RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

The following description of Rayco Manufacturing 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan’s provisions.

General

The Plan was established effective January 1, 1993. The Plan is a defined contribution plan covering all eligible employees of the Rayco Manufacturing LLC (the Company). To be eligible, each employee must complete a 6-month period of employment and have reached 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The 401(k) Executive Committee determines the appropriations of the Plan’s investment offerings, monitors investment performance, and reports to the Plan’s Board of Trustees.

Termination of Plan

Effective October 23, 2019, the Company’s ownership adopted a resolution to terminate the Plan and participants became 100% vested in their accounts. The Plan’s net assets were fully distributed to participants in March 2020.

Contributions

Employees can elect to make pre-tax and/or Roth contributions to the Plan in an amount between one and fifteen percent of compensation, as defined by the Plan. The Company is required to make safe harbor matching contributions to the Plan in an amount equal to 100 percent of the participants’ contributions, up to 6 percent of compensation, as defined by the Plan.

Additionally, the Company may make a discretionary profit sharing contribution to be determined each year by the Company. The Company did not authorize any discretionary profit sharing contribution for 2019 and 2018. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and an allocation of (a) the Company’s contributions, (b) Plan earnings, and (c) forfeitures of terminated participants’ nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN (continued)

Participant- Directed Investment Options

Upon enrollment in the Plan, participants may direct their contributions as well as any contributions made by the Company into any of the investment options with varying degrees of risk and volatility, allowing participants to allocate their investments in accordance with their own risk tolerances and time horizons. Participants may change their investment options at any time.

Vesting

Prior to termination of the Plan, participants were immediately vested in their voluntary and matching contribution plus actual earnings thereon. Employer discretionary contributions vested after six years of service. In addition, the vesting percentage became 100% on the date a participant became totally disabled, as defined in the Plan, or the date the participant died.

Payment of Benefits

Prior to termination of the Plan, upon termination of service due to death, disability, attainment of age 59 ½, retirement, or other reasons, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a future period as defined. Distributions of a participant's account balance could be authorized at any time by the plan administrator under certain hardship conditions. Effective upon termination of the Plan, participants became eligible to receive their accounts as lump sum distributions.

Forfeited Amounts

Forfeitures represent the non-vested portion of Company discretionary contributions plus earnings thereon, which are not distributable to participants who terminate employment before they are 100% vested. The amount of forfeitures attributable to Company discretionary contributions are first used to reduce administrative expenses, then added to the Company's matching contributions. During 2019 and 2018, there were no available forfeitures.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan for 2018 were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Due to the decision to terminate the Plan effective October 23, 2019, management determined that liquidation of the Plan is imminent and accordingly, the financial statements for 2019 have been prepared using the liquidation basis of accounting.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of the 2019 and 2018 financial statements in accordance with the liquidation and ongoing accrual basis of accounting in accordance with GAAP, respectively, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value (except for the fully benefit responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The 401(k) Executive Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Plan recordkeeping expenses are paid by the Company and are excluded from these financial statements. Certain other administrative expenses are paid by the Plan. Certain fees related to distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Subsequent events have been evaluated through October 15, 2020, which is the date the financial statements were available to be issued.

In March 2020, the remainder of the Plan assets were distributed to the participants as part of the Plan's termination.

Due to national and world-wide disruptions caused by COVID-19 in 2020, the Plan may be adversely impacted. At this time, any financial impact of potential COVID-19 related disruptions are not known.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY DELAWARE CHARTER GUARANTEE AND TRUST COMPANY (DBA PRINCIPAL FINANCIAL GROUP) AND GREAT-WEST TRUST COMPANY LLC

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, and interest and dividends for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company (dba Principal Financial Group), and Great West Trust Company LLC, the custodians of the Plan.

NOTE 4: FAIR VALUE MEASUREMENTS

GAAP includes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Stable value common/collective trust fund: A stable value common/collective trust fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust fund. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily with no notice.

Pooled separate accounts: Valued at net asset value (NAV) per share based on quoted market prices of underlying investments. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the account. Participant transactions (purchases and sales) may occur daily with no notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$6,792,012</u>	<u>\$ 0</u>	<u>\$ 0</u>	\$6,792,012
Investment valued using NAV as a practical expedient (a) – Stable value common/collective trust fund				<u>1,719,767</u>
Total investments at fair value				<u>\$8,511,779</u>

Assets at Fair Value as of December 31, 2018

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$6,879,263</u>	<u>\$ 0</u>	<u>\$ 0</u>	\$6,879,263
Investment valued using NAV as a practical expedient (a) – Pooled separate accounts				<u>711</u>
Total investments at fair value				<u>\$6,879,974</u>

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation for the fair value hierarchy to the line items presented in the statement of net assets available for plan benefits.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Principal Fixed Income Guaranteed Option was a fully benefit-responsive guaranteed fixed annuity contract available as an investment option to Plan participants through August 29, 2019. The fixed annuity contract was issued by Principal Life Insurance Company (Principal). Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate was reviewed on a six month basis of resetting. The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date of August 29, 2019.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measurement for fully benefit-responsive investment contracts because this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings less participant withdrawals and administrative expenses. Participants could ordinarily direct withdrawals or transfers of all or a portion of their investment at contract value.

NOTE 6: RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Financial Group, Great-West Trust Company, and Principal, which are custodians or service providers as defined by the Plan. Therefore, these transactions and associated administrative expenses qualify as party-in-interest.

RAYCO MANUFACTURING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 7: INCOME TAX STATUS

Great-West Trust Company, LLC, sponsor of the prototype standardized profit sharing plan with CODA document, has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Company adopted this prototype plan document on December 3, 2018. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt. In accordance with the liquidation basis of accounting, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain positions that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Accounting principles generally accepted in the United States of America require management of a plan to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rates, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the 2019 statement of net assets available for benefits.
