CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

1. DESCRIPTION OF PLAN

The following description of Crestline Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored and administered by Superior Fabrication Company, LLC (the Company), a company related to Creative Engineered Polymer Products through common ownership. On September 20, 2006, Creative Engineered Polymer Products filed for bankruptcy and all plant employees were terminated as of October 31, 2006. On July 31, 2007, the Plan was frozen. Then, during 2007, the Plan was transferred to the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2009, the Creative Engineered Polymer Products Pension Plan for Bargaining Unit Employees – Canton, a separate noncontributory defined benefit pension plan of Creative Engineered Polymer Products, was merged into this Plan.

Eligibility

To be eligible to participate in the Plan, a person must have been employed by (or had seniority status with) Creative Engineered Polymer Products at its Crestline or Canton, Ohio plants. The person must have been a member of the bargaining unit represented by Local Union No. 563L1 of the United Steel Workers of America and a participant in the Plan as it existed at December 31, 1975 (Crestline) or have been a member of the bargaining unit represented by Local Union No. 761 of the United Rubber, Cork, Linoleum and Plastics Workers of America or have been a skilled tool shop employee and have been a participant in the Plan as it existed at December 31, 1984 (Canton), or have completed one year's uninterrupted employment with at least 1,000 hours since that date (Crestline and Canton).

1. DESCRIPTION OF PLAN (Continued)

Pension Benefits and Vesting

The annual pension benefit payable at a participant's normal retirement date is based on a fixed benefit multiplied by the years of credited service as follows:

Crestline:

<u>Date of Retirement</u>	<u>Amount Per Year of Credited Service</u>
Prior to February 25, 2002	\$ 90 - \$222
February 25, 2002 – March 31, 2003	228
April 1, 2003 – March 31, 2004	234
April 1, 2004 – March 31, 2005	240
On and after April 1, 2005	246

As of October 31, 2006, all employees of Creative Engineered Polymer Products - Crestline became fully vested in the Plan, and continued to accrue credited service through July 2007.

Canton:

<u>Date of Retirement</u>	<u>Amount Per Year of Credited Service</u>
Prior to January 1, 2001	\$ 84 - \$180
January 1, 2001 - December 31, 2001	192
January 1, 2002 - December 31, 2002	204
January 1, 2003 - December 31, 2003	216
On and after January 1, 2004	240

As of October 27, 2006, all employees of Creative Engineered Polymer Products - Canton became fully vested in the Plan, and continued to accrue credited service through July 2007.

The normal retirement date is the first day of the month following the participant's 65th birthday. All pension benefits payable under the terms of the Plan commence the first day of the month following actual retirement and are made under one of the optional forms of payment as defined in the plan document.

As defined in the Plan, other plan benefits available include early retirement benefits, disability pension benefits, deferred vested benefits and pre-retirement death benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Funding

The Company makes contributions to the Plan in amounts determined by actuarial computations in order to fully provide benefits for the employees when they retire. All contributions required to fulfill the minimum funding requirements of ERISA were made on a timely basis during the years ended December 31, 2019 and 2018.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standards Update (ASU) 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements*. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the impact of this ASU.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 14, 2020, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date, except as disclosed in Note 10.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019 Level 1	2018 Level 1
Total investments at fair value - mutual funds	<u>\$ 7,981,707</u>	<u>\$ 6,934,764</u>

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2019 and 2018, there were no such transfers.

4. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedules as of and for the years ended December 31, 2019 and 2018 has been certified as complete and accurate by PNC Bank NA, the trustee of plan assets, and has not been audited by the independent auditors for the Plan: investments at fair value, interest and dividends, and net appreciation (depreciation) in fair value of investments.

5. ACTUARIAL INFORMATION

Actuarial valuations of the Plan were made by an independent actuary as of January 1, 2019. The computations of the actuarial present value of accumulated plan benefits as of the beginning of the plan years are as follows:

Vested benefits:

Participants with deferred benefits	\$ 2,706,802
Participants receiving benefits	<u>4,931,542</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 7,638,344</u>
--	---------------------

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

5. ACTUARIAL INFORMATION (Continued) –

The following is a summary of the changes in the actuarial present value of accumulated plan benefits.

Actuarial present value of accumulated plan benefits, January 1, 2018	\$ 7,724,028
Increase (decrease) during year attributable to:	
Actuarial loss	(64,319)
Change in discount period	522,349
Change in actuarial assumptions	(19,920)
Benefits paid to participants	<u>(523,794)</u>
Actuarial present value of accumulated plan benefits, January 1, 2019	<u>\$ 7,638,344</u>

Accumulated plan benefits are those future periodic payments for plan benefits that have accrued on the basis of each participant's service history as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2019 and 2018 are as follows:

- Discount rates – 7.00% for years beginning January 1, 2019 and 2018.
- Mortality rates – For all participants, the RP-2014 Blue Collar Employee and Healthy Annuitant Mortality Tables, with Generational Projection Scale MP-2017, for males and females.
- Spousal assumptions – 75% of males and 50% of females are assumed to be married. Female spouses are assumed to be 3 years younger than their male spouses.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

