CATALENT PHARMA SOLUTIONS, LLC PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of the Catalent Pharma Solutions, LLC Pension Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a complete description of the Plan’s provisions.

General: The Plan is a non-contributory defined benefit pension covering substantially all employees hired prior to December 31, 2002. The Plan provides for disability, retirement and death benefits to participants in proportion to an individual’s compensation. The plan sponsor’s funding policy is to contribute, at a minimum, the amount necessary to meet the funding standards required under Section 412 of the Internal Revenue Code but no more than the maximum tax deductible amount under Section 404 of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and has met the ERISA minimum funding requirements.

Effective December 31, 2002, the Plan was frozen and there has been no further accrual of benefits under the Plan. Participants with accrued benefits at that date continue to participate in the Plan; however, no new participants may enter the Plan.

The Plan is a result of the spin-off due to the sale of Pharmaceutical Technologies and Services from Cardinal Health, Inc. to Catalent Pharma Solutions, Inc. (the “Company” or “Plan Sponsor”).

The Plan’s trustee is Comerica Bank and Trust, N.A. (Comerica). Administrative expenses may be paid by the Company or by the Plan.

Eligibility: Prior to December 31, 2002, employees became eligible on January 1 or coinciding with the completion of 1,000 hours of service during a twelve-month period.

Vesting: A participant is credited with one year of continuous service upon completion of 1,000 hours during a plan year. A participant becomes 20% vested in the Plan after three years of service. Each year of service increases vesting by 20%. A participant who has completed seven years or more of continuous service with the Company is deemed fully vested in the Plan.

Retirement Benefits: Retirement benefits were determined under the formulas specified in the Plan, which becomes a payable equal to the following (a) plus (b) minus (c):

- (a) 1% of the participant’s average compensation times credited service.
- (b) 0.5% of the participant’s average compensation in excess of covered compensation, times credited service to a maximum of 35 years.
- (c) The participant’s deferred monthly benefit purchased or distributed under the prior plan, if any; and that provided under the Plan of a foreign subsidiary or affiliate, if based on employment included in credited service of this Plan.

Normal retirement age is attained once the participant reaches the age of 65 and has completed five years of service, as defined by the Plan; however, a participant may elect early retirement service or if the participant’s age plus credited service equals or exceeds 75. The Plan provides certain benefits to disabled participants and certain benefits to spouses of vested participants who died prior to retirement.

Administrative and Investment Management Expenses: The Plan’s trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, credit, liquidity, and overall market volatility risks. Due to the risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Valuation of Investment: Plan investments are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability.

The accompanying Statements of Changes in Net Assets Available for Plan Benefits present net appreciation/depreciation in fair value of investments, which includes unrealized gains and losses on investments held at December 31, 2019 and 2018, realized gains and losses on investments sold during the years then ended and management and operating expenses associated with the Plan's investments.

Security transactions are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Payments of Benefits: Benefit payments to participants are recorded upon distribution.

NOTE 3 – FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The funding policy shall fix a minimum and a maximum contribution for each year. The Company satisfied the minimum funding requirements under ERISA for the years ended December 31, 2019 and 2018.

NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. The Plan provides normal retirement benefits at the normal retirement age, which is the later of age 65 or completion of five years of service and has provisions for early retirement, death and disability benefits. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Aon Hewitt Associates, the Plan's actuary, estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2018 is as follows:

Vested benefits:	
Participants currently in payment status	\$ 19,368,082
Other participants	<u>11,538,705</u>
Total vested benefits	30,906,787
Nonvested benefits	<u>27,753</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 30,934,540</u></u>

The changes in the actuarial present value of accumulated plan benefits are as follows:

	<u>2018</u>
Actuarial present value of accumulated plan benefits as of December 31, 2017	\$ 32,191,074
Interest accumulation	1,781,232
Benefits paid	(2,314,449)
Assumption changes	(1,088,555)
Other changes	<u>365,238</u>
	<u>(1,256,534)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2018	<u><u>\$ 30,934,540</u></u>

(Continued)

NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The significant actuarial assumptions used in the December 31, 2018 valuation are:

Investment return	6.00%
Retirement age	Retirements are assumed to occur at various rates from age 55 to age 65
Mortality basis	Pri-2012 table projected generationally from 2012 with the MP-2019 improvement scale

The change in actuarial assumptions was attributed to a change in the mortality improvement scale from RP 2014 table projected generationally from 2006 with the MP-2017 improvement scale at December 31, 2017 to the Pri-2012 table projected generationally from 2012 with the MP-2019 improvement scale at December 31, 2018. The change in actuarial assumptions was also attributed to a change in the interest rate from 5.75% as of December 31, 2017 to 6.00% as of December 31, 2018.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2019 has not yet been completed.

NOTE 5 – INVESTMENTS CERTIFIED BY TRUSTEE (UNAUDITED INFORMATION)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and net appreciation (depreciation) in the fair value of investments, interest and dividends were certified as complete and accurate by Comerica Bank and Trust, N.A. (the "Trustee") as of December 31, 2019 and 2018 and for the years then ended and were not subjected to any auditing procedures performed by the independent public accountants.

NOTE 6 – FAIR VALUE MEASUREMENTS

A fair value hierarchy has been established which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Three levels of inputs are described below that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

December 31, 2019 and 2018

NOTE 6 – FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Common Stock: The fair value of common stock is determined by obtaining quoted prices from a nationally recognized exchange (Level 1 inputs).

Collective trusts: Participation units of collective trusts are stated at the reported redemption values from the investment managers on the last business day of the Plan year based on the estimated net asset value per unit of the investments. The collective trusts are considered to have readily determinable fair values as the redemption values are published on a website accessible to the investor and transactions can be executed in a timeframe of a month or less (Level 2).

Exchange Traded Funds: The fair values of exchange traded funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1).

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1).

The following table sets forth the plan investment assets at fair value by level within the fair value hierarchy as of December 31, 2019:

	Fair Value Measurements at December 31, 2019 Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds	\$ 6,470,992	\$ -	\$ -	\$ 6,470,992
Credit Bond	-	-	-	-
Collective Trust Funds	-	13,486,171	-	13,486,171

Total	<u>\$ 18,110</u>	<u>\$ 35,070,701</u>	<u>\$ -</u>	<u>\$ 35,088,811</u>

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. A portion of the Plan's investments include shares of a collective trust fund that is issued by the Trustee. Transactions of the Plan in this collective trust as well as any expenses paid for by the Plan directly or indirectly qualify as exempt party-in-interest transactions.

NOTE 8 – FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 3, 2015 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal or state taxing authorities. The plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 9 – PLAN TERMINATION

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to penalties set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency), up to the applicable limitations (discussed below).
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (d) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations as of the date of a plan's termination.

NOTE 10 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events for recognition and disclosure through October 12, 2020, the date which the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus surfaced in Wuhan, China, and has spread around the world, with resulting business and social disruption. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The ultimate impact of the coronavirus on the Plan and the Company will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions required to contain the coronavirus or treat its impact, among others. As of October 12, 2020, the impact on the financial markets has not had a significant impact in the fair value of investments of the Plan since December 31, 2019.

Current IRC section 417(e) table

Decrement Timing

Middle of year decrements with 100% retirement occurring at beginning of year.

Surviving Spouse Benefit

It is assumed that 80% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$225,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
