HCR ManorCare Retirement Savings 401(k) Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description

The following description of HCR ManorCare Retirement Savings 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Heartland Employment Services, LLC (the "Company"), a wholly owned subsidiary of HCR ManorCare, Inc., and employees of affiliated companies that adopted the Plan with the consent of the Company who have completed six months of consecutive service and 500 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000, reduced by the participant's highest outstanding loan balance, if any, over the 12-month period. Participants may have only one loan outstanding at a time and must wait 90 days after paying off a loan before requesting another loan. Only one loan can be requested in a 12-month period. Notes receivable are collateralized by the participant's account balance and bear interest at the prime rate plus 1 percent over a period not to exceed 5 years or, if used for the purchase of their primary residence, 10 years. Loans are subject to a one-time administrative service fee at the time the loan is initiated and a quarterly servicing fee.

Participant Accounts

Each participant's account is credited with the participant's contributions, company matching contributions, and allocations of plan earnings, net of any participant-related administrative expenses. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Contributions

The Plan currently allows participants to contribute up to 75 percent of their annual compensation on a pretax or Roth basis, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. The Plan provides for a discretionary employer matching contribution. The Company determines the match percentage on an annual basis. For the plan years ended December 31, 2019 and 2018, employer matching contributions were calculated based on 50 percent of the participant's contribution, not to exceed 2 percent of the employee's eligible compensation.

The employer matching contribution is funded subsequent to year end. The participant may direct the employer match into any of the available investment options. If the participant fails to make an election direct the employer match, it will be automatically invested in the plan-designated default fund based on the participant's year of birth and may be immediately redirected by the participant.

The Plan provides that the Company, at its sole discretion, may also make additional discretionary contributions to the Plan on behalf of the participants.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service, an additional 20 percent after the third year of service, and another 20 percent per year thereafter until they become fully vested after six years of service.

Note 1 - Plan Description (Continued)

Payment of Benefits

Distributions are available upon attainment of 59½ years of age, retirement, death, disability, or termination of employment and can be paid in the form of a lump-sum amount equal to the vested balance or partial balance of a participant's account or a direct rollover.

Hardship Withdrawals

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which are based on the fair value of the funds' underlying assets. All other investments are valued based on quoted market prices. See Note 4 for additional information.

Benefit Payments

Benefits are recorded when paid.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced by the outstanding amount and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 22, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques and used to measure fair value, which is described as follows:

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
