NISSHINBO AUTOMOTIVE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF PLAN

The following is a brief description of the Nisshinbo Automotive 401(k) Plan (the "Plan"). Participants or other interested parties should refer to the Plan Agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan adopted by Nisshinbo Automotive Manufacturing, Inc. (the "Company"), effective January 1, 1999, to provide deferred tax benefits, savings and matching employer contributions to eligible employees. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Retirement Plan Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

B. Eligibility

Employees are eligible to participate in the Plan after the completion of 60 days of service. The entry date of the Plan is the first day of the Plan quarter (January 1, April 1, July 1 or October 1) coinciding with or following the date on which the employee met the eligibility requirement.

C. Contributions

Participants may contribute up to 50% of their pre-tax annual compensation, as defined by the Plan, subject to certain limitations for highly compensated individuals. The Plan provides that the participant's elective deferral percentage will automatically increase by 1% each January until the elective deferral percentage reaches 10%. The Plan provides that participants automatically defer 6% of compensation into the Plan. Participants have the option to not participate in the features outlined. Participants who attained age 50 before the end of the Plan year may make additional catch-up contributions. The Company may make a matching contribution equal to a discretionary percentage of a participant's deferral amount as determined by the Company. The Company matched 50% of the first 6% of compensation deferred in 2019.

D. Participant Accounts

Participants' accounts are maintained by the Plan trustee, Minnesota Life Insurance Company, (the "Trustee") and are credited with the participant's contributions, the Company's contributions and an allocation of the investment income and charged with fees upon receiving loans or distributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NISSHINBO AUTOMOTIVE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

E. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is based on years of service. A participant is fully vested after six years of service.

F. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of their vested account balance. A participant may have only one loan outstanding at any time. The loans, which are collateralized by the balance in the participant's account, bear interest of 4.25% to 6.50%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

G. Payment of Benefits

Upon termination of service due to retirement, termination, death or disability, a participant or representative may elect to receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, upon written request and approval, participants may withdraw some or all of the contributions in their employee contribution account if the withdrawal is necessary due to hardship.

H. Forfeited Accounts

Amounts forfeited by participants who are terminated from the Plan prior to being 100% vested are used to reduce employer contributions. Total unused forfeited balances as of December 31, 2019 and 2018 were \$17,339 and \$7,386, respectively. During the year ended December 31, 2019, \$12,534 of forfeitures were used to reduce employer contributions.

2. SUMMARY OF ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

NISSHINBO AUTOMOTIVE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

E. Payment of Benefits

Benefits are recorded when paid.

F. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants or beneficiaries are charged directly to the participant account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of registered investment companies.

G. Subsequent events

Subsequent events have been evaluated by management through October 14, 2020, the date these financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

FASB *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or the liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

As of December 31, 2019 and 2018, the only assets or liabilities that are measured at fair value on a recurring basis in periods subsequent to initial recognition are investments. Investments at fair value, consisting of pooled separate accounts, are valued at the value of the underlying assets as determined by Minnesota Life Insurance Company, which reflects the fair

NISSHINBO AUTOMOTIVE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

value of the investments comprising the pooled separate accounts using quoted prices and other observable inputs. The net asset value is not a publicly quoted price in an active market.

Currently, all redemptions for the pooled separate accounts are at that day's computed net asset value. In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value ("NAV") practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. In accordance with this ASU, the pooled separate accounts have not been classified in the fair value hierarchy. As of December 31, 2019 and 2018, the fair value of the Plan's investments in pooled separate accounts were \$11,647,257 and \$9,617,570, respectively.

Fair Value of Investments in Entities that Use Net Asset Value

The following table summarizes investments measured at fair value based on net asset value per share as of December 31, 2019 and 2018:

Pooled Separate Accounts	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2019	\$ 11,647,257	n/a	Daily	1 day
December 31, 2018	\$ 9,617,570	n/a	Daily	1 day

4. MN LIFE GUARANTEED RETURN ACCOUNT

The Plan entered into a fully benefit-responsive investment contract with Minnesota Life Insurance Company, which totaled \$421,930 and \$389,661 at December 31, 2019 and 2018, respectively. The general account assets are invested in the general assets of Minnesota Life Insurance Company, which are predominantly high-quality fixed income investments (bonds, mortgages, private placements). The account is reported at contract value and credited with interest at the rate specified in the contract. All benefit payments prior to contract liquidation are made at book value (principal invested plus interest earned). There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events may limit the ability of the Plan to transact at contract value such as: (1) complete or partial plan termination or merger with another plan, (2) Plan sponsor events such as bankruptcy, spin-offs, divestitures, layoffs, or retirement incentive programs, (3) the liberalization of Plan withdrawal or transfer rules, or (4) the failure of the trust to qualify for

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

exemption under ERISA. Upon occurrence of any of these events, a market value adjustment may apply. The Company does not believe the occurrence of any such events, which limit the Plan's ability to transact at contract value with participants, is probable.

5. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Administrative expenses paid by the participants to Minnesota Life Insurance Company for contract administrator fees related to notes receivable from participants and benefits paid to participants or beneficiaries amounted to \$8,509 for the year ended December 31, 2019. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

6. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Plan trustee.

	<u>2019</u>	<u>2018</u>

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

8. TAX STATUS

Effective June 1, 2016, the Plan adopted a new prototype plan designed by Minnesota Life Insurance Company, which the Internal Revenue Service had determined, by a letter dated March 31, 2014, is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the letter. However, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan as taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

10. SUBSEQUENT EVENTS

In early March 2020, COVID-19, a disease caused by a novel strain of the coronavirus, was characterized as a pandemic by the World Health Organization. The COVID-19 pandemic has negatively impacted the world economy and has resulted in a significant volatility in global financial markets. The ultimate impact of the COVID-19 pandemic on the Plan's net assets available for benefits and contributions remains uncertain.

The Plan permitted coronavirus-related distributions, loans and suspension of participant note repayments in accordance with the Coronavirus Aid, Relief and Economic Security Act (the CARES Act). The Plan will suspend 2020 required minimum distributions payable after April 1, 2020 and allow 2020 to be disregarded for purposes of the five-year required minimum distribution deadline.
