FKG OIL COMPANY
MOTOMART 401K PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Motomart 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, completed one thousand hours of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted January 1, 1997, with a restatement effective January 1, 2019.

Contributions and Vesting. Effective January 1, 2019, the Plan became a safe harbor 401(k) Plan. The effect caused employer contributions to significantly increase on the Statement of Changes in Net Assets Available for Benefits.

Participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as an elective deferral. There are two types of deferrals: pre-tax deferrals and Roth deferrals. The participant may elect to defer not less than 1% of their payroll period compensation. The Company will make a matching contribution equal to 100% of each participant's elective deferrals not exceeding 3% of the participant's compensation, plus 50% of each participant's elective deferrals in excess of 3% but not in excess of 5% of the participant's compensation. Participant's total deferrals in any taxable year may not exceed the dollar limit set by the Internal Revenue Code (IRC). The IRC contribution limit was $19,000 and $18,500 for the years ended December 31, 2019 and 2018, respectively. The catch-up contribution for Plan participants who were 50 years of age or older was $6,000 for both 2019 and 2018.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Benefits. On termination of service due to death, disability, retirement or any other reason, a participant will receive a lump-sum amount equal to the value of their vested account. In-service distributions are permitted for participants who are at least 59 ½ years old.

Investments The Plan currently offers various mutual funds and an insurance group annuity contract (Key Guaranteed Portfolio Fund) as investment options for participants. Participants may change their investment elections at any time as defined by the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and, (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Upon enrollment in the Plan, a participant may direct employee and employer contributions in directed increments in any of the investment options provided by the custodian of the Plan's assets, Great-West Trust Company, LLC.

Notes Receivables from Participants. Participants may borrow from their fund accounts as provided by the Plan document. Interest rates on outstanding loans as of December 31, 2019 ranged from 4.25% to 9.25%; principal and interest are required to be repaid within five years through payroll deductions, unless otherwise stipulated by the Plan.

Forfeited Accounts. December 31, 2019 and 2018 forfeitures were $489 and $1,775, respectively. Forfeited accounts, if any, are used to reduce future Company contributions and Plan expenses.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants
Notes Receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation
Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income Recognition
Purchases, sales, and dividends are recorded on the Plan's records when recorded by the registered investment company and/or common/collective trusts. Purchase and sale of securities are reflected on a trade-date basis. The difference between the cost and market value from one period to the next is recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Fully Benefit-Responsive Investment Contract
The Plan reports its direct and indirect interests in fully benefit-responsive investment contracts at fair value in the investments caption of the statements of net assets available for benefits. In addition, any material difference between the fair value of these investments and their contract value is presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts.

Management has determined that the estimated fair value of the Plan's investment contract with Great West Life & Annuity Insurance Company as of December 31, 2019 and 2018 approximates contract value. Accordingly, the statement of net assets available for benefits reflect no adjustment for the difference between net assets at fair value and net assets available for benefits.

Payment of Benefits
Benefits are recorded when paid.

Administrative Costs
The Plan pays all administrative costs.

Date of Management's Review
Subsequent events were evaluated through October 15, 2020, which is the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

New Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement, (ASU 2018-13)," which amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Upon issuance of ASU 2018-13, early adoption is permitted for the entire standard or only for the requirements that eliminate or modify disclosures. Certain requirements of the standard should be applied prospectively, while others are required to be adopted retrospectively. Adoption of ASU 2018-13 will not have a material impact on the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Collective Investment Trusts: Valued at the net asset value (NAV) of shares held within the trust by the plan.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total

During the years ended December 31, 2019 and 2018, there were transfers between Level 1 and Level 2 as participants directed their investments among investment alternatives.

NOTE 4 - INVESTMENTS

The following table presents investments at fair value as determined by quoted market prices (level 1) as of December 31, 2019 and 2018. Investments that represent five percent or more of the Plan’s net position are separately identified:

Total Mutual Funds	$ 14,121,839	$ 11,064,854

NOTE 5 – INVESTMENT CONTRACT WITH GREAT-WEST LIFE & ANNUITY INSURANCE COMPANY

The Plan has a fully benefit-responsive group annuity contract with Great-West Life & Annuity Insurance Company, which is called the Key Guaranteed Portfolio Fund (KGPF). The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The participant principal and interest are fully guaranteed by the entire general account assets of Great-West Life & Annuity Insurance Company. The group annuity contract is included in the financial statements at fair value which approximates contract value.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The insurance company may not terminate the contract at any amount less than the contract value.

The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

Average yields:	2019	2018
Based on annualized earnings	1.20%	1.10%
Based on interest rate credited to participants	1.20%	1.10%

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are entitled to their vested account balances. In the event the Plan is terminated because the Company ceases to operate, participants not 100 percent vested become 100 percent vested.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan administrator believes the Plan is no longer subject to income tax examinations prior to 2013.

Furthermore, the plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – ACCOUNT BALANCES OF RETIRED AND SEPERATED EMPLOYEES

Net assets available for benefits at December 31, 2019 include $493,987 allocated to the accounts of persons who as of or prior to that date have elected to withdraw from the plan but have not been paid.

NOTE 12 – PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Great-West Life & Annuity Insurance Company. Both Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (trustees) are part of the Great West Retirement Services family, and therefore these transactions qualify as party-in-interest transactions.

The participant loans and Key Guaranteed Portfolio Fund (fully benefit-responsive group annuity contract) are considered party-in-interest transactions, which are exempt from the prohibited transaction rules.
