GCS 401(K) Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note 1 – Description of Plan

The following description of the GCS 401(K) Plan "the Plan" provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective July 1, 1998. The Plan covers all employees excluding Independent Contractors of Geo Control Systems, Inc. (the Company) who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was most recently restated January 1, 2018 to incorporate an auto-enrollment provision.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined by the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at two percent (2%) of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Automatically enrolled participants have their deferral rate increase by one percent (1%) at the beginning of each plan year until their deferral rate reaches six percent (6%).

The Company makes a two percent (2%) discretionary non-matching contribution by pay period to each eligible employee (collective bargaining employees are excluded). The Company, also at its discretion, makes an annual matching contribution to certain eligible employees based on Project and Location. For the years ended December 31, 2019 and 2018, matching contributions to the plan were $ 135,496 and $ 91,687, respectively.

Participants Accounts

Each participant's account is credited with the participant's contribution, Company discretionary non-matching contribution, Company matching contributions, if applicable, and an allocation of Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, employer discretionary non-match contributions, match contributions, rollovers, plus actual earnings on those contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or fifty percent (50%) of the vested account balance. The loans are secured by the balance in the participant's account, and the loan interest rate is set at the prime rate, as defined. Principal and interest are paid ratably through payroll deductions or EFT from a checking account designated by the participant.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to $ 5,000, the amount may be automatically distributed in the form of Lump Sum Cash Payment or Rollover. In addition, the Plan allows for hardship distributions if certain criteria are met.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the GCS 401(k) Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of Fair Value Measurements.

The Plan's investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions as required by the Plan.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants on April 26, 2019. (See Note 10)

Benefit Payments

Benefits are recorded as paid.

Plan Costs

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid directly by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) of the fair value of investments. As of December 31, 2019, and 2018, these revenue-sharing payments to other service providers were $ 32,655 and $ 30,986, respectively.

Fees related to the administration of distributions and certain administrative fees related to investments are charged directly to the participant's account and are included as administrative Plan expenses in the financial statements. As of December 31, 2019, and 2018, the plan paid a total of $ 62,850 and $ 8,500 in administrative expenses for the year as reported on the statements of changes in net assets. These expenses are in addition to investment related expenses.

Subsequent Events

The Plan has evaluated subsequent events through **October 15, 2020**, the date the financial statements were available to be used.

On March 11, 2020 the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. This pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the Plan's various investment securities have incurred declines in fair value since December 31, 2019. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under **FASB ASC 820, *Fair Value Measurement*** are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities within active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018, respectively.

- Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- Pooled separate accounts "PSA" – Valued at the NAV of units of the fund, which is based on the estimated market value of the underlying investments less its liabilities.

- Collective investment trust funds "CIT**"** – Valued at the NAV of units of the fund, which is based on the estimated market value of the underlying investments less its liabilities.

- Self-directed brokerage account – These accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The following table details the Plan's investments at fair value by level within the fair value hierarchy, as of December 31, 2019 and 2018.

2019

	Fair Value	Level 1	Level 2	Level 3
Mutual funds	$ 3,593,252	$ 3,593,252	-	-
Self-directed brokerage	586,660	586,660	-	-
Collective investment trusts [(a)]	14,389,332	-	-	-
Pooled separate accounts [(a)]	3,436,069	-	-	-
Total	$ 22,005,313	$ 4,179,912	$ -	$ -

2018

	Fair Value	Level 1	Level 2	Level 3
Mutual funds	$ 2,286,849	$ 2,286,849	-	-
Self-directed brokerage	524,898	524,898	-	-
Collective investment trusts [(a)]	11,542,217	-	-	-
Pooled separate accounts [(a)]	2,469,022	-	-	-
Total	$ 16,822,986	$ 2,811,747	$ -	$ -

[(a)] In accordance with FASB ASU Subtopic 820-10 certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	2019 Fair Value	2018 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective Investment Trust [(b)]	$ 14,389,332	$ 11,542,216	$ -	Daily	Daily
Pooled Separate Accounts [(b)]	$ 3,436,069	$ 2,469,022	$ -	Daily	Daily

[(b)] The underlying assets in the Pooled Separate Accounts and Collective Investment Trusts consist of mutual funds and exchange traded funds and are quoted in an active market. Additionally, since the applicable Collective Investment Trusts and Pooled Separate Accounts file a Form 5500 as a Direct Filing Entity "DFE", the investment strategies of the CIT's & PSA's are not disclosed.

