### Note 1 – Description of Plan

The following description of Columbia Bank Cash or Deferred Profit Sharing 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

**General** – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Columbia Banking System, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Columbia Banking System, Inc. is the Plan's sponsor and serves as plan administrator.

**Eligibility** – Employees of the Company are eligible to participate in the Plan on the later of the first day of the month following date of hire, or upon reaching age 18. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer paid profit sharing contributions.

### Contributions

*Participant contributions* – Each year, participants may contribute between 1% and 75% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

*Employer match and profit sharing contributions* – The Company makes matching contributions and may elect to make discretionary profit sharing contributions to the Plan. The Company matches 50% of employee contributions, up to 6% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. For the year ended December 31, 2019, the Company made a \$7,355,018 profit sharing contribution and \$3,494,197 of matching contributions to the Plan.

Contributions are subject to regulatory limitations.

**Participant accounts** – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

**Vesting** – Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service. Participants will become 100% vested in any profit sharing contributions upon attaining the Plan's normal retirement age of 65 or upon termination of employment due to death or disability.

#### Note 1 – Description of Plan (continued)

**Notes receivable from participants** – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed twenty years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2019, the rates of interest on outstanding loans ranged from 3.25% to 6.50% with various maturities through August 2026.

**Payment of benefits** – On termination of service due to death, disability or retirement, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. For situations in which the participant has attained age 70 ½, annual installments over a specified period may be elected. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If the participant's vested account balance is less than \$5,000, the entire amount will be distributed to the employee as a lump sum payment or may be rolled over into another qualified plan. Upon attaining age 59 ½, a participant may elect an in-service distribution of the vested interest in his or her account.

**Forfeitures** – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. For the years ended December 31, 2019 and 2018, forfeited nonvested accounts totaled \$34,016 and \$90,664, respectively. These accounts will be used to 1) restore participant forfeitures, 2) offset Plan expenses, or 3) reduce the Company's contribution to the Plan. During the year ended December 31, 2019, \$168,535 of forfeited nonvested accounts were used to offset the Company's contributions into the Plan and pay plan expenses.

#### Note 2 – Summary of Significant Accounting Policies

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Investment valuation** – Investments are reported at fair value as certified by the Plan's custodian, Charles Schwab Bank. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

#### Note 2 – Summary of Significant Accounting Policies (continued)

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Notes receivable from participants** – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

**Payment of benefits** – Benefits are recorded when paid.

**Expenses** – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued. Note 9 provides disclosure of certain subsequent events that did not result in recognition in the financial statements.

The Plan has evaluated subsequent events through October 13, 2020, which is the date the financial statements were available to be issued.

### Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2019 and 2018.

*Registered investment companies (Mutual funds)* – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

*Collective trust* – Units held in collective trusts (CT) are valued using the net asset value practical expedient (NAV practical expedient) of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding.

*Columbia Bank's Unitized Stock Fund* – The fair value of the Columbia Bank's Unitized Stock Fund is based on an observable market quotation for an identical asset (the common stock of Columbia Bank) and is valued at the closing price reported on the active market (New York Stock Exchange) on which the common stock of Columbia Bank is traded plus an uninvested cash portion.

### Note 3 – Fair Value Measurements (continued)

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

	Fair Value 12/31/19	Fair Value 12/31/18	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Collective trust	<u>\$ 17,924,854</u>	<u>\$ 15,805,447</u>	Daily	(a)	(b)

(a) To fully withdraw from the Collective Trust, 12 months written notice is required for a Company-initiated event; otherwise no redemption notice period.

(b) The trustee of the collective trust reserves the right to withhold payment of any withdrawal request for up to 30 calendar days if necessary to preserve the liquidity of the Collective Trust. All withdrawals requests will be treated in a uniform manner in the event that the trustee of the collective trust exercises its right to withhold payment.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Fair Value Measurement as of December 31, 2019

#### **Note 4 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated March 15, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **Note 5 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

#### **Note 6 – Information Certified by the Custodian**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2019 and 2018.
- Net appreciation in fair value of investments and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Investments reflected on the schedule of assets (held at end of year) except for participant loans.

### **Notes to Financial Statements**

---

#### **Note 7 – Related Party Transactions and Party-In-Interest Transactions**

Certain Plan investments are shares of Columbia Banking System, Inc. common stock within a unitized fund. Columbia Banking System, Inc. is the Plan sponsor. These transactions qualify as party-in-interest transactions.

Charles Schwab manages certain Plan investments and is also the custodian to the Plan. These transactions qualify as party-in-interest transactions.

#### **Note 8 – Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

#### **Note 9 – Subsequent Events**

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has incurred a significant volatility in fair value since December 31, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

In April of 2020, the Plan appointed T. Rowe Price as the recordkeeper and trustee of Plan assets. All investments transitioned to T. Rowe Price in April of 2020.
