Note 1 - Plan Description

The following brief description of the CSI International, Inc. Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a 401(k) plan (defined contribution plan) covering all eligible employees of CSI International, Inc. (the "Company"), who have completed one year of service during which at least 1,000 hours of service were performed and have attained the age of 21. The Plan was established effective January 1, 1998 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may contribute up to 15% of their compensation, subject to maximums established by the Internal Revenue Code. Tax deferred contributions were limited to a maximum of $19,000 in 2019. Certain participants (age 50 and older) can make an additional catch-up contribution. Catch-up contributions were limited to $6,000 in 2019. The Company makes annual contributions to the Plan equal to a percentage determined by the Company prior to the end of each plan year. The Company may also contribute an additional amount determined in its sole judgment. The Company made matching contributions of $35,066 and $34,300 to the Plan for the years ended December 31, 2019 and 2018, respectively. The Plan had no rollover contributions for the years ended December 31, 2019 and 2018, respectively, which are included in participant's contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the employer contribution to the Plan, plan earnings, and forfeitures of terminated participants' nonvested accounts. Additionally, an allocation of plan expenses is deducted from each participant's account. Allocations are based on participants' account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Plan Description (Continued)

Vesting

Participants' contributions and the earnings thereon are fully vested immediately.

Vesting in the Company's contributions portion of participant accounts, plus earnings thereon is as follows:

Years of Service	Percentage Vested
1	50%
2	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 30 years. The loans are secured by the balance in the participant's account and bear interest at a rate, for new loans starting in and after 2014, 4.25%, for new loans starting in and after 2016, 4.50%, for new loans starting in and after 2017, 5.25% and 5.50%, for new loans starting in and after 2018, 6.00% and 6.25%, and for new loans starting in and after 2019, 7.25% and 7.50%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant or beneficiary may receive any amount to which he or she is entitled under the Plan in one or more of the following methods: (a) a lump sum distribution, (b) a lump sum distribution payable upon participant's death before normal retirement, (c) disability retirement, (d) hardship withdrawals prior to termination of employment, and (e) a distribution of the participant's account without terminating employment upon attainment of age 59 1/2.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $10,275 and $1,969, respectively. These accounts may be used to reduce future employer contributions. During 2019 and 2018, employer contributions were not reduced by forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses in excess of the amounts recorded by the Plan are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 12, 2020, the date that the financial statements were available to be issued.

Note 3 - Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator has obtained certification from Massachusetts Mutual Life Insurance Company for 2019 and from Acsensus Trust Company for 2018, the trustees of the Plan, respectively, that the information pertaining to the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2019	2018
Investments, at contract value:		
MassMutual Guaranteed Fund	$ 141,906	$ -
Investments, at fair value:		
Pooled separate accounts	3,268,818	-

Total investments	$ 3,410,724	$ 2,768,930
Notes receivable from participants	$ 51,058	$ 79,331
Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	$ 597,146	$ (359,291)
Interest and dividends	33,662	208,676
Net investment (loss) income	$ 630,808	$ (150,615)
Interest on notes receivable from participants	$ 3,478	$ 4,798

Note 3 - Information Certified by Trustee (Unaudited) (Continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Investment Contract with Insurance Company

In 2019, the Plan entered into a fully benefit-responsive investment contract (the "MassMutual Guaranteed Fund") with MassMutual Retirement Services ("MassMutual"). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based upon a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5 - Investments

As stated in Note 4, the MassMutual Guaranteed Fund, which is deemed to be fully benefit-responsive, is stated at contract value. The contract value of this investment at December 31, 2019 and 2018 was $141,906 and $-0-, respectively.

During 2019 and 2018, the Plan's investments in securities (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $597,146 and $(359,291), respectively.

Note 6 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Note 6 - Fair Value Measurements (Continued)

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts:

The fair values of participation units held in pooled separate accounts are based on net asset values ("NAV") reported by the fund managers as of the financial statement dates and recent transaction prices. Each pooled separate account provides for daily redemptions by the Plan with no advance requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Mutual funds:

Mutual funds are valued at the daily closing price as reported by the fund and are deemed to be actively traded.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 - Fair Value Measurements (Continued)

The following tables set forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2019 and 2018:

Investments in securities:

December 31, 2019	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

Note 6 - Fair Value Measurements (Continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, or the Plan and Trust, by delivering to the plan administrator and the trustee written notice of such termination, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 8- Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated May 28, 2002, that the Plan and related Trust are designed in accordance with Section 401(a) of the Internal Revenue Code (the “IRC"). Accordingly, the Plan is exempt from federal income taxation under Section 501(c). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 8- Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. During 2014, the Plan underwent an audit by the IRS for the year ended December 31, 2013. The audit was completed and the Plan received a "no change letter" from the IRS. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Related Party Transactions

For the year ended December 31, 2019, certain Plan investments are shares of pooled separate accounts managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

For the year ended December 31, 2018, certain Plan investments are shares of mutual funds managed by Acsensus Trust Company. Acsensus Trust Company is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
