Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Cooper Tire & Rubber Company Hourly Employees' Retirement Plan – Texarkana (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Northern Trust Company, the trustee, and by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the custodian for certain plan assets, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee and custodian hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustee and custodian as of December 31, 2019 and 2018 and for the years then ended, that the information provided to the Plan Administrator by the trustees and custodian is complete and accurate.

Cooper Tire & Rubber Company
Hourly Employees' Retirement Plan – Texarkana
Notes to Financial Statements
December 31, 2019 and 2018

1. Description of Plan

The Cooper Tire & Rubber Company Hourly Employees' Retirement Plan – Texarkana (the "Plan"), along with several other plans (the "Plans") (see below), is included in the Employees' Retirement Trust (the "Trust"). The following brief description of the Plan provides only general information. Participants should refer to their specific plan agreement for a more complete description of the Plan's provisions.

General

The Trust funding the Plans includes the assets of Cooper Tire & Rubber Company's (the "Company" or "Plan Sponsor") Hourly Employees' Retirement Plans as follows: Retirement Plan – Clarksdale, Retirement Plan – Findlay, and Retirement Plan – Texarkana, all here-in after referred to as the Plans and associated investments of. The Plans are defined benefit pension plans covering substantially all employees of the Company. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan entered a trust agreement with Northern Trust Company (the "Trustee") to act as trustee of the Plan's assets. The Plan also has an agreement with the Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the "Custodian") to act as a custodian for certain plan assets. The Trustee and Custodian administer and invest the Plan's assets and income for the benefit of the Plan's participants.

The Plan's participants may be eligible for unreduced monthly pension benefits upon attainment of 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Eligibility

All employees subject to the collective bargaining agreements between the Company and Local Union #752 of the United Steelworkers of America are eligible for participation in the Plan. The current collective bargaining agreement is effective until January 27, 2023.

Notes to Financial Statements (continued)
December 31, 2019 and 2018

1. Description of Plan (continued)

Funding Policy/Contributions

The Plan is funded entirely through contributions made by the Company. The Company contributes such amounts as are deemed necessary on an actuarial basis to provide the Trust with assets sufficient to meet the benefits to be paid to the Plan's participants. The contributions are designed to fund current service costs and to fund prior service costs over periods of ten to twenty years. The Company's contributions for 2019 and 2018 met the minimum funding requirements of ERISA.

Vesting

Participants are vested after five years of continuous credited service. If participants are hired after age 60, they may receive a monthly pension benefit if they later become vested.

Pension Benefits

Participants are entitled to monthly pension benefits equal to the amount specified in the plan agreement multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Termination of the Plan

While the Company has not expressed any intent to terminate the Plan or its contributions thereto, it has the right to do so at any time, subject to the provisions of ERISA. In the event of partial or total termination of the Plan, participants' benefits become non-forfeitable.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

Notes to Financial Statements (continued)
December 31, 2019 and 2018

1. Description of Plan (continued)

Termination of the Plan (continued)

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

- a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
- b. Other vested benefits insured by the PBGC as discussed below.
- c. All other vested benefits.
- d. All non-vested benefits.

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments

The Plan's investments are stated at fair value, which equals the quoted net asset values thereof on the last business day of the Plan's year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded as of the ex-dividend date.

Administrative Expenses

The administrative expenses of the Plan are paid by the Company and are excluded from these financial statements.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Estimates and assumptions are most significantly utilized in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

New Accounting Pronouncement

In February 2017, the FASB issued ASU No. 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (ASU 2017-06). ASU 2017-06 changes reporting and disclosure requirements for plans with a master trust and eliminates redundant disclosures for plans with 401(h) accounts. ASU 2017-06 is effective for the fiscal periods beginning after December 15, 2018 with early adoption permitted. Upon adoption ASU 2017-06 shall be applied retrospectively to all periods presented. The Plan adopted this Update for the 2019 plan year. There was no impact on the financial statements.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Cooper Tire & Rubber Company
Hourly Employees' Retirement Plan – Texarkana
Notes to Financial Statements (continued)
December 31, 2019 and 2018

3. Fair Value Measurements (continued)

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value in the Plan. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Collective Trust Funds: The fair value of the investments in these categories have been estimated using the net asset value per share. The net asset value ("NAV") of these accounts is based on the market value of its underlying investments. The NAV is not a publicly quoted price in an active market.

