1. DESCRIPTION OF PLAN

The following description of the F & H Contractors 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all eligible nonunion employees of F & H Electrical Contractors, Inc. (the "Company" or "Employer") who are eligible to become participants in the Plan on the earlier of January 1 or July 1 after completion of one year of service and attaining age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and various provisions of the Internal Revenue Code ("IRC").

Effective October 1, 2019, the Plan was amended and restated and participants can enter the Plan on the earlier of January 1, April 1, July 1, or October 1 after completion of 3 months of consecutive employment where at least 250 hours were completed. In addition, the employee is eligible to enter the Plan after attaining age 18.

Participants Contributions

Under the Plan, eligible participants may elect to contribute a portion of their annual compensation for the year, up to the dollar limitation under IRC Section 402(g). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("rollover contributions"). Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions within the limits set by the Plan and IRC. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their contribution allocations periodically and transfer amounts between funds at any time. Effective October 1, 2019, the participants may change their contribution allocations on the first day of each Plan year quarter.

Employer Contributions

The Employer may make discretionary matching contributions equal to a percentage of participant's elective deferral to be determined by the Company. For the year ended December 31, 2019, the Company elected to make a discretionary matching contributions equal to 6% of compensation.

Participant Accounts

Individual accounts are established for each participant. Each participant's account is credited with the participant's contributions, rollover contributions, the Employer's matching contribution, and Plan earnings. Allocations for Plan earnings are based on account balances and the investment options chosen by participants. The participant's account is reduced by withdrawals, losses on investments, administrative expenses and any forfeitures. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their elective contributions and rollover contributions plus actual earnings thereon at all times and become 100% vested in Employer contributions upon normal retirement age, disability, or death. Upon termination for any other reason, participants are entitled to a portion of Employer contributions in accordance with the following vesting schedule:

Years of Service (as defined)	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable From Participants

Participants may obtain loans based upon their vested account balances, subject to certain conditions. The minimum note permitted is $1,000 and the maximum is the lesser of 50% of the participant's vested account balance or $50,000. The notes are secured by the balance in the participant's account and bear interest, at a reasonable rate, as determined by the Plan's trustees, and interest rates ranged from 4.25% to 6.50% as of December 31, 2019. Principal and interest are paid ratably through weekly payroll deductions. A participant may only have one outstanding note at any given time.

Payment of Benefits

Upon termination of service, retirement, disability, or death, participants or their beneficiaries can elect a lump sum, substantially equal payments, or partial withdrawals and distributions may be made in cash, insurance contracts, or annuity contracts. In the event that the participant's vested accrued benefit is less than $5,000, the Plan administrator may make a distribution without the election or request of a terminated participant. The Plan requires that such distributions of amounts less than $5,000 but greater than $1,000 be rolled over to an individual retirement account unless the participant elects to receive the distribution directly.

Participants may also withdraw all or any part of their vested account balance after attaining age 59½ or for hardship. Certain requirements for financial hardship withdrawals are mandated by federal guidelines.

Forfeited Accounts

The Plan allocates nonvested or forfeited amounts to reduce employer contributions and/or pay administrative expenses. Forfeitures of Employer contributions during the Plan year ended December 31, 2019, totaled $12,204 and $12,263 was used to reduce employer contributions. Forfeiture balance at December 31, 2019 and 2019 were insignificant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and the custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends, if any, are recorded on the ex-dividend date. The net change in the fair value of investments during the Plan year is included in the statement of changes in net assets available for benefits. Net appreciation or depreciation in the fair value of investments consists of the net realized gains or losses on investments sold and the net unrealized gains or losses on investments held.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Payment of Benefits
Benefits are recorded when paid.

Recently Adopted Accounting Pronouncement
In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which includes amendments intended to improve the effectiveness of disclosure requirements for recurring and nonrecurring fair value measurements. The standard removes, modifies and adds certain disclosure requirements and affects companies that are required to include fair value measurement disclosures. The amendments in this update are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption for amendments that remove or modify disclosures are permitted and the Plan has early adopted these amendments.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value.

