DESCRIPTION OF PLAN

The following description of the Big Bus Tours Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan, as established August 1, 2018, was created to provide retirement benefits for eligible union employees, as defined, of Taxi Tours, Inc. (the "Company"). Eligible employees are defined as those who attained the age of 21, completed one year and 1,000 hours of service, except non-resident aliens. Participants enter the plan immediately upon fulfilling eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a defined contribution plan, pursuant to Section 401(k) of the Internal Revenue Code ("IRC"), and provides for the following contributions, which are to be maintained in separate accounts for each participant:

(a) Salary Deferral Contributions – a participant may elect to, on a pre-tax basis, and after-tax basis, or a combination of two, defer and contribute to the Plan each year amounts not to exceed the lesser of 100 percent of compensation, as defined, or $18,500 ($24,500 for participants over the age of 50), adjusted periodically for cost of living increases.

(b) Employer Discretionary Contribution – to be made at the discretion of the Company. These contributions are allocated based on the proportion that the total compensation, as defined, of each participant bears to the total compensation of all participants. Employer discretionary contribution during the period ended December 31, 2018 was $1,725.

(c) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Investment Options: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with (a) the participant's elective contribution, (b) the employer discretionary or other contribution, and (c) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions or withdrawals, (b) an allocation of the Plan's investment losses and value depreciation, and (c) Plan administrative fees and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawal upon reaching age 59½.

Administrative Expenses: Certain administrative expenses are paid by the Company.

Vesting: Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts plus actual earnings thereon. Vesting of Employer Discretionary Contribution accounts for each participant is based on years of service, fully vested after 3 years of service.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies. See Fair Value Measurement footnote for discussion of fair value measurement.

Purchases and sales of investments are recorded on the trade date. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through February 22, 2020, the date the financial statements were available to be issued.

New Accounting Pronouncements: During 2016, the Plan early adopted Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which exempts investments measured using the net asset value ("NAV") practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance required retrospective application.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 (Continued) – If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following in a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Units of Common/Collective Funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Shares of Pooled Separate Accounts: Valued at the total NAV utilized as a practical expedient of underlying investments held by the trust at year-end.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
December 31, 2018				
Units of common/collective funds	$ -	$ 312	$ -	$ 312
Shares of pooled separate accounts	-	9,190	-	9,190
Total investments at fair value	$ -	$ 9,502	$ -	$ 9,502

INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN OF THE PLAN

All investment and investment income information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as being complete and accurate by Principal, the custodian.

PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of common/collective funds and shares of pooled separate accounts managed by Principal, the Plan custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal for period from August 1, 2018 (date of inception) to December 31, 2018 were $55. Certain administrative expenses incurred by the Plan are paid by the Company. Additionally, certain employees of the Company provide various services to the Plan. These employees are not compensated for these services from the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

TAX STATUS

The Plan follows a non-standardized form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2014 from the Internal Revenue Service as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

DESCRIPTION OF PLAN

The following description of the Big Bus Tours Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan, as established August 1, 2018, was created to provide retirement benefits for eligible union employees, as defined, of Taxi Tours, Inc. (the "Company"). Eligible employees are defined as those who attained the age of 21, completed one year and 1,000 hours of service, except non-resident aliens. Participants enter the plan immediately upon fulfilling eligibility criteria. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a defined contribution plan, pursuant to Section 401(k) of the Internal Revenue Code ("IRC"), and provides for the following contributions, which are to be maintained in separate accounts for each participant:

(a) Salary Deferral Contributions – a participant may elect to, on a pre-tax basis, and after-tax basis, or a combination of two, defer and contribute to the Plan each year amounts not to exceed the lesser of 100 percent of compensation, as defined, or $19,000 ($25,000 for participants over the age of 50), adjusted periodically for cost of living increases.

(b) Employer Discretionary Matching Contributions – to be made in an amount equal to a percentage, to be determined by the Plan sponsor, of the participant's deferral, not to exceed a percentage, to be determined by the Plan sponsor, of the participant's eligible compensation. Employer discretionary matching contributions for the year ended December 31, 2019 were $8,448.

(c) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Investment Options: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with (a) the participant's elective contribution, (b) the employer discretionary or other contribution, and (c) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions or withdrawals, (b) an allocation of the Plan's investment losses and value depreciation, and (c) Plan administrative fees and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawal upon reaching age 59½.

Administrative Expenses: Certain administrative expenses are paid by the Company.

Vesting: Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts plus actual earnings thereon. Vesting of Employer Discretionary Contribution accounts for each participant is based on years of service, fully vested after 3 years of service.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies. See Fair Value Measurement footnote for discussion of fair value measurement.

Purchases and sales of investments are recorded on the trade date. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer Contributions Receivable: Employer contributions receivable represent employer discretionary matching contributions for the year ended December 31, 2019. The Plan recorded corrective matching employer contributions in the amount of $5,169 for certain participants who did not receive matching contributions for the year ended December 31, 2019. The balance of corrective contributions as of December 31, 2019 was $6,218.

Employer discretionary matching contributions made during the year ended December 31, 2019 funded by the Company during 2020 was $132.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following in a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Units of Common/Collective Funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Shares of Pooled Separate Accounts: Valued at the total NAV utilized as a practical expedient of underlying investments held by the trust at year-end.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
December 31, 2019				
Units of common/collective funds	$ -	$ 3,821	$ -	$ 3,821
Shares of pooled separate accounts	-	71,250	-	71,250
Total investments at fair value	$ -	$ 75,071	$ -	$ 75,071

	Level 1	Level 2	Level 3	Total
December 31, 2018				
Units of common/collective funds	$ -	$ 312	$ -	$ 312
Shares of pooled separate accounts	-	9,190	-	9,190

PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of common/collective funds and shares of pooled separate accounts managed by Principal, the Plan custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal for the year ended December 31, 2019 were $876. Certain administrative expenses incurred by the Plan are paid by the Company. Additionally, certain employees of the Company provide various services to the Plan. These employees are not compensated for these services from the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

TAX STATUS

The Plan follows a non-standardized form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2014 from the Internal Revenue Service as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

SUBSEQUENT EVENTS

The extent of the impact of the COVID-19 outbreak on the financial performance of a Plan's investments will depend on future developments, including the duration and severity of the outbreak and its impact on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.
