Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

Effective January 1, 2020, the Plan adopted safe harbor matching provisions for all the companies participating in the Plan whereby the Company makes matching contributions equal to 100% of participants' elective deferral contributions up to 3% of compensation, plus 50% of their elective deferral contributions from 3% up to 5% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, any contributions by the Company, as well as allocations of Plan earnings. The Company's discretionary profit sharing contributions are allocated pro rata based on the participant's compensation in relation to the compensation of all participants employed at the end of the Plan year with 1,000 hours of service, as defined. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in voluntary contributions and qualified non-elective contributions, plus actual earnings thereon. The Company matching contributions and discretionary profit sharing contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Effective January 1, 2020, participants will be immediately 100% vested in Company safe harbor contributions.

Notes receivable from participants

Participants may borrow against their account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable terms range from 1 - 5 years, or longer for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The loan interest rate is 1% over the prime rate, as defined. No participant may have more than two outstanding loans. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon death, disability, retirement or termination of services, a participant's voluntary contributions plus the vested amount of Company matching contributions, the vested amount of the Company's non-elective contributions, and earnings thereon are paid in a single lump sum payment as provided by the Plan. If the participant's account is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000,

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

Forfeited accounts

At December 31, 2019 and 2018, forfeited non-vested accounts totaled \$86,252 and \$29,490, respectively. These accounts will be used to pay expenses of the Plan or to reduce future Company contributions to the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees and insurance companies. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

3. Information Certified by the Trustees and Custodians

In accordance with 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Great-West Trust Company, LLC (Great-West Trust), Great-West Life & Annuity Insurance Company (Great-West), Prudential Bank & Trust, F.S.B. (Prudential) and Prudential Retirement Insurance and Annuity Company (Prudential Retirement).

Certain information disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2019 and 2018, investment income (loss) and interest earned on notes receivable from participants for the years ended December 31, 2019 and 2018, was obtained from information supplied to the Plan administrator and certified as complete and accurate by Great-West Trust and Great-West as of December 31, 2019 and 2018 and for the year ended December 31, 2019 and the period from February 1, 2018 to December 31, 2018 and by Prudential and Prudential Retirement for the period from January 1, 2018 to January 31, 2018. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements.

4. Transfer of Assets

Effective September 29, 2017 the Plan was amended to accept direct rollovers of notes receivable from participants from the qualified plan of a participant's former employer. During 2019 and 2018 direct rollovers of notes receivable from participants totaling \$93,204 and \$23,607, respectively, were transferred to the Plan and are included in transfers on the 2019 and 2018 statements of changes in net assets available for benefits.

On October 31, 2018, the Company acquired Zeno Digital Solutions, LLC (Zeno). Prior to the acquisition the employees of Zeno were participants in the Zeno Imaging 401(k) & Profit Sharing Plan (Zeno Plan). The assets related to the employees of Zeno who became employees of the Company on the closing date were transferred from the Zeno Plan via trust-to-trust transfers. An aggregate of \$552,530 was transferred into the Plan during the year ended December 31, 2019 and is included in transfers on the statement of changes in net assets available for benefits.

As discussed in Note 1, the Company acquired the existing 401(k) plans of several companies. The Company merged the existing plans into the Plan during 2018. As a result of these mergers transfers of assets consisting of investments, notes receivable from participants and contributions receivable totaling \$5,513,905 were transferred to the Plan during 2018 and are included in

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

transfers of assets from other qualified plans on the 2018 statement of changes in net assets available for benefits.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the daily closing price as reported by the funds. The mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019:				
	Level 1	Level 2	Level 3	Total
Investments				
Mutual funds	\$ 19,841,804	\$ -	\$ -	\$ 19,841,804
	<u>\$ 19,841,804</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 19,841,804</u>

Assets at Fair Value as of December 31, 2018:				
	Level 1	Level 2	Level 3	Total
Investments				
Mutual funds	\$ 13,583,692	\$ -	\$ -	\$ 13,583,692
	<u>\$ 13,583,692</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,583,692</u>

6. Fully Benefit-Responsive Investment Contracts

During 2018, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Great-West totaling \$3,359,472 and \$2,573,010 at December 31, 2019 and 2018, respectively. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under terms of the Plan. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The crediting interest rate is based on a formula established by Great-West but may not be less than zero percent. The interest crediting rate is reset quarterly.