5. ACTUARIAL INFORMATION (Continued)

- Retirement age – Retirement eligible employees are assumed to retire at 65.
- Form of payment – The benefit payable to a participant who has been married at least one year is an actuarially equivalent 50% Joint & Survivor benefit. For unmarried participants, the benefit payable is a straight-life annuity.
- Expected return on plan assets – The lesser of the plan sponsor's long-term rate of return on assets or the third segment rate in the IRS-Prescribed Three Segment Rates. The expected return on assets was 6.29% for plan year beginning January 1, 2019 and 6.48% for plan year beginning January 1, 2018.
- Effective interest rates – The effective interest rate used to determine the funding target for minimum required contribution purposes was 5.53% for the plan year beginning January 1, 2019 and 5.72% for the plan year beginning January 1, 2018.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Had the valuation been performed as of December 31 rather than January 1, there would be no material differences in the values presented.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations and with the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

6. PLAN TERMINATION (Continued)

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated February 27, 2013, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

9. RISKS AND UNCERTAINTIES (Continued)

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. SUBSEQUENT EVENTS

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time. Plan management is carefully monitoring the situation and evaluating its options related to the Plan.

Additionally, the Plan has elected to adopt the plan provisions available under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) enacted on March 27, 2020, that offers a deferment for minimum annual required contributions during the calendar year to January 1, 2021. Any contributions that are delayed will be increased by interest for the period beginning on the original due date to the actual payment. The CARES Act also provides relief for plans that may have benefit restrictions triggered due to a drop in funding levels.

SUMMARY OF ASSUMPTIONS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the fourth month prior to the valuation date (Sep).

	Non-Stabilized	Limited to 25- Year Corridor
Segment 1:	2.28%	3.74%
Segment 2:	3.81%	5.35%
Segment 3:	4.46%	6.11%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the Highway and Transportation Funding Act of 2014 ('HATFA-14') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.53%. For the prior Plan Year, the EIR was 5.72%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would equal the Funding Target determined using the Plan Sponsor's above elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of a) or b), below:

a) The Plan Sponsor's expected long-term rate of return on assets based on policy trust allocations; or

b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption a)	Seg. III b)	EROA (smaller of a or b)
2018	7.00%	6.29%	6.29%
2017	7.00%	6.48%	6.48%

The assumed rate of return used for determination of the actuarial value of assets was selected taking into consideration input from the Plan's asset advisor and publicly available survey information on expected returns by asset class as of January 1, 2019.

Administrative Expenses \$185,643 estimated to be paid from the trust in the current Plan Year and included in the Normal Cost.

Administrative expenses are assumed to equal the prior year's actual administrative expenses.

Salary Scale Not applicable.

Rationale: The Plan is frozen.

Inflation Not applicable.

Rationale: This assumption affects long-term assumed increases in the Social Security Taxable Wage base and the IRS Compensation Limits. Because the Plan is frozen and there are no benefits over the IRS Compensation Limits, this assumption is not applicable.

Mortality	Healthy Participants - IRS §430(h) Separate Annuitant / Non-Annuitant Generational Mortality Tables for the Current Plan Year. These tables are the Society of Actuaries' (SOA) RP-2014 separate employee and healthy annuitant generational mortality tables, adjusted to 2006, then projected forward using generational projection scale MP-2018, for males and females. Disabled Participants - Same as Healthy Participants. The mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.
Withdrawal Rates	Not applicable. Rationale: There are no active participants for which this assumption would apply.
Disability Incidence	Not applicable. Rationale: There are no active participants for which this assumption would apply.
Retirement Rates	Not applicable. Rationale: There are no active participants for which this assumption would apply.
Spousal Assumptions	75% of males and 50% of females are assumed to be married. Females are assumed to be 3 years younger than males. Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to spousal information, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.
Benefit Commencement Age	Normal Retirement Age, or valuation age, if later. Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Benefit Commencement Age, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

Form of Payment

All benefits are assumed to be paid in the Normal Form defined under the terms of the Plan.

Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Form of Payment, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

None.

SUMMARY OF METHODS

Minimum Funding Cost Method

The actuarial cost method used to determine the liabilities for minimum funding calculations is the Traditional Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for each participant. The individual accrued liability for a participant is the present value of the accrued benefit as of the valuation date taking into account service and/or pay as of the valuation date. The individual normal cost for a participant is the present value of the benefit expected to accrue in the plan year being valued.

If a plan is frozen, there is no normal cost attributable to benefit accruals.

Maximum Deductible Contribution Method

The actuarial cost method used to determine the liabilities for maximum deductible calculations is the Projected Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for all participant. The individual accrued liability for a participant is the sum of 1) the present value of the accrued benefit earned as of the valuation date taking into account service and/or pay as of the valuation date; plus 2) the present value of the accrued benefit expected to be earned because of any expected future compensation increases.

The individual normal cost for a participant is the sum of the present value of the benefit expected to accrue in the plan year being valued taking into account any expected future compensation increases.

Asset Method

We used financial data submitted by the trustee as of the valuation date without further audit. This information was not verified by a plan's actuary. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

Actuarial Value of Assets For funding purposes, Actuarial Value of Assets is a smoothed market value assets adjusted by the applicable percentage of gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value, and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted at the expected interest rate to the valuation date. The expected interest rate for each year is the lesser of the expected rate of return and the third segment rate. The applicable percentage is 66-2/3% for the year preceding the valuation date, and 33-1/3% for the second year preceding the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets.

Receivable contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation None.
