1. **DESCRIPTION OF PLAN:** The following description of the Throgs Neck Extended Care, LLC Union 1199 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on January 1, 2006 to provide benefits to all eligible employees. The Plan covers all eligible union employees of Throgs Neck Extended Care, LLC (the "Company") except for leased employees. To be eligible, an employee must have completed six months of service as defined in the plan document and be eighteen years of age. The plan administrator is responsible for the oversight of the Plan. The plan trustee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the plan administrator.

Contributions

Each year, participants may contribute all pre-tax or after-tax annual compensation, as defined in the plan document. Participants who have obtained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are eligible to receive matching contributions up to 2.5% of eligible compensation as defined by the plan document. The employer may also decide each plan year whether to make a discretionary matching contribution equal to a uniform percentage or dollar amount of the employees' elective deferrals on behalf of active participants. For the year ended December 31, 2019, the Company did not make any discretionary contributions to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's discretionary contributions as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses, if and when such expenses are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. During the year there were no administrative expenses paid by the Plan that required allocation to participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earning thereon. Participants vest in their employer share of discretionary contribution based on a 6 year graded vesting schedule. Participants are 100% vested after 6 years.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum of the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance in the account during the prior twelve-month period. Participants may only have five outstanding loans from the Plan at any time. Loan terms range from one to thirty years. The loans are

DESCRIPTION OF PLAN (continued): secured by the balance in the participant's account and bear interest at a rate of 1% above the Prime Rate, as defined in the plan document. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to disability or retirement, if the vested account balance exceeds \$5,000, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. If the vested account balance is less than \$5,000, or upon termination of service due to death, the balance may only be distributed as a lump sum. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Participants may receive an in-service withdrawal upon reaching 59½ years of age. Hardship withdrawals are permitted under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2020, the date which the financial statements were available to be issued. Except as disclosed below, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

**3. FAIR VALUE
MEASUREMENTS:**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

**FAIR VALUE
MEASUREMENTS
(continued):**

Pooled Separate Accounts: The pooled separate accounts are segregated investment account established by The Lincoln National Life Insurance Company or Lincoln Life & Annuity Company of New York ("Lincoln"). The unit values of participation units in the pooled separate accounts are estimated by Lincoln based on the value of the underlying asset owned by the fund minus the fund's liabilities, divided by the number of participation units outstanding. This value is also commonly referred to as net asset value (NAV). The net asset value (NAV) of a pooled separate account is not a publicly quoted price in an active market, but rather is computed daily in accordance with investment company measurement principles. The net asset value is used as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Investments at Fair Value as of December 31, 2019

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Investments at net asset value (a)	\$ -	\$ -	\$290,854
Total investments at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$290,854</u>

Investments at Fair Value as of December 31, 2018

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Investments at net asset value (a)	\$ -	\$ -	\$208,450
Total investments at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$208,450</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits

Transfers Between Levels: For the years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

4. FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT:

The Plan holds a guaranteed investment contract with Lincoln Life & Annuity Company of New York (Lincoln) that meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The Guaranteed Stable Value account is reported at contract value. Interest is credited daily at an interest rate not less than the guaranteed minimum interest rate, as shown on the contract specifications. The interest crediting rate is declared on a quarterly basis. The contract amount maintained in the Guaranteed Stable Value account is guaranteed against loss of principal, minus all withdrawals, including charges and adjustments. The guarantee is based on Lincoln's ability to meet its financial obligations.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options

**FULLY BENEFIT
RESPONSIVE
INVESTMENT
CONTRACT
(continued):**

5. Bankruptcy of the plan sponsor or other plan sponsor events that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer

**5. RELATED PARTY
TRANSACTIONS
AND PARTY IN
INTEREST
TRANSACTIONS:**

Certain plan investments are managed by Lincoln Life & Annuity Company of New York ("Lincoln"). Lincoln is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, the third-party administrator fees are also party-in-interest transactions. These party in interest transactions are deemed "exempt" from Prohibited Transaction Rules as defined by Department of Labor regulations.

**6. INFORMATION
CERTIFIED BY
THE PLAN'S
TRUSTEE:**

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Lincoln Life & Annuity Company of New York, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year):

As of December 31,	2019	2018
Investments, at fair value	\$ 290,854	\$ 208,450
Investment, at contract value	54,450	40,806
Notes receivable from participants	9,158	9,614
For the Year Ended December 31,		2019
Net appreciation in the fair value of investments		\$ 44,075
Interest income on notes receivable from participants		384

**7. PLAN
TERMINATION:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

- 8. TAX STATUS:** The Plan is structured and follows a volume submitter plan, which has received an advisory letter from the Internal Revenue Service dated March 31, 2014 indicating that the plan document was in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and, therefore, believe that the Plan is qualified and related trust is tax exempt

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

- 9. RISKS AND UNCERTAINTIES:** The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

- 10. SUBSEQUENT EVENTS:** In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. have declared a state of emergency. It is anticipated that these impacts will continue for some time. There has been no immediate impact to the Company's operations. Future potential impacts may include disruptions or restrictions on the Company's ability to fund the Plan. Changes to the operating environment may increase operating costs. The future effects of these issues are unknown.

Additionally, the risk of further spreading of COVID-19 has led to significant uncertainty and volatility in the financial markets and disruption to the global economy, the consequences of which are currently unpredictable. Certain of the Plan's investments are likely to have exposure to businesses that, as a result of COVID-19, experience a slowdown or temporary suspension in business activities. These factors, as well as any restrictive measures instituted in order to prevent or control a pandemic or other public health crisis, such as the one posed by COVID-19, could have a material and adverse effect on the Plan's investments.