Pooled Separate Accounts: Variable annuities in pooled separate accounts are valued based on the number of units held at the valuation date. Each unit held is valued based on the net asset value ("NAV") of the underlying investments less any taxes and fees imposed in accordance with the group annuity contract. The fair value of these investments in the pooled separate accounts is measured using the NAV practical expedient and, in accordance with GAAP, they are not required to be categorized within the fair value hierarchy.

Common Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the CCT, the investment advisor reserves the right to temporary delay withdrawal from the trust to ensure that securities liquidations will be carried out in an orderly business manner. The fair value of the CCT is measured using the NAV practical expedient, and in accordance with GAAP, it is not required to be categorized within the fair value hierarchy.

Mutual Funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31,		Unfunded	Redemption	Redemption
	2019	2018	Commitment	Frequency	Notice Period
Pooled separate accounts	$ 3,631,690	$ 2,408,578	N/A	Immediate	None
Common collective trust	$ 95,651	$ -	N/A	Immediate	None

The investments at fair value, excluding the common collective trust, at December 31, 2019, are comprised of mutual funds which are considered Level 1 investments in the fair value hierarchy.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

At December 31, 2018, the Plan was invested in a stable value fund which includes a general investment contract determined to be fully benefit-responsive with Transamerica and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans, or transfers to other investment choices within the Plan. Contract value represents contributions made under each contract plus earnings less participant's withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Repayment of principal and interest credited to the participants was a financial obligation of Transamerica. During 2019, participants elected to transfer all funds to other investment choices within the Plan.

The effective annual rate of interest is established for the corresponding six-month period. Interest was credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There was no stated minimum or maximum interest rate of the stable value option investment choice.

5. INVESTMENTS AND INFORMATION PROVIDED AND CERTIFIED BY THE CURRENT TRUSTEE AND FORMER CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Mid Atlantic Trust Company ("MATC") and Transamerica Life Insurance Company ("TLIC"), the current trustee and former custodian of the Plan have certified the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the statement of changes in net assets available for benefits for the year ended December 31, 2019, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019. Notes receivable from participants was certified as complete and accurate for the year ended December 31, 2018.

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the custodians, except for comparing such information with the related information included in the financial statements and supplemental schedule.

The following information as of and for the years ended December 31, was prepared from reports certified by the current trustee and former custodian:

	2019	2018
Pooled separate accounts	$ 3,631,690	$ 2,408,578
Stable value account	-	374,764
Common collective trust	95,651	-
Notes receivable from participants	-	89,611
Non-interest bearing cash	2,012	-
	$ 3,729,353	$ 2,872,953

Net appreciation in fair value of investments	$ 613,717
Interest and dividends	18,860
	$ 632,577

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments and notes receivable from participants are managed by Mid Atlantic Trust Company ("MATC") and Transamerica Life Insurance Company ("TLIC"). MATC and TLIC are/were current trustee and former custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions Fees paid by the Plan for the investment management services amounted to $13,903 for the year ended December 31, 2019, which is included in administrative expenses.

7. PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. INCOME TAX STATUS

On October 1, 2019, the Company adopted a volume submitter plan which has received an advisory letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the advisory letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Furthermore, there are no tax related interest or penalties for periods presented in these financial statements.

9. RISKS AND UNCERTAINTIES

The Plan provides participants with various investment options. All investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2019 and 2018 and for the year ended December 31, 2019 to Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 3,867,607	$ 2,868,478
Excess contributions payable	(294)	$ -
Prior year excess contributions payable	-	4,475
Net assets available for benefits per the Form 5500	$ 3,867,313	$ 2,872,953

Increase in net assets available for benefits per the financial statements	$ 999,129
Excess contributions payable	(294)
Prior year excess contributions payable	(4,475)
Net income per the Form 5500	$ 994,360

11. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events occurring after the statements of net assets available for benefits date through October 9, 2020, the date which the financial statements were available to be issued. Based upon this evaluation, the Plan has determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.