Pooled Separate
Accounts:

Valued using the NAV per unit provided by the administrator of the fund. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is not a publicly quoted price in an active market

Cooper Tire & Rubber Company
Hourly Employees' Retirement Plan – Texarkana
Notes to Financial Statements (continued)
December 31, 2019 and 2018

3. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, the collective trust funds and pooled separate accounts that were measured at the NAV per share (or its equivalent) are not classified in the fair value hierarchy. As a result there are no investments required to be classified in the fair value hierarchy at December 31, 2019 and 2018.

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it is probable those investments being sold at amounts different from their reported net asset value per share based on redemption restrictions, if any. All investments in the Master Trust in 2019 and 2018 are included in the table below.

Investment Category	2019 Fair Value	2018 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period Notice
Collective Trust Funds:					
Equity ^(a)	\$225,066,290	\$171,356,336	\$ –	Daily	1 Day
Fixed income ^(b)	268,725,804	241,959,916		Daily	1 Day
Real estate ^(c)	31,269,233	26,840,051		Daily	1 Day

- a) Collective trust funds classified as Equity primarily invest in U.S. and non-U.S. securities in both small and large capitalization markets.
- b) Collective trust funds classified as Fixed income primarily invest in debt securities, U.S. treasury securities, and fixed income securities.
- c) Collective trust funds classified as Real estate funds are invested in global real estate securities.

In 2019 and 2018, all investments outside of the Master Trust are direct filing entities. Total investments in direct filing entities related to this plan are \$1,932,812 and \$4,800,530 at December 31, 2019 and 2018, respectively.

4. Investments

Certain investment information disclosed in the accompanying financial statements, including certain investments held at December 31, 2019 and 2018, net appreciation (depreciation) in fair value of investments, and investment fees and expenses for the years ended December 31, 2019 and 2018, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee and Custodian. Such information has not been examined by independent auditors.

5. Master Trust Information

The Plan's assets are invested in the Cooper Tire & Rubber Company Master Retirement Trust (the "Master Trust") held by the Trustee under a trust agreement effective June 1, 2017. In the Master Trust, the Plan's assets are commingled with the assets of various other Company employee benefit plans. The Plan's investments represent approximately 54% of the total assets held by the Master Trust at December 31, 2019 and 2018. Investment income and expenses are allocated to the Plans based upon their pro-rata share of the net assets of the Master Trust.

The following table presents the fair values of investments and accrued investment income for the Trust, which was certified by the Trustee as of December 31:

	<u>2019</u>	<u>2018</u>
Assets:		
Investments, at fair value:		
Collective trust funds	\$ 525,061,327	\$ 440,156,303
Net assets of Master Trust	\$ 525,061,327	\$ 440,156,303
Collective trust funds	\$ 283,618,072	\$ 238,050,417
Net assets in Master Trust in the Plan	<u>\$ 283,618,072</u>	<u>\$ 238,050,417</u>

Investment income for the Master Trust, which was certified by the Trustee, is as follows for the years ended December 31:

	<u>2019</u>	<u>2018</u>
Interest and dividend income	\$ 173,007	\$ 63,785
Net appreciation (depreciation) in fair value of investments determined at quoted market prices	84,722,934	(23,952,944)

Notes to Financial Statements (continued)

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 8, 2017, stating that the written form at the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although amended since receiving the determination letter, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party Transactions

Certain Plan investments are managed by the Trustee and the Custodian; therefore, these transactions qualify as party-in-interest transactions. There have been no known prohibited transactions with a party-in-interest.

8. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) terminated employees with vested benefits, (c) beneficiaries of employees who have died, and (d) present employees or their beneficiaries. Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

8. Actuarial Present Value of Accumulated Plan Benefits (continued)

An actuary from Principal Financial Group estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in performing the valuations include: (1) interest rate of 4.75% and 6.25% for 2019 and 2018, respectively; (2) and mortality based on the Pri-2012 Blue Collar base rate mortality table using the Principal Mortality Improvement Scale in 2019 and the IRS Prescribed Mortality – Static Annuitant and IRS Prescribed Mortality – Static Non-annuitant in 2018; (3) retirement age based on a schedule of rates dependent on age in 2019 and 2018; (4) employee turnover calculated based on 2003 Society of Actuaries Small Plan Age Table multiplied by 60% in 2019 and 2018; (5) disability pension is based upon 100% of the rates from the 1985 Pension Disability Table in 2019 and 2018; and (6) 85% of the population was considered to be married in 2019 and 2018.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits (see Note 1).