The Plan's ability to receive amounts due in accordance with the fully-benefit-responsive investment contract is dependent on the Great-West's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with Great-West. Such events include (1) a spin-off, (2) sale, (3) merger, or (4) termination of the contract. Upon occurrence of such events a market value adjustment or other withdrawal restriction may apply.

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

Either Great-West or the Company may terminate the contract for any reason subject to a notice period of 75 days. Upon termination of the contract a market value adjustment or other withdrawal restriction may apply. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or Great-West are probable of occurring.

7. Party In Interest Transactions

Certain Plan investments are managed by Great-West Trust and Great-West, trustee and custodian respectively, of the Plan. Therefore, these transactions qualify as party in interest.

Great-West Trust provided certain administrative services to the Plan pursuant to a service agreement between the Company and Great-West Trust. Great-West Trust received revenue from mutual fund service providers for services Great-West Trust provided to the funds. This revenue was used to offset certain amounts owed to Great-West Trust for its administrative services to the Plan.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

9. Tax Status

The Plan adopted a prototype non-standardized profit sharing plan with a cash or deferred arrangement sponsored by Great-West Trust. Great-West Trust has received an opinion letter dated March 31, 2014 from the IRS stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan and related trust is designed and operating in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Voluntary Correction Program

Due to a conversion to a new payroll system in 2017, certain computational and coding errors were identified relating to participant deferrals, Company contribution calculations, and the definition of compensation. Corrective contributions to participant accounts, including lost earnings, have been identified by the Company. The Company made a Voluntary Correction Program (VCP) submission to the IRS under the Employee Plans Compliance Resolution System (EPCRS) in 2019 outlining the foregoing operational issues and proposed resolution and corrective action. The estimate for the corrective contributions was based upon the Plan provisions and was limited by various IRC regulations. An estimate of \$69,920, including lost earnings, was recorded as other employer contributions receivable as of December 31, 2018, in the accompanying statements of net assets available for benefits. The final corrective contribution totaling \$65,982 was remitted by the Company and credited to participants' accounts in October 2019. Any differences in the estimated and final correction amount is included in employer contributions in the statement of changes in net assets for the year ended December 31, 2019. In September 2020, the Company received a compliance statement from the IRS stating that the IRS agreed with the Company's corrective actions and the Plan continues to retain tax favored status under the IRC.

12. Delinquent Employee Deferral Transmittals

During 2017, the Company failed to remit certain participant contributions in a timely manner. The Company identified eight instances totaling \$52,012 in which participant contributions were remitted to the Plan in violation of DOL regulations. The Company corrected the late contributions during 2019.

During 2016, the Company failed to remit certain participant contributions in a timely manner. The Company identified four instances totaling \$16,065 in which participant contributions were remitted to the Plan in violation of DOL regulations. The Company corrected the late contributions during 2019.

13. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2020, the date the financial statements were available to be issued.

Subsequent to year end, the World Health Organization officially declared the Coronavirus Disease 2019 (COVID-19) outbreak a global pandemic. During 2020, the financial markets experienced

Visual Edge Technology, Inc. 401(k) Savings and Retirement Plan

Notes to Financial Statements

significant volatility due to the COVID-19 pandemic. As a result, the Plan's investments have also incurred significant volatility in fair value since December 31, 2019. Such events also may adversely affect business and consumer confidence, generally, and the Company and its customers, and their respective suppliers and vendors.

During 2020, the Company experienced several rounds of employee lay-offs. The Company is currently evaluating whether a partial plan termination has occurred. A partial plan termination would fully vest all affected participants.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES Act) was enacted and signed into law. The CARES Act provides emergency economic relief in response to the COVID-19 pandemic. There are several key provisions of the CARES Act that affect retirement plans related to hardship distributions, participant loans and required minimum distributions. The Plan adopted the following provisions of the CARES Act: 1) Participants are permitted to take up to \$100,000 in "coronavirus-related distributions" by December 31, 2020; 2) Participants may borrow the lesser of \$100,000 (increase from \$50,000) or 100% (increase from 50%) of their vested account balance until 180 days after the enactment date of the CARES Act; 3) Participants may waive the required minimum distributions for 2020.
