Note 1 - Description of Plan

The following brief description of the Hilltop Employees 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Hilltop Health Services Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the ERISA).

The Retirement Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Prior to May 23, 2019, employees were eligible to participate in employee deferrals and receive safe harbor matching contributions in the Plan if they had completed one month of service. A month of service for purposes of eligibility is a consecutive 1-month period from the eligible employee's employment commencement date and during which the employee has 1 or more hours of service. Effective May 23, 2019, employees are eligible to participate in employee deferrals and receive safe harbor matching contributions in the Plan if they have completed one month of service and have attained age 18.

Prior to May 23, 2019, employees were eligible for discretionary and employer matching contributions in the Plan if they had completed 1 year of service, 1,000 hours, and attained age 18. Employees must have been employed on the last day of the year to receive discretionary contributions. Effective May 23, 2019, employees are eligible for discretionary and employer matching contributions if they have completed one month of service and have attained age 18.

The Plan does not allow participation by employees who are non-resident aliens, reclassified employees, leased employees, or independent contractors.

Entry Date

Employees are eligible to enter the Plan on the first day of the month coinciding with or following the date eligibility requirements are met.

Hilltop Employees 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2019 and 2018

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company's safe harbor match contribution is 100% of the first 4% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's safe harbor matching contribution, as well as allocations of the Company's discretionary and employer match contributions, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon.

Prior to May 23, 2019, vesting for any employer discretionary contributions was based on years of credited services as set forth in the following table:

<u>Participant's Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	67%
5	100%

Effective May 23, 2019, participants are 100% vested in any employer discretionary contributions.

Notes Receivable from Participants

The Plan does not permit loans to participants.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than \$1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between \$1,000 and \$5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would remain 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Hilltop Employees 401(k) Retirement Plan

Notes to Financial Statements
December 31, 2019 and 2018

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds (including money market mutual fund) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and other third parties.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 15,273,724	\$ -	\$ -	\$ 15,273,724
Money market mutual fund	6,112			6,112
Common collective fund	-	292,007	-	292,007
Investments at fair value	<u>\$ 15,279,836</u>	<u>\$ 292,007</u>	<u>\$ -</u>	<u>\$ 15,571,843</u>
	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 12,008,719	\$ -	\$ -	\$ 12,008,719
Investments at fair value	<u>\$ 12,008,719</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 12,008,719</u>

Transfers Between Levels

For the year ended December 31, 2019, there were no transfers between Level 1 and 2 and no transfers in or out of Level 3.

Note 4 - Information Certified by MG Trust Company and Voya Institutional Trust Company

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by MG Trust Company d.b.a Matrix Trust Company and Voya Institutional Trust Company, the custodians, except for comparing such information certified by the custodians with information included in the Plan's financial statements and supplemental schedule H, Line 4i-schedule of assets held at end of year.

The Plan custodians have certified their statements of accounts as of December 31, 2019 and 2018, and for the year ended December 31, 2019. The statements of accounts include beginning and ending balances of investments held and all related investment activity during the period, including investment earnings.

Note 5 - Tax Status

The Plan uses a pre-approved plan document sponsored by Voya Retirement Insurance and Annuity Company, which received an advisory letter from the Internal Revenue Service (IRS), dated September 1, 2014, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan's management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Contract with Insurance Company

Prior to May 23, 2019, the Plan entered into a traditional fully benefit-responsive guaranteed account contract (GAC) with CMFG Life Insurance Company (CMFG). CMFG maintained the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GAC issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting. The GAC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the GAC was fully benefit-responsive, contract value was the relevant measure for the GAC, as this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by CMFG represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contract at December 31, 2019 and 2018 was \$0 and \$668,272, respectively. The Plan's ability to receive amounts due was dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and a common collective trust managed by Voya Institutional Trust Company, the custodian, as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Subsequent Events

Subsequent to year-end, the United States and global markets experienced significant volatility in value resulting from uncertainty caused by the world-wide coronavirus pandemic. The Plan sponsor is closely monitoring its investment portfolio and its liquidity and is actively working to minimize the impact of this volatility. The Plan's financial statements do not include adjustments to fair value that have resulted from this volatility.

Subsequent to year-end, the Company adopted the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 to allow coronavirus related withdrawal distributions and waive required minimum distributions for one year.

The Plan sponsor has evaluated subsequent events through October 13, 2020, the date which the financial statements were available to be issued.