The actuary has determined the present value of the accumulated plan benefits to be as follows:

	December 31,	
	2019	2018
Actuarial present value of accumulated plan benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 164,381,931	\$ 143,354,536
Other participants	97,485,883	72,227,788
Total vested benefits	261,867,814	215,582,324
Non-vested benefits	7,929,104	6,151,868
Total actuarial present value of accumulated plan benefits	\$ 269,796,918	\$ 221,734,192

8. Actuarial Present Value of Accumulated Plan Benefits (continued)

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	December 31,	
	2019	2018
Actuarial present value of accumulated plan benefits as of January 1, 2019 and 2018	\$ 221,734,192	\$ 216,967,175
Increase (decrease) during year due to:		
Benefits paid	(14,185,376)	(13,593,115)
Change in discount period/rate	13,421,812	13,142,101
Benefits accumulated	4,668,553	5,167,726
Change in assumptions	42,198,914	50,305
Plan amendment	1,958,823	0
Actuarial present value of accumulated plan benefits as of December 31, 2019 and 2018	<u>\$ 269,796,918</u>	<u>\$ 221,734,192</u>

The increase in the change in assumptions noted above is due to the mortality table that was used in 2019. In October 2019, the Society of Actuaries, an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales, released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the Plan Sponsor.

9. Subsequent events

The Plan has evaluated subsequent events through October 15, 2020, the date the financial statements were available to be issued, and has determined there are no subsequent events that require disclosure except for the following.

As a result of the spread of the COVID-19 coronavirus during 2020, economic uncertainties have arisen as of the date of the financial statements. The extent of the impact of COVID-19 on the Plan's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, and the impact on the Plan Sponsor, participants and investments, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Plan's financial condition or results of operations is uncertain.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.60. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.60 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit and basis	50% of active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum immediately. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age. The lump sum benefit is based on the applicable mortality projected to decrement and the plan's funding target using non-stabilized interest rates, as prescribed.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target. § The portion based on the plan's definition of accrued benefit. § The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- ξ any retiree benefit index or floor
- ξ amounts for HCEs who were previously restricted
- ξ an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

RETIREMENT PLAN
EIN 34-4297750 Plan No. 007
Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on RP-2006 blue collar mortality table projected to future years with historical and assumed mortality improvement (MI) rates using the Principal Mortality Improvement Scale (PFG2014-10). RP-2006 is a baseline mortality rates table underlying the SOA RP-2014 experience study as of central year of the experience data for 2004-2008 years. The Principal Mortality Improvement scale is based on the SOA MI model RPEC_2014_v2018 and Principal-selected assumption set published November 2018. For detailed rationale please see full Mortality documentation.
Interest rate used to value liabilities	6.25% The expected long-term interest rate used to value ASC 960 liabilities is developed as a weighted average based on the target asset allocation of the plan.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 4.05%/4.45%/5.35%.

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 4.05%/4.45%/5.35%. For details, see Corporate AA yield in Figure 4 of Long-Term Capital Market Assumptions link.

Mortality

IRS Prescribed lump sum mortality for 2018 and 2019. Future years are projected to decrement date with SOA mortality improvement scale MP-2017.

This assumption reflects current law as provided by the IRS.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 COOPER TIRE & RUBBER COMPANY TEXARKANA REPRESENTED EMPLOYEE
 RETIREMENT PLAN
 EIN 34-4297750 Plan No. 007

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Part V - Summary of Plan Provisions

COOPER TIRE & RUBBER COMPANY TEXARKANA REPRESENTED EMPLOYEE
RETIREMENT PLAN

EIN 34-4297750 Plan No. 007

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report is based on the collective bargaining agreement as in effect on 01/01/2019.