Note 4 – Investment Contract with Insurance Company

The Plan holds a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company, totaling $ 152,517 and $ 155,997 as of December 31, 2019 and 2018. Contributions are maintained in a general account; this account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract issuer is contractually obligated to repay the principal and interest at the specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed semi-annually for resetting. The contract cannot be terminated before the scheduled maturity date. Semi Annual Interest rates as of December 31 2019, and 2018 were as follows:

12/2019 – 1.90%; 11/2019-6/2019 – 1.75%; 5/2019-12/2018 – 1.8%;
11/2018-06/2018 – 1.75% and 5/2018-1/2018 – 1.70%

The Plan's ability to receive amounts due in dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Such events include the following:

1. amendments to the Plan documents (including complete or partial Plan termination or merger with another plan);
2. changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions;
3. bankruptcy of the Pan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan;

4. the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or
5. premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. These events may be different under each contract. Such events include:

1. an uncured violation of the Plan's investment guidelines;
2. a breach of material obligation under the contract;
3. a material misrepresentation; or,
4. a material amendment to the agreement without the consent of the issuer.

A company-level liquidation or company-initiated transfer of the Plan's interest in the guaranteed investment contract will be subject to either a twelve-month irrevocable advance notice or a five percent (5%) surrender charge, whichever the Company chooses.

Note 5 – Information Certified by the Trustee

The Plan's administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA for 2019 and 2018. Accordingly, Principal Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, and the supplemental Form 5500, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2019 and 2018.

Note 6 – Related-Party Transactions and Party-in-Interest Transactions

The known parties-in-interest that have provided services to the Plan for 2019 and 2018 are as follows:

- The Plan Sponsor provides administrative services and absorbs administrative costs for the Plan.
- Principal Trust Company served as custodian and trustee of the Plan (holding the Plan's investment assets and executing transactions).
- Principal Life Insurance Company served as recordkeeper to the Plan.
- Calvin Martin & Company, PLLC was the Plan Auditor.
- The Plan had participant loans.

All of the above transactions are exempt party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 – Tax Status

The Plan adopted a volume submitter plan offered by Principal Life Insurance Company. The volume submitter plan received an IRS Determination Letter dated August 8, 2014, that the Plan and related trust are designed in accordance

with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the IRS Determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

On March 11, 2020 the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. On March 13, 2020, the President of the United States declared a national emergency related to the disease. In addition to the President's declaration, state and local authorities have recommended social distancing and have imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however are expected to have material adverse impacts on domestic economies and may result in the United States entering a period of recession.

Geo Control Systems, Inc. is considered an "Essential Business" and remained open during the mandatory business closures.

Note 10 – Excess Contributions

ERISA and the Internal Revenue Code provide that plans cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive refunds in the year following the year of contributions made in that year in excess of the Code Section 401(k) limit and all earnings attributable to such contributions. For December 31, 2019 and 2018, excess contributions were $ 0 and $ 28,850, respectively.

Note 11 – Prohibited Transactions

Timely Remittance of Contributions
For the year ended December 31, 2019, the Company did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Untimely remittances identified on the Schedule of Delinquent Participant Contributions, which totaled $89,634 are pending correction in the Department of Labor Voluntary Fiduciary Correction Program. Additionally, the Company has compensated participants for lost earnings resulting from the delay in contributions.

Enrollment Errors
Upon implementation of the two percent (2%) auto-enrollment feature beginning January 1, 2018, the Company did not enroll eligible employees timely. This failure resulted in a lost opportunity for participants who had elected to participate. The enrollment errors resulted in the employer being required to make a QNEC (Qualified Non-Elective Contribution) of fifty percent (50%) of the deferral as well as lost earnings from the initial date of enrollment.

As of December 31, 2019, and 2018, a QNEC due to the Plan for Enrollment Errors totaled $ 3,282 and $ 5,247 as well as lost earnings of $ 512 and $ 1,213, both of which have been recorded as a receivable to the Plan.

Exclusion of Bonus

The Employer intended the Plan Document to exclude bonuses from deferral deductions; however, bonuses are not excluded from wages per the Plan Document. The exclusion of bonus errors resulted in the employer being required to make a QNEC (Qualified Non-Elective Contribution) of fifty percent (50%) of the deferral as well as lost earnings.

As of December 31, 2019, and 2018, a QNEC due to the Plan for Bonus Errors totaled $ 11,138 and $8,509 as well as lost earnings of $ 1,815 and $ 1,980, both of which have been recorded as a receivable to the Plan.

Match Calculation Errors

During the 2018 Plan year, matching contributions for certain employee groups and projects were not calculated correctly. This resulted in the employer being required to make a QNEC (Qualified Non-Elective Contribution) in the amount of $ 4,716 with lost earnings of $ 262, both of which have been recorded as a receivable to the Plan.

Employer Discretionary Contribution Error

During the 2019 and 2018 Plan years, a two percent (2%) employer non-matching discretionary contribution for non-union employees was not calculated correctly. This resulted in the employer being required to make a QNEC (Qualified Non-Elective Contribution) in the amount of $ 7,606 and $ 8,708 and lost earnings of $ 259 and $ 629, both of which have been recorded as a receivable to the Plan.

The Company has chosen to Self-Correct all of the above-mentioned errors under the (EPCRS) Employee Plans Compliance Resolution Program.
