1. DESCRIPTION OF PLAN

The following description of The Curry Automotive Group 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1994, available to all full-time employees of Curry Management Corporation and certain affiliates, as defined in the Plan document (the "Company" or "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has been restated and amended to include new provisions and changes to the Internal Revenue Code ("IRC"). There were no significant changes to the provisions of the Plan as a result of this restatement. The Plan is administered by the Company. Fidelity Management Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Employees who have completed one year of service, as well as employees from certain predecessor employers, based on the terms of the Plan document, are eligible to participate in the Plan.

Contributions

Each year, participants may elect to have a percentage or dollar amount deducted on a pre-tax or post-tax (Roth) basis from their compensation subject to an annual limit of the lesser of 90% of eligible compensation or the federal annual limit in a calendar year, as defined in the Plan. Based on the adoption of the 1% automatic enrollment provision, the Company no longer provides the participants a fixed dollar deduction election. Effective December 15, 2017, all participant contributions are based on a percentage of gross compensation. Additionally, a paid bonus contribution election is available, subject to certain limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants may elect to suspend their contributions and to change their elective deferral at any date. Participants direct the investment of their contributions into various investment options offered by the Plan.

Discretionary matching contributions may be made at the option of the Company's management and are invested according to the participant's investment option. To be eligible for the Company contributions, employees must be credited with at least 1,000 hours of service during the Plan year, with certain other exceptions, as defined in the Plan. Qualified nonelective contributions may be made at the option of the Company. The Company elected to match 50% of the first 1% of participant's gross wages not to exceed 50% of the participant's deferral for the Plan year ended December 31, 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, based on the table below, or upon normal retirement age. A participant's vesting percentage increases to 100% if, while employed with the Company, the employee dies, becomes disabled, or reaches the early retirement age of 55 with five years of credited service.

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Generally participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, reduced by any outstanding loans, except for loans qualifying under an enacted tax act as defined in the Plan documents. The loans are secured by the balance in the participant's account and bear interest at local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions over a period of up to five years, except for the purchase of a primary residence. Loans for the purchase of a primary residence may be repaid over a period of up to 10 years for new loans under the current Plan document, whereas loans previously granted or rolled over into the Plan may have longer terms. Participants can have no more than two loans outstanding at any given time. At December 31, 2019, the interest rate on outstanding loans ranged from 4.25% to 7.25%, maturing on various dates through September 2026.

Upon termination of employment, the loan shall be repaid in full. In addition, the Plan allows for loan rollover, under certain circumstances as defined by the Plan document, within 60 days of termination of employment as long as the new plan accepts loan rollovers.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

The Plan allows for hardship withdrawals from a participant's elective deferral account. Participants must exhaust all other options before financial hardship withdrawals are allowed. Deferral contributions are suspended for a six-month period after receiving a hardship withdrawal.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled approximately $9,900 and $13,000, respectively. These amounts may be used to pay Plan expenses or to reduce employer contributions. During the year ended December 31, 2019, the Plan Sponsor used $13,000 of available forfeitures to reduce the 2018 discretionary employer matching contribution that was made to the Plan in 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. Any adjustments to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the investment advisers, the Trustee and insurance company. See Note 9 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value and which are included in the fair value hierarchy. There have been no changes in the methodologies used at December 31, 2019.

Mutual funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds and are classified as Level 1 investments.

Cash equivalents: Cash equivalents are primarily invested in money market funds and highly liquid U.S. government securities. The cash funds are valued at the per unit amounts reported daily by such funds, which approximates fair value. U.S. government treasury and agency securities are valued based upon the closing price reported in the active market in which the security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded, based upon the terms of the Plan document.

For the year ended December 31, 2019, participants defaulted on loans amounting to $6,015. The Plan Trustee has issued 1099s to report the income generated from the defaulted loan balances to the participants.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants in 2020. Refer to Note 10 for a discussion of excess deferrals due to participants.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in "Net appreciation in fair value of investments" in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 13, 2020, the date on which these financial statements were available to be issued. Other than the matter described in Note 11, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contributions and would be entitled to the entire amount of their account balance.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by the Trustee, which received an opinion letter from the IRS dated March 31, 2014, stating that the prototype document satisfied the provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended from the original prototype document, the Plan administrator and the Plan's tax council believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of such code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee. The Trustee is the recordkeeper and custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue-sharing, rather than a direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations.

10. EXCESS DEFERRALS DUE TO PARTICIPANTS

The Plan failed certain non-discrimination tests for the years ended December 31, 2019 and 2018. Excess participant-directed contributions amounting to $99,562 and $91,977 were recorded as liabilities in the accompanying statements of net assets available for benefits at December 31, 2019 and 2018, respectively, and the corresponding 2019 amount as a reduction of participant contributions in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.

11. SUBSEQUENT EVENTS

During 2020, the World Health Organization has declared COVID-19 to constitute a "Public Health Emergency of International Concern." The pandemic has disrupted economic markets and the financial impact, duration and spread of the COVID-19 virus is uncertain at this time. The financial performance of the Plan's investments may be impacted by the market's response to the uncertainty of the situation, however, the duration of disruption and related financial impact cannot be reasonably estimated at this time.

In response to the COVID-19 pandemic, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The provisions of the CARES Act is effective and operationalized immediately, prior to amending the plan document. Plan management elected the CARES Act, however, has not amended the Plan as of the date these financial statements were issued.
