit share contributions for the year ended December 31, 2019.

Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings (losses) (including net realized and unrealized investment gains and losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Vesting Policy

Participants are always fully vested in their own contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary profit sharing contributions are based on years of continuous services listed below. Participants become fully vested upon death, disability or reaching normal retirement age.

<u>Years Of Service</u>	<u>Vesting Percentage</u>
Less than two years	0%
2	20%
3	60%
4	80%
5	100%

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one loan is allowed outstanding to a participant at any one time. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Loans bear a reasonable rate of interest determined by the Plan Administrator. Principal and interest is paid ratably through biweekly payroll deductions.

Payment Of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan Administrator will authorize the benefit payment without the participant's consent. The Plan allows in-service distributions if a participant reaches age 59-1/2 and hardship distributions subject to Plan provisions.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions and employer discretionary matching and profit sharing contributions in the investment alternatives offered by the Plan. All funds in the Plan are participant directed.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Forfeited Accounts

Participants who terminate their employment and are less than 100% vested will forfeit the nonvested portion of their account. Participant's forfeitures may be used to pay the Plan's administrative expenses or reduce Company contributions. Forfeitures used to reduce Company matching contributions were \$6,558 and forfeitures used to pay administrative expenses totaled \$1 for the year ended December 31, 2019. At December 31, 2019 and 2018, forfeited nonvested amounts totaled \$4,434 and \$4,608, respectively.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use Of Estimates In Preparation Of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pooled separate accounts and the common/collective trust are valued based on net asset value (NAV), which is used as a practical expedient to measure the fair value of those funds (not classified within the fair value hierarchy). The Board of Trustees determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Nondiscrimination Testing

The Plan failed certain non-discrimination testing for the years ended December 31, 2019 and 2018. The Plan refunded excess contributions to correct the 2018 failure and amounts payable to participants totaling \$18,059 at December 31, 2018 is recorded as a liability and a corresponding reduction to contributions. The Plan Sponsor made a corrective contribution to correct the 2019 failure and other employer contributions receivable totaling \$16,025 at December 31, 2019 has been recorded as a receivable and a corresponding increase to contributions. The Plan made the corrections prior to March 15, 2019 and 2020, respectively.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. As of December 31, 2019 and 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment Of Benefits

Benefits are recorded when paid. There were no unprocessed participant distribution requests as of December 31, 2019 or 2018.

Expenses

The Company pays significant administrative expenses incurred by the Plan. Other expenses of maintaining the Plan are paid by the Plan. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative and transaction expenses.

3. Summary Of Information Certified By The Custodian/Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the Custodian, Transamerica Financial Life Insurance Company and the Trustee, Reliance Trust Company:

	<u>2019</u>	<u>2018</u>
Investments - at fair value		
Registered investment companies	\$ 3,513,393	\$ —

Notes receivable from participants	201,019	133,201
		<u>2019</u>
Net appreciation in contract value of investments		\$ 219
Net appreciation in fair value of investments		544,070
Dividends		107,421
Other income		8
Interest income on notes receivable from participants		7,471

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
|---------|---|

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements (*Continued*)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. The registered investment companies held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Common/Collective Trust

Valued at the unit value or NAV of shares held by the Plan at year-end. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participants are generally prohibited from transferring their respective balances (in whole or in any part) in the common/collective trust directly into other Plan investment options that are considered to be competing investment options. Instead, Participants must first transfer such balances into a non-competing Plan investment option for 90 days before transferring such balances into a competing Plan investment option. The common/collective trust held by the Plan is not required to be reported in the fair value hierarchy. The common/collective trust held by the Plan files an annual report on Form 5500 as a direct filing entity and has no unfunded capital commitments.

Pooled Separate Accounts

The Plan uses NAV per unit of account as determined by Transamerica Financial Life Insurance Company to measure the fair value of its pooled separate accounts. The NAV of the pooled separate accounts are based on the market value of the underlying mutual funds or securities that are publicly available. The pooled separate accounts are not traded in the public exchange market and unit prices of the accounts are not publicly available. The NAV is used as the practical expedient to estimate fair value. There are no unfunded commitments and no participant-level restrictions on daily transfers out of any of the pooled separate accounts. Certain pooled separate accounts restrict participant-level transfers into the investment choice for a rolling 30-day period once a transfer out has been made. All of the pooled separate accounts held by the Plan file an annual report on Form 5500 as a direct filing entity.

There have been no changes in the methodologies used at December 31, 2019 or 2018.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes To Financial Statements *(Continued)*

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 3,513,393	\$ —	\$ —	\$ 3,513,393
Total Assets In The Fair Value Hierarchy	\$ 3,513,393	\$ —	\$ —	3,513,393
Investments measured at NAV*				<u>575,682</u>
Total Investments At Fair Value				<u>\$ 4,089,075</u>

* In accordance with subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statement of net assets available for benefits.

The fair value hierarchy table is not included for assets at fair value as of December 31, 2018 since all the Plan's investments are measured at fair value using the NAV per unit practical expedient, which are not classified in the fair value hierarchy.

5. Stable Value Fund

At December 31, 2018, the Plan had a fully benefit-responsive investment contract with Transamerica Financial Life Insurance Company (TA), which consisted of the Transamerica Stable Value Advantage Fund (SVF). Contract value, as reported by TA is the beginning balance plus any deposited and credited interest, less any withdrawals, charges, or expenses, a measurement that approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, although TA may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance.

OVATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

The contract value of the SVF at December 31, 2018 was \$559,819. The SVF has no underlying assets. The assets are based on the general unallocated account of TA. The Plan's ability to receive amounts due is dependent on TA's ability to meet its financial obligations. This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and on-year U.S. Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. The effective guaranteed credited interest rate is set on a semi-annual basis and announced at least 45 days in advance of the date the new rate becomes effective. On January 9, 2019, the Plan changed service providers and this fund was no longer offered to the participants.

6. Party In Interest Transactions

Currently, the Plan provides for investments, investment management, record keeping services, and administration through ADP Retirement Services and trustee services through Reliance Trust Company, parties in interest. In January 2019, the Plan moved the prior mentioned services from Transamerica Retirement Services and Levenson Actuarial Services.

7. Tax Status

The Plan utilizes a volume submitter defined contribution profit sharing plan that received a favorable opinion letter from the IRS dated July 14, 2014, which stated that the volume submitter plan, as then designed, was in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan and the related trust are tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of net assets available per the financial statements to Schedule H of Form 5500:

	<u>2019</u>	<u>2018</u>

Net assets available for benefits per Form 5500	<u>\$ 4,290,094</u>	<u>\$ 3,422,158</u>

The following is a reconciliation of net increase in net assets per the financial statements for the year ended December 31, 2019, to Form 5500:

Net increase in net assets available for benefits per the financial statements	\$ 902,020
Accrual for corrective distributions	(18,059)
Other employer contributions receivable	<u>(16,025)</u>
Net income per Form 5500	<u>\$ 867,936</u>

Corrective distributions and contributions are recorded on Schedule H of Form 5500 when paid.

9. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes to the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes To Financial Statements *(Continued)*

10. Subsequent Events

The Company entered into a contractual co-employment agreement with a professional employer organization (PEO) effective January 1, 2020. Through the PEO, the Company adopted the Advanstaff 401(k) Multiple Employer Plan for its employees. The Plan transferred its net assets into the Advanstaff 401(k) Multiple Employer Plan on April 30, 2020 and as a result, the Ovation Retirement Savings Plan ceased operations as of that date.

Management has evaluated subsequent events through the date of the Independent Auditors' Report, the date on which the financial statements were available to be issued.
