NOTE A – DESCRIPTION OF PLAN

The following description of the Canyon Ranch 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan formed to encourage and assist employees of Canyon Ranch and its related companies in regularly saving for their retirement through payroll reductions and matching contributions made by the Company. Eligible employees of CR Las Vegas, LLC, and CR Employment, Inc. are covered by the Plan and these employers are collectively considered the "Company." Effective January 1, 2015, the Plan was amended and CR Employment, Inc. became the Plan sponsor and primary employer.

Eligibility

Employees must complete one year with 1,000 hours of service and have attained age twenty-one to participate in salary deferral, qualified non-elective contributions, and discretionary employer contributions. Upon satisfying these requirements, employees can enroll in the Plan on the first day of each month following satisfaction of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code (the "Code" or "IRC").

Contributions

Participants may contribute to the Plan through payroll deductions of not more than 80% of their annual wages, including commissions and certain bonuses, generally limited to $19,000 in 2019, which may be contributed on a pre-income tax or after-tax basis. Participants who are ages 50 or older may contribute up to an additional $6,000 in 2019. Newly eligible employees who do not have a deferral election on file are subject to an automatic initial pretax deferral of 3% upon their entry date.

The Plan provides for participant-directed investment elections among different types of investment funds and participants may change their investment elections by communicating directly with the Plan's third-party administrator. Contributions determined to be excessive in accordance with the discrimination rules of the Internal Revenue Service regulations are refunded annually.

For each Plan year, the Company may make a discretionary matching and/or profit-sharing contribution to the Plan. The Company has the right under the Plan to discontinue its contributions at any time. For the years ended December 31, 2019 and 2018, the Company made discretionary matching contributions on behalf of the participants of $611,181 and $571,669, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and the Plan earnings. Allocations of participant earnings are based upon participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, subject to the vesting limitations.

Vesting

Employees are immediately vested in their voluntary contributions and any earnings on their contributions. Vesting in the remainder of their account balances is based on years of service. An employee is vested in employer discretionary contributions at the rate of 20% after two years of service, 40% after three years, 60% after four years, 80% after five years and is fully vested after six years of service. Upon retirement, disability or death, an employee is 100% vested in his or her entire account.

NOTE A – DESCRIPTION OF PLAN *(continued)*

Payment of Benefits

Upon termination of service, participants may elect to receive a lump-sum amount or installment payments equal to the value of their vested account balance, they may request their vested account balance be rolled over into an IRA or qualified plan, or they may defer receipt of distribution until retirement as long as the participants' vested balance exceeds $5,000. Benefits are distributable without penalty upon death, disability, or retirement at age 65 and are subject to certain minimum distribution rules upon reaching age 70 ½. The Plan also provides for hardship withdrawals during employment for specific heavy financial needs as defined in the Plan. A hardship withdrawal must come from a participant's vested account balance, must be for an amount greater than $500, and the participant may not contribute to the Plan for six months following the date of a hardship withdrawal. Effective for the 2019 Plan year, the Plan was amended to remove the six-month contribution suspension requirement for hardship withdrawals taken after the effective date.

Notes Receivable from Participants

The Plan is permitted to make loans to participants. Each loan must be made for at least $1,000 but not to exceed $50,000 or 50% of the participant's vested account balance at the date the loan is granted. Loans bear interest at prevailing rates, and are generally required to be repaid within five years. Initial loan set up is subject to a $75 fee and each loan outstanding is subject to a $25 annual fee. A loan is considered to be in default if amounts due remain outstanding at the end of the quarter following the quarter the amounts became due. Loans predating amended Plan provisions may maintain the original loan terms that were in place at origination.

During 2019, the Plan was amended to allow for loans that qualify under the Disaster Tax Relief and Airport and Airways Extension Act of 2017, the Tax Cuts and Jobs Act of 2017 and the Bipartisan Budget Act of 2018 (the "Acts"). Loans qualifying under the Acts may be taken for amounts as high as the lesser of $100,000 or 100% of the participant's account balance and can be repaid over six years.

Administrative Expenses

Certain administrative expenses of the Plan are paid from Plan assets. Certain other administrative expenses are paid by the Company and certain administrative services for the Plan are provided by the Company at no charge.

Forfeitures

Forfeitures are the non-vested portion of participant account balances for terminated participants. These funds, which have been retained by the Plan, are available to pay administrative expenses and reduce future contributions of the Company. The forfeiture balance available to offset future employer contributions was $46,188 and $14,938 at December 31, 2019 and 2018, respectively. The Company used $424 and $6,969 forfeited amounts during 2019 and 2018, respectively, to reduce administrative expenses.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the Plan in the preparation of its financial statements are as follows.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting. Receivables and liabilities, are accrued in accordance with the American Institute of Certified Public Accountants Audit and Accounting Guide, *Audits of Employee Benefit Plans*.