Plan eligibility

Class All employees subject to the collective bargaining agreements between Cooper Tire & Rubber Company and local union # 752 of the United Steelworkers of America.

Entry date Date of Hire.

After January 31, 2012, no employee shall become an active participant and no inactive participant or former participant shall again become an active participant. There are certain situations that would allow an Inactive participant or former participant to become an active participant again that are disclosed in the plan document.

Normal retirement benefit

Age Attained age 65 and completion of five years of service.

Form Monthly annuity payable as a five year certain and continuous life.

Amount (accrued benefit) The accrued benefit for any employee is the respective pension amount in effect at retirement multiplied by the CCS at retirement. Under the current agreement, no benefit will accrue for the period from April 6, 2009 to April 5, 2010.

Pension amount	Effective date
\$51.50	03-04-2002
\$54.50	04-10-2005
\$55.50	03-01-2007
\$56.50	03-01-2008

RETIREMENT PLAN
EIN 34-4297750 Plan No. 007

Early retirement benefit

Eligibility	(a) Attainment of age 55 and ten years of service. (b) Completion of 30 years of service.
Form	Same as normal retirement benefit.
Amount	- Those eligible as in (a) above may elect either the accrued benefit reduced by four-tenths of 1% (0.004) for each month prior to age 62 that payments commence or the unreduced accrued benefit beginning at age 62. - To those eligible under (b) the accrued benefit commencing at retirement is payable. - To those eligible under (b) and retiring over age 55, the Accrued Benefit is payable, with an added supplement (according to tables based on age and service) for all months prior to age 62, or earlier commencement of Social Security benefits. The amount of the supplement is reduced if the retired participant has annual earned income in excess of the limitations in the labor agreements.

Termination benefit

Eligibility	5 years of service and not yet eligible for early retirement benefit.
Amount	The accrued benefit is payable for life commencing at age 65. The participant may elect early commencement of an actuarially reduced benefit after attaining age 55. A lump sum option is also available equal to the greater of: (1) the actuarial equivalent of the accrued benefit as defined in the plan document, or (2) an amount equal to an average week's pay times CCS at the time of termination. The product in (2) is increased by a factor of 1.25 if CCS is 10 to 15 years; 1.5 if CCS is 15 to 20 years and 2.0 if CCS exceeds 20 years.

Disability benefit

Eligibility	Disablement prior to age 65, which is determined to be total and permanent.
Service	Completion of ten years of service.
Form	Monthly annuity payable for life.
Amount	The accrued benefit commencing the first of the month following five months of disablement. The benefits are guaranteed for 60 months following the disability retirement of a participant over age 55 or the 60 months following the attainment of age 55 by a disability retiree.

RETIREMENT PLAN
EIN 34-4297750 Plan No. 007
Plant closure (special vesting)

Eligibility	Termination due to a plant closure (defined in the labor agreement).
Service	Completion of 30 years of service.
Form	Monthly annuity payable for life.
Amount	The monthly benefit at termination is determined by multiplying \$16.50 by the CCS.

Pre-retirement survivor annuity

Eligibility	Any married participant who is accumulating service and is vested.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If the participant is eligible for early retirement at his death, the monthly benefit is fifty percent of the accrued benefit as payable in a qualified joint and 50% survivor form (with the spouse as survivor) on the day of the participant's death. If the participant is not eligible for early retirement at his date of death, the monthly benefit is based on the accrued benefit monthly amount at the participant's date of death and is reduced by the qualified joint and 50% survivor option factor for the ages of the participant and spouse as of the earliest date the participant could have elected to retire. Fifty percent of the optional benefit is payable to the spouse for life commencing at the date of presumed early retirement eligibility.

Post-retirement death benefit

Amount	The spouse of a retired participant receives \$5,000 at the death of the participant. The benefit is not paid to those receiving benefits due to a deferred vested termination.
---------------	---

Definitions

Continuous credited service (CCS)	All years of service from the participant's date of employment, to the earlier of termination, or retirement, with fractional years computed to the completed 1/12 of a year. Periods of layoff are included in benefit service if recalled before the expiration of two years from layoff. Under the current agreement, CCS will not accrue for purposes of increasing the accrued benefit for the period from April 6, 2009 to April 5, 2010.
Vesting	Participants are vested after five years of service.
