1. Description of the Plan

The following description of the Cedar Electronics Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Cedar Electronics Holding Corporation (the Company) established the Plan effective January 1, 2017. The Plan is a defined contribution plan covering substantially all employees of the Company, as defined in the Plan document. Generally for full-time employees, there is no service or age requirement to participate in the Plan. Employees that are part-time, seasonal or interns are not eligible to participate in the Plan, unless they complete 12 months of service with a minimum of 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated investment fund until changed by the participant.

The Plan is administered by the Cedar Electronics Corporation 401(k) Plan Committee (the Committee) that serves at the discretion of the Company's Board of Directors. The Committee is responsible for all matters, including, but not limited to, determining eligibility, rights to benefits, interpreting Plan documents and directing the Plan's trustee.

Contributions

Each year, participants may contribute up to the maximum allowed under the IRC limitations of their pretax annual compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan also allows participants to designate all or a portion of their deferrals as Roth contributions to the Plan on an after-tax basis.

The Plan provides for discretionary Company matching contributions for eligible participants. For the years ended December 31, 2019 and 2018, the Company elected to match 50% of the first 6% of eligible compensation that a participant contributed to the Plan.

Additionally, the Plan provides for discretionary Company profit sharing contributions to the Plan as approved by the Company's Board of Directors. Participants must have completed one year of service and be employed on the last day of the Plan year in order to be eligible to receive an allocation of any discretionary Company profit sharing contributions. Allocations are based on a ratio of each participant's compensation as it bears to total compensation of all eligible participants. The Company did not make any discretionary Company profit-sharing contributions to the Plan for the years ended December 31, 2019 and 2018.

Contributions are subject to certain IRC limitations.

Participants may direct all their contributions among one or more funds offered by the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

Each participant's account is credited with the participant's contributions and any discretionary Company matching contributions, as well as allocations of (a) any discretionary Company profit sharing contributions and (b) Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one outstanding loan at any given time. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Interest rates on loans outstanding range from 3.25% to 6.50%. Principal and interest are paid ratably through payroll deductions over a term not exceeding five years or for loans used for the purchase of a primary residence, a longer term may be granted.

Payment of Benefits

On separation of service due to death, disability, termination of service, attainment of age 59½ or retirement, a participant will generally receive the value of their vested interest in his or her account in the form of a lump-sum amount or may elect to rollover their account to another entity. Installment payments are only permitted for required minimum distributions. If the participant's vested interest in the Plan is less than $5,000, a mandatory lump-sum distribution may be made to the participant.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in any discretionary Company matching contributions and discretionary Company profit sharing contributions is based on years of continuous service, as follows:

Years of Service	Vested (%)
Less than 1	-
1	25
2	50
3 or more	100

Forfeited Accounts

At December 31, 2019 and 2018, forfeitures were de minimis to the financial statements. Forfeitures of non-vested Company contributions will generally be used to pay administrative expenses or to reduce future Company contributions. For the years ended December 31, 2019 and 2018, $7,260 and $10,980 were used to reduce Company contributions, respectively. There were $23,830 of

unused forfeitures at December 31, 2019 and there were no unused forfeitures at December 31, 2018.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan. Any expenses paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable and requested distributions from participants are charged directly to the participant's

account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2018-13, *Fair Value Measurements Topic (820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 eliminates certain disclosures, including the disclosure related to transfers between Level 1 and 2 investments, the valuation policies for Level 3 measurements and, for nonpublic entities, the change in the Level 3 investments' unrealized gains and losses included in earnings. This ASU also amends certain disclosures, including disclosing purchases, sales and transfers for Level 3 investments instead of the Level 3 roll-forward. For investments in certain entities that calculated net asset value, or NAV, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the reporting entity or announced the timing publicly. If the timing is unknown, the reporting entity shall disclose that fact. The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. ASU 2018-13 is effective for periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact of this ASU on the Plan's financial statements.

Subsequent Events

The Plan and management have evaluated events and transactions that occurred between December 31, 2019 and October 14, 2020, which is the date the financial statements were available to be issued. There were no subsequent events to be reported other than the following:

COVID-19

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus (the COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Because the values of the Plan’s individual investments have, and will, fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan’s liquidity cannot be determined at this time.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000

- Increase the available loan amount, as described in Note 1, to the lesser of $100,000 or 100% of the participant's vested account balance
- Extend the period for loan repayments if applicable, up to one year
- Suspend required minimum distributions for 2020

3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies – These are valued at the daily closing prices, as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Money Market Fund - The money market fund held by the Plan is a government money market fund. The fund seeks to maintain a constant NAV of $1 per share by investing in high-quality, U.S. dollar denominated money market securities issued by the U.S. government and its agencies and instrumentalities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments:

December 31, 2019

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 18,824,306	$ -	$ -	$ 18,824,306
Money market funds	23,830	-	-	23,830
Investments, at fair value	$ 18,848,136	$ -	$ -	$ 18,848,136

December 31, 2018

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 18,246,445	$ -	$ -	$ 18,246,445
Investments, at fair value	$ 18,246,445	$ -	$ -	$ 18,246,445

4. Information Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2019 and 2018 and for the year ended December 31, 2019. Accordingly, the Plan's trustee, Wells Fargo Bank, N.A., has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

a. Investments and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018

b. Investment income, other income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019

c. The Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements.

5. Fully Benefit-Responsive Investment Contract

The Plan held an interest in a fully benefit-responsive group annuity investment contract with Standard Insurance Company for the years ended December 31, 2019 and 2018. Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Standard Insurance Company is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity investment as the group annuity investment is fully benefit-responsive. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract plus interest, as determined by Standard Insurance Company quarterly, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfers of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a quarterly basis for resetting.

The contract value of the investment contract at December 31, 2019 and 2018 was $2,566,280 and $2,684,328, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan and (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

7. Related-Party and Party-in-Interest Transactions

Certain employees of the Company provide administrative services to the Plan. Employees are not paid by the Plan for their services.

Wells Fargo Bank, N.A. receives revenue from certain investment funds for services Wells Fargo Bank, N.A. provides to the funds. This revenue is used to offset certain amounts owed to Wells Fargo Bank, N.A. for its administrative services to the Plan. When the revenue received by Wells Fargo Bank, N.A. exceeds the amount owed under the Plan, Wells Fargo Bank, N.A. remits the excess to the Plan. The revenue is then used to offset all or a portion of the costs of recordkeeping and administration and investment advisory fees related to the Plan. The amount is included in other income on the statement of changes in net assets available for benefits.

8. Tax Status

The Plan adopted a prototype plan document from USI Consulting Group, which received an opinion letter from the Internal Revenue Service (IRS) on March 31, 2014 stating that the prototype plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
