The following description of the Synexus Clinical Research US, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan adoption agreement for a more complete description of the Plan's provisions. Effective October 1, 2018, the Plan was amended to change the name to Synexus Clinical Research US, Inc. 401(k) Plan from Clinical Research Advantage, Inc. 401(k) Plan.

General:

The Plan is a defined contribution savings plan established for the benefit of substantially all employees of Synexus Clinical Research US, Inc. ("Company"). Effective October 1, 2018, due to internal restructuring, the Company's name was changed from Clinical Research Advantage, Inc. to Synexus Clinical Research US, Inc. The Company is the Sponsor and Administrator of the Plan. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On October 28, 2013, the Clinical Research Advantage, Inc. Board of Directors approved the merger of the Radiant Research, Inc. 401(k) Plan into this Plan effective January 1, 2014. The Plan name was changed from Clinical Research Advantage Holdings, LLC 401(k) Plan to Clinical Research Advantage, Inc. 401(k) Plan.

Effective October 15, 2014, Heartland Health Therapy, Inc. and the Company terminated their affiliation. There was no requirement that the Heartland Health Therapy, Inc. balances needed to be transferred out. As such movement out by Heartland Health Therapy, Inc. will only be done at the request of the former employee and through normal distribution procedures.

During the year ended December 31, 2017, the Clinical Research Advantage, Inc. Board of Directors approved the acquisition of the Synexus U.S. L.P. ("Synexus") with the Company. Synexus' 401k plan was administered through a professional employer organization, Staff One Inc. 401(k) Plan. Effective July 1, 2017, Synexus employees became participants of the Plan. On November 28, 2017, assets totaling approximately \$544,000 were transferred from the Staff One Inc. 401(k) Plan. Employees of Synexus had the service and age requirement waived in determining eligibility. In addition, employees were credited with service from employment at Synexus.

During the year ended December 31, 2017, the Clinical Research Advantage, Inc. Board of Directors approved the acquisition of Optimal Research, LLC ("Optimal"), a subsidiary of Accelovance, Inc., with the Company. Optimal employees were participants of the Accelovance Inc. 401(k) Plan. Effective September 1, 2017, the Plan was amended to include employees of Optimal. The Accelovance Inc. 401(k) Plan did not terminate and, as a result, Optimal participants of the Accelovance Inc. 401(k) Plan have the option, at their request, of transferring their assets into the Plan through normal rollover procedures. Employees of Optimal had the service and age requirement waived in determining eligibility. In addition, employees were credited with service from employment at Optimal.

In addition, any employee of Synexus Clinical Research, Inc., formerly, Clinical Research Advantage, Inc., as of December 31, 2019, except participants who were employees of Optimal that were retained upon acquisition on September 1, 2017, who has completed a year of service may receive a discretionary employer profit sharing contribution in addition to the discretionary matching contribution for the year, subject to the Plan Sponsor's election.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

The Company may also elect to make a discretionary profit-sharing contribution to be allocated to active participants who meet the service requirement and are still employed at the end of the Plan year. No such election was made for the year ended December 31, 2019.

Participants may rollover amounts representing distributions from other qualified defined benefit or contribution plans.

All contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary contributions, if applicable, and Plan earnings (net administrative expenses). Plan earnings are allocated based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options:

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time.

Vesting:

Participants are immediately vested in their salary deferral contributions, rollovers, previous Company safe harbor matching and matching contributions plus actual earnings. The portion of the participants' accounts attributable to Synexus Clinical Research US, Inc.'s discretionary contributions, plus the actual earnings become 20% vested after one year of credited service, as defined by the Plan, and continues to vest at the rate of 20% for each successive year of service until 100% vested after five years of service.

Forfeitures:

Non-vested account balances are forfeited by the Plan participant upon termination, as defined in the Plan. In addition, forfeited accounts shall be used first to pay Plan expenses and then to reduce the Company's contributions. As of December 31, 2019 and 2018, the balance of forfeited non-vested accounts totaled \$21,578 and \$18,492, respectively. During the year ended December 31, 2019, the value of forfeited non-vested accounts used to pay Plan expenses or reduce the Company's contributions was \$14,669. Participants who become re-employed by the Company and fulfill certain requirements, as defined in the Plan, shall become eligible to have a previously forfeited account balance reinstated.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Notes receivable from participants:

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25% - 6.50%, which is commensurate with local prevailing rates. Loan terms are up to five years, or thirty years if used to purchase a principal residence. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, upon attaining age 59 ½ and still employed, or termination of employment, as defined in the Plan agreement. A participant may elect to receive an amount equal to the value of the participant's vested account balance in a lump-sum payment or annuity payments. If the total benefit is \$1,000 or less and the participant does not make an election, the entire amount may be paid in a lump-sum distribution at the discretion of the Plan Administrator. If the total benefit is between \$1,000 and \$5,000 and the participant does not make an election, the entire amount may be automatically rolled into an individual retirement account at the discretion of the Plan Administrator. In addition, participants may elect to receive benefits in the event of financial hardship.

Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its discretionary contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their entire account.

SYNEXUS CLINICAL RESEARCH US, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies and Use of Estimates

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment valuation and income recognition:

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan investments are not insured by FDIC or similar coverage.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

SYNEXUS CLINICAL RESEARCH US, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies and Use of Estimates (Continued)

Administrative expenses:

Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events:

The Plan Administrator has evaluated subsequent events through October 13, 2020, the date the financial statements were available to be issued. See Note 9 for subsequent events noted.

Note 3. Recent Authoritative Guidance

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, which amends certain disclosure requirements of ASC 820. ASU 2018-13 removed the requirement to disclose the amount of and reasons for transfers between level 1 and level 2 of the fair value hierarchy as well as the policy for timing of transfers between levels. The ASU also modified the disclosure for investments in certain entities that calculate net asset value (“NAV”) to disclose the timing of liquidation of an investee’s assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the Plan or announced the timing publicly. It also clarified the measurement uncertainty disclosure to communicate information about the uncertainty in measurement as of the reporting date. The guidance is effective for fiscal years beginning after December 15, 2019. Plan management is currently evaluating the impact of this ASU on the financial statements but does not expect the adoption to have a material impact.

SYNEXUS CLINICAL RESEARCH US, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4. Information Certified and Provided by the Trustee

The financial statements and supplemental schedule include a summary of the Plan's asset information, that was prepared by or derived from information provided by the trustee, Reliance Trust Company, as of and for the year ended December 31, 2019 and 2018, and furnished to the Plan Administrator. Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the assets.

Reliance Trust Company also certified to the completeness and accuracy of \$2,833,058 of net appreciation in fair value of investments and \$1,040,172 of dividends for the year ended December 31, 2019.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs that are unobservable inputs for the asset or liability.

SYNEXUS CLINICAL RESEARCH US, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts (stable value fund): The investment in the Wells Fargo Stable Value Fund C, which is solely invested in the Wells Fargo Stable Return Fund G, is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value ("NAV") of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require sufficient notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The stable value fund does not invest directly in fully benefit-responsive contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies (mutual funds)	\$ 18,164,552	\$ -	\$ -	\$ 18,164,552
Investments measured at net asset value ^(a)	-	-	-	1,111,725
Total investments	<u>\$ 18,165,552</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 19,276,277</u>

SYNEXUS CLINICAL RESEARCH US, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Registered investment companies (mutual funds)	\$ 16,126,342	\$ -	\$ -	\$ 16,126,342
Total investments	<u>\$ 16,126,342</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 16,126,342</u>

(a) In accordance with FASB Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Transfers between levels

For years ended December 31, 2019, and 2018, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments measured using the net asset value per share practical expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2019	Fair Value	Unfunded Commitment	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common/collective trusts:

NOTES TO FINANCIAL STATEMENTS

Note 6. Tax Status

Effective January 1, 2002 and most recently amended on October 1, 2018, the Plan adopted a prototype plan sponsored by Automatic Data Processing (“ADP”). The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management evaluated tax positions taken by the Plan and concluded that as of December 31, 2019 and 2018, there were no uncertain tax positions that require adjustment to or disclosure in the financial statements.

Note 7. Voluntary Compliance

During the year ended December 31, 2019, the Company identified certain operational defects and Plan compliance matters related to employer matching contributions for the year ended December 31, 2018. The Company intends to correct by utilizing the self-correction program offered by the DOL and the Internal Revenue Service, as applicable. The Company will follow the process for correcting specific violations including calculating and restoring any losses and profits with interest and distributing any supplemental benefits to participants. The Company estimates the receivable arising from the violations is approximately \$4,800 and is included in employer contribution receivable on the accompanying statements of net assets available for benefits.

Subsequent to the year ended December 31, 2019, the Company identified certain operational defects and Plan compliance matters related to employer matching contributions for the year ended December 31, 2019. The Company intends to correct by utilizing the self-correction program offered by the DOL and the Internal Revenue Service, as applicable. The Company will follow the process for correcting specific violations including calculating and restoring any losses and profits with interest and distributing any supplemental benefits to participants. There may be a receivable or payable arising from the Company's responsibility to correct the violations; however, the Plan Administrator does not believe the amount will have a material effect on the financial statements. If the Company does not correct the operational defects and compliance matters, the Plan's tax-exempt status would be in jeopardy.

NOTES TO FINANCIAL STATEMENTS

Note 9. Subsequent Events

Effective January 1, 2020, the Plan amended its match provisions, whereas the match will be contributed on a per-pay-period basis rather than an annual basis.

The outbreak of the novel coronavirus (“COVID-19”) has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of COVID-19. Nevertheless, COVID-19 presents material uncertainty to the Plan, its performance, and its financial results.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act was passed by Congress. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document. Plan management has adopted the CARES Act distribution provision which allows a withdrawal of up to \$100,000 (or full account balance if less than \$100,000) from the account without the 10% penalty on withdrawals prior to reaching age 59 ½.
