Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Ambit Energy 401(k) Retirement Plan, which comprise the statement of net assets available for benefits as of December 31, 2019 (in liquidation) and 2018 (ongoing), and the related statement of changes in net assets (in liquidation) available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Financial Group, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2019, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

As discussed in Note 1 to the financial statements, the governing body of Ambit Energy 401(k) Retirement Plan approved a plan of liquidation on December 16, 2019, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2018 financial statements to the liquidation basis used in presenting the 2019 financial statements. Our opinion is not modified with respect to this matter.

Report on Supplemental Schedule

The supplemental schedule of assets (held at end of year) as of December 31, 2019, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

1. Description of Plan

The following description of the Ambit Energy 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective December 31, 2019, the Plan was frozen. Prior to December 31, 2019, all employees of Ambit Energy (Sponsor) who were age 18 or older and had completed 60 days of service were eligible to participate in the Plan.

Effective November 1, 2019, the Sponsor was acquired by Vistra Energy Corp. On December 16, 2019, the governing body of the Sponsor elected to terminate the Plan effective February 1, 2020. The Sponsor is working with the trustee to transfer the assets out of the Plan.

Contributions Prior to Plan Freeze

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, collective investment funds, and a pooled separate account as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 3% unless they affirmatively elect not to participate in the Plan. The Plan also includes an auto-escalation feature which automatically increases deferral percentages on or after January 1 of each year by 1% up to 8%.

The Sponsor provides a matching contribution equal to 100% of each participant's deferrals up to 3% and 50% of deferrals between 4% and 5% of a participant's annual eligible compensation. Participants may allocate their portion of the Sponsor's contributions among any of the Plan investment options. The Sponsor may also make qualified non-elective contributions to participants who meet certain eligibility requirements. The qualified non-elective contributions are allocated on the last day of the plan year to active, non-highly compensated participants. The allocation method is based on participant compensation to total compensation. No non-elective contributions were made in 2019. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2019 and 2018

1. Description of Plan, Continued

Participant Accounts

Each participant's account is credited with the participant's contributions, the Sponsor's matching contributions, and participant earnings. Administrative expenses and the Sponsor's qualified non-elective contributions are allocated to each participant's account. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Sponsor contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate similar to rates currently charged by commercial lenders for similar loans. Principal and interest is paid by participants in equal payments no less frequently than quarterly.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will be paid their entire account balance if it is less than \$1,000. If the participant's account balance is greater than \$5,000, then the entire account balance will be rolled into an IRA. In-service distributions may be made to a participant, who has not separated from service, provided the participant has attained age 59½. Participants may also make withdrawals under certain "hardship" conditions, as defined by Plan provisions and subject to the 10% early withdrawal penalty required by the IRS.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting as of December 31, 2019, and on the accrual basis of accounting as of December 31, 2018.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2019, contract value represents the amount expected to be collected for the contract.

AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2019 and 2018

2. Summary of Accounting Policies, Continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and certain other expenses are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2019 and 2018

2. Summary of Accounting Policies, Continued

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

In March 2020, the World Health Organization (“WHO”) categorized the novel coronavirus (COVID-19) as a pandemic, triggering volatility in financial markets and significant economic uncertainties. This volatility and related uncertainties could have a material impact on the amounts reported in the statements of net assets available for benefits, changes in net assets available for benefits and the accumulated plan benefits. The duration of these uncertainties and the ultimate financial effects are unknown at this time. Plan management does not believe there is a substantial doubt about the Plan’s ability to continue as a going concern.

3. Information Certified by Trustee

For 2019 and 2018, the Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan administrator instructed the Plan’s independent auditors not to perform any auditing procedures with respect to the amounts for investments and notes receivable from participants and transactions in those assets certified by Principal Financial Group (Principal) in 2019 and 2018, except for comparing such information certified as complete and accurate by the trustee, to information included in the Plan’s financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued

AMBIT ENERGY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2019 and 2018

4. Fair Value Measurements, Continued

- *Level 2:* Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Investments also include money market funds that are valued at NAV based on observable activity.
- *Pooled separate account:* The underlying mutual funds held in the separate account are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held in the separate account are deemed to be actively traded. The pooled separate account is not publicly quoted and the NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.
- *Collective investment funds:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

4. Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2019 and 2018:

<u>Assets at Fair Value as of December 31, 2019</u>

5. Guaranteed Interest Contract

The Plan participates in a fully benefit-responsive group annuity contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal is contractually obligated to repay the principal and accumulated interest.

Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2019, contract value represents the amount expected to be collected for the contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.75%. The crediting rate is reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation.

During 2019, the governing body of the Sponsor approved to terminate the Plan; however, as of December 31, 2019, the contract has not been terminated.

6. Related-Party Transactions and Party-In-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third-party administrator of approximately \$178,823, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan's trustee by a letter dated August 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated and amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the relevant taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to possible examination by the taxing authorities. For federal income tax purposes, the tax returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
