NOTE 1 - PLAN DESCRIPTION

The following description of the Pacific Bearing Company Associates' Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan originally effective January 1, 1993. The Plan has been amended throughout the years to comply with tax legislation and was most recently amended effective January 1, 2016. The Plan covers employees of Pacific Bearing Company and Lee Controls, LLC (the Company) 21 years of age and over who have completed 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions**:** The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage of their compensation, as defined in the Plan, contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Contributions are not to exceed limits imposed by the IRC.

The Plan provides for the Company to make matching contributions based on a percentage of participant contributions, as determined by the Company from time to time. For the year ended December 31, 2019, the Company contributed a matching contribution on behalf of each participant, equal to 50% of the participant's contributions up to 5% of eligible compensation. The Company may also make a discretionary profit-sharing contribution. No discretionary profit-sharing contribution was made in 2019. To receive Company matching contributions, a participant must be 21 years of age or over and have completed six months of service. To receive Company profit sharing contributions, a participant must be 21 years of age or over, have completed six months of service, completed 1,000 hours of service during the Plan year and be employed on the last day of the Plan year.

Participant Accounts: Each participant's account is credited with the participant's voluntary salary deferral contribution, the Company's matching contributions, and an allocation of: (a) the Company's profit-sharing contribution (if applicable) and (b) Plan earnings or losses, and is reduced for certain administrative expenses paid by the Plan. Plan earnings or losses are allocated based on participant account balances on a daily basis. The Company's profit-sharing contributions are allocated based on the participant's eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Participant contributions must be allocated by the participant to selected investment options as made available and determined by the Plan administrator in 5% increments. Participants have the option to transfer monies between funds and change the allocation of their investment options daily.

Vesting: Participant contributions and earnings thereon vest immediately. Participants' vesting in Company contributions plus actual earnings thereon is based on years of service. A participant becomes vested in the Company contributions according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or More	100%

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Note terms may range from one to five years, or longer if for the purchase of a primary residence. Principal and interest are paid ratably through bi-weekly payroll deductions.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Benefit Payments: Upon termination of service, participants may elect to receive either a lump sum amount equal to the value of their account, or another method of payment selected by the Plan administrator providing for installments in approximately equal amounts over a period not exceeding the life expectancy of the participant. Upon reaching 59½ years of age, a participant with a fully vested account may receive an in-service distribution prior to separation from service. The Plan allows for hardship withdrawals.

If the vested benefits are less than $5,000, the balance will be distributed as either a cash distribution to the participant or transferred to an eligible retirement plan, at the direction of the participant. If the participant does not elect a method of payment and the balance is greater than $1,000, it will automatically be rolled over into an individual retirement account (IRA). Balances of less than $1,000 will be distributed in cash to the participant. If the balance is more than $5,000, an election to receive the benefit must be made.

Forfeited Accounts: Forfeitures are used to reduce future Company contributions and pay Plan expenses, then any remaining forfeitures will be reallocated to participants as an additional discretionary contribution. In 2019, forfeitures of $26,561 were used to reduce Company match contributions. The balance in the forfeiture account at December 31, 2019 and 2018 was $63,325 and $32,929, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. See Note 4 for discussion of fair value measurements.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments: Benefits are recorded when paid.

Notes Receivables from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events: The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus ("COVID-19") has spread around the world, with resulting business and social disruption. COVID-19 was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The ultimate impact of COVID-19 on the Plan and the Company will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions required to contain it or treat its impact, among others.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), became law in response to the coronavirus outbreak. The CARES Act provides relief in distribution provisions, loan provisions for qualified participants, and required minimum distribution provisions for qualified participants. In March 2020, Plan management adopted these provisions.

NOTE 3 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TD Ameritrade Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 4 - FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. That framework provides a fair value hierarchy that prioritizes the inputs using valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan. There were no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds – The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Private Mutual Funds – The fair values of private mutual fund investments are determined by obtaining quoted prices of the underlying funds, which are traded on nationally recognized securities exchanges (Level 2 inputs).

Money Market Deposit Account – Fair value is estimated to approximate the cost basis of the deposit account balance, based upon the liquidity of the account and the credit quality of the issuer (Level 2 inputs). The Plan's investments in the money market deposit account may occasionally exceed the federally insured balance.

Self-Directed Brokerage Account – Account primarily consists of mutual funds and common stocks that are determined by obtaining quoted prices on nationally recognized securities exchange (Level 1).

NOTE 4 - FAIR VALUE OF INVESTMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contribution accounts.

NOTE 6 - PLAN TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014 indicating that the volume submitter plan adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are managed and administered by TD Ameritrade Trust Company. TD Ameritrade Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transactions rules of ERISA.

Certain administrative and investment management functions are performed by officers or employees of the Company for which they receive no compensation from the Plan. Notes receivable from participants are also considered party-in-interest transactions.