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Investment expenses are recorded as a reduction in investment earnings.

The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting principles generally accepted in the United States of America ("GAAP") establish the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment Valuation and Income Recognition *(continued)*

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments for which fair value is measured using net asset value per share as a practical expedient have not been categorized within the fair value hierarchy.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Loan fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded upon the occurrence of a distributable event.

Benefits

Benefits are recorded when approved for distribution, which generally coincides with the time of payment.

Income Tax Status

The Plan participates in a defined contribution prototype plan and trust offered by Fidelity Management Trust Company (the "Trustee"), which is intended to meet the requirements of the Internal Revenue Code as a qualified Prototype Retirement Plan and Trust/Custodial Account. The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended by the Company, the Plan Administrator and Company management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in these financial statements. Subsequent to year end, the Plan obtained a new determination letter dated June 30, 2020.

Accounting principles generally accepted in the United States of America clarify the accounting for uncertainty in income taxes by creating a framework to recognize, measure, present, and disclose in financial statements uncertain tax positions that have been taken or expect to be taken in a tax return. The Plan Administrator and Company management believe that there are no uncertain tax positions for which it is reasonably possible that reported total amounts could significantly differ from amounts that may be determined upon examination by taxing authorities. In general, the Plan's federal and state tax returns remain subject to examination by taxing authorities for three years, unless specific conditions are met, from the filing date. Accordingly, the Form 5500 for the period ending December 31, 2015 is no longer subject to examination.

NOTE C – FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common collective trust: Valued based on the contractual terms of the underlying Guaranteed Investment Contracts ("GICs") rate of return and liquidity. Reported at net asset value as a practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's mutual funds are all Level 1 investments within the fair value hierarchy as of December 31, 2019 and 2018.

NOTE D – COMMON COLLECTIVE TRUST

The Plan has participant-directed investments held in a common collective trust (e.g., stable value fund) that contains investment contracts that carry a benefit-responsiveness feature that allows Plan participants to make exchanges or request benefit payments at contract value. A stable value fund contains a pool of fixed income securities (e.g., government securities, mortgage-backed securities, etc.). These securities are wrapped by a synthetic investment contract issued by a bank or insurance company that ensures participant-initiated withdrawals from the stable value fund will be paid at book value. Participant transactions may occur daily. If the Plan initiates a full redemption, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There is no immediate recognition of gains and losses on the pool of securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the synthetic wrap. The contract's rate of return is typically reset on a quarterly basis based on the provisions of the underlying contracts.

As required by the accounting principles generally accepted in the United States of America, the statements of net assets available for benefits present the fair value of the investment contracts. The common collective trust is reported at net asset value as a practical expedient as the investment does not have a readily determinable fair value and the investment is in an investment company.

NOTE E – PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants become 100% vested in their account balances.

NOTE F – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements at December 31, 2019 and 2018 to those shown in the Form 5500:

NOTE G – UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The following unaudited information in the Plan's financial statements and supplemental schedule was certified to be complete and accurate by Fidelity Management Trust Company (the "Trustee"), within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts reported as mutual funds and common collective trusts in the statements of net assets available for benefits as of December 31, 2019 and 2018 and in Notes C and D.
- All amounts reported in the supplemental schedule of assets held at end of year, except notes receivable from participants.
- All amounts reported as net appreciation (depreciation) in fair value of investments and interest and dividend income in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

NOTE H – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which statutory exemption exists.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J – SUBSEQUENT EVENTS

Accounting principles generally accepted in the United States of America require the disclosure of the date through which subsequent events were evaluated when determining whether adjustment to or disclosure in the financial statements is required. A subsequent event is an event or transaction that occurs after the balance sheet date but before the financial statements are issued. The Plan Administrator has evaluated subsequent events through October 15, 2020, which represents the date the accompanying financial statements were available to be issued.

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic has significantly disrupted financial markets and economies and has significantly decreased interest rates. As a result, the Plan's investment portfolio initially incurred a significant decline in fair value, which has been substantially recovered, however the market continues to demonstrate volatility. Economic and market conditions and other effects of the pandemic may continue to affect the Plan. Management cannot reasonably estimate or predict the extent of the adverse impact of the COVID-19 pandemic on the Plan's financial condition, participant account balances, liquidity and future operations at this time.
