BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description

The following description of BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of BCS Automotive Interface Solutions U.S. LLC and BCS Access Systems U.S., LLC (collectively, the "Company" or BCS). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In April 2018, TRW Automotive U.S. LLC (TRW) executed the sale of its Body Control Systems business unit, which became BCS. BCS then created the Plan effective May 1, 2018. All active participants in TRW Automotive 401(k) Savings Plan and the TRW Automotive Retirement Savings Plan for Hourly Employees who were part of the Body Control Systems business unit of TRW had their participant accounts transferred into the Plan in the total amount of approximately \$84 million.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 80 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute up to 10 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Certain participant contributions in 2019 were paid after the time frame required by the Department of Labor. The Company remitted these contributions during 2020 and remitted related lost earnings to the Plan in 2020.

The Plan provides for employer matching contributions of 100 percent of the participant's contribution, not to exceed 6 percent of the employee's eligible compensation deferred upon. For participants who are not members of a collectively bargained unit, employer contributions are considered to be a safe harbor match. For participants who are members of a collectively bargained unit, employer contributions are considered to be a traditional match.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable bear interest at a market rate.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. For participants who are members of a collectively bargained unit, vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Collectively bargained participants vest in contributions made by the Company 20 percent after two years of service and an additional 20 percent for each additional year thereafter until they become 100 percent vested after six years of service. All other participants are fully vested at all times and are not subject to forfeiture for any reason.

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participants may request that a portion of their account balances related to employee salary deferrals and non-safe harbor matching contributions be distributed in the case of financial hardship, as defined in the plan document. The plan administrator must approve any such hardship withdrawals.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments on these investments. Withdrawals of investments in common collective trust funds made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur. The MIP II fund requires at least 12 months but no more than 15 months prior written notice of intent to liquidate and may take up to 12 months for proceeds to be paid. The balance of MIP II as of December 31, 2019 and 2018 was \$2,437,694 and \$3,084,766, respectively.

Investments in the self-directed brokerage accounts include interest-bearing cash that is valued base on outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain administrative expenses related to loan setup, withdrawals, and qualified domestic relation orders are paid by the participant. All other administrative expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 12, 2020, which is the date the financial statements were available to be issued.

Subsequent to year end, the Plan discontinued safe harbor matching contributions effective May 22, 2020.

Note 3 - Unaudited Information

Fidelity holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by Fidelity.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 5 - Fair Value Measurements (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 5 - Fair Value Measurements (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:

BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description

The following description of BCS Automotive Interface Solutions U.S. LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of BCS Automotive Interface Solutions U.S. LLC and BCS Access Systems U.S., LLC (collectively, the "Company" or BCS). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In April 2018, TRW Automotive U.S. LLC (TRW) executed the sale of its Body Control Systems business unit, which became BCS. BCS then created the Plan effective May 1, 2018. All active participants in TRW Automotive 401(k) Savings Plan and the TRW Automotive Retirement Savings Plan for Hourly Employees who were part of the Body Control Systems business unit of TRW had their participant accounts transferred into the Plan in the total amount of approximately \$84 million.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 80 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute up to 10 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Certain participant contributions in 2019 were paid after the time frame required by the Department of Labor. The Company remitted these contributions during 2020 and remitted related lost earnings to the Plan in 2020.

The Plan provides for employer matching contributions of 100 percent of the participant's contribution, not to exceed 6 percent of the employee's eligible compensation deferred upon. For participants who are not members of a collectively bargained unit, employer contributions are considered to be a safe harbor match. For participants who are members of a collectively bargained unit, employer contributions are considered to be a traditional match.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable bear interest at a market rate.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. For participants who are members of a collectively bargained unit, vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Collectively bargained participants vest in contributions made by the Company 20 percent after two years of service and an additional 20 percent for each additional year thereafter until they become 100 percent vested after six years of service. All other participants are fully vested at all times and are not subject to forfeiture for any reason.

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participants may request that a portion of their account balances related to employee salary deferrals and non-safe harbor matching contributions be distributed in the case of financial hardship, as defined in the plan document. The plan administrator must approve any such hardship withdrawals.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no unfunded commitments on these investments. Withdrawals of investments in common collective trust funds made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur. The MIP II fund requires at least 12 months but no more than 15 months prior written notice of intent to liquidate and may take up to 12 months for proceeds to be paid. The balance of MIP II as of December 31, 2019 and 2018 was \$2,437,694 and \$3,084,766, respectively.

Investments in the self-directed brokerage accounts include interest-bearing cash that is valued base on outstanding balances. All other investments are valued based on quoted market prices reported in active markets. See Note 5 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain administrative expenses related to loan setup, withdrawals, and qualified domestic relation orders are paid by the participant. All other administrative expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 12, 2020, which is the date the financial statements were available to be issued.

Subsequent to year end, the Plan discontinued safe harbor matching contributions effective May 22, 2020.

Note 3 - Unaudited Information

Fidelity holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by Fidelity.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation.
