NOTES TO FINANCIAL STATEMENTS
As of December 31, 2019 and 2018, and for the year ended December 31, 2019

1. Description of Plan

The following brief description of the Varidesk, LLC 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective January 1, 2019, the Plan was restated to add adopting employer provisions and permit Vari Sales Corporation to adopt the Plan as an adopting employer.

General
The Plan is a defined contribution retirement plan sponsored by Varidesk, LLC. (the "Company") for the benefit of the employees and was established on October 1, 2014. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974.

Eligibility
Employees are eligible to participate in the Plan upon reaching the age of 18. Upon meeting the eligibility requirements, employees are automatically enrolled in the Plan at a pre-tax deferral rate of 3%.

Contributions
Participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, subject to Internal Revenue Service ("IRS") limitations. Participants may elect to have those contributions made as either pre-tax or after-tax (Roth) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into the various investment options offered by the Plan.

The Company makes discretionary matching contributions to eligible participants. During the Plan year ended December 31, 2019 and 2018, discretionary matching contributions were equal to 25% of participant deferrals, up to a maximum of 6% of plan compensation. Additionally, for the Plan year ended December 31, 2019, the Company made an additional matching contribution equal to 1% of eligible compensation, which is included in employer contributions receivable in the statements of net assets available for benefits.

Participant Accounts
Each participant's account is credited with the participant's contributions; the Company's matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily to reflect income earned.

1. Description of Plan (continued)

Vesting
Participants are always vested in their rollover contributions, deferral contributions, and any earnings thereon. Any matching contributions received vest according to the table below. Any contributions and earnings forfeited due to vesting can be used to offset future employer contributions and reduce plan administrative expenses.

Years of Service	Vested Percentage
Less than 1 year	0%
1 years	33%
2 years	66%
3 years	100%

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Participants may not have more than one loan outstanding at any time. The loans are secured by the balance in the participant's account. The interest rates for loans are set at Prime plus 2 percent. Payments of principal and interest are paid ratably through payroll deductions.

Payment of Benefits
Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to all or a portion of the value of the participant's vested interest in his or her account, in the form of a lump-sum distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may withdraw part of the vested interest in his or her account in the event of an immediate and heavy financial hardship. Terminated participants with vested account balances less than $1,000 will have an involuntary cash-out distribution.

Forfeited Accounts
During the year ended December 31, 2019, a total of $38,998 was forfeited by participants. The Plan utilized $38,387 during the year ended December 31, 2019 to reduce employer contributions. Unallocated forfeiture balances of $40,518 and $40,405 were available to offset future employer contributions or Plan expenses as of December 31, 2019 and 2018, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting in conformity with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation
Investments in mutual funds are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The Plan trustee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

The Plan's investment in the Key Guaranteed Portfolio Fund, a fully-benefit responsive investment contract, is reported at contract value, which is the relevant measurement for this type of investment.

The Plan's investment in the Principal Fixed Income Guaranteed Option, a fully benefit responsive investment contract, is measured at contract value, which is the relevant measurement for this type of investment.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. During the year ended December 31, 2019, $5,409 in notes receivable was recorded as a deemed distribution.

Benefit Payments
Benefits are recorded when paid.

Expenses
The Company pays certain administrative expenses incurred by the Plan. Certain investment and administration fees are deducted directly from participant's investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date the financial statements were available to be issued. Other than the matter discussed in Note 11, there were no items that would require recognition in the financial statements or disclosure in the notes to the financial statements.

3. Information Certified by the Custodian (unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the Plan Sponsor instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, collectively, the custodian of the plan from January 1, 2018 to January 15, 2019, and by Delaware Charter Guarantee & Trust Company (d/b/a Principal Trust Company), the trustee of the Plan from January 15, 2019 to December 31, 2019, as complete and accurate, except for comparing such information certified by the custodian with information included in the plan's financial statements and supplemental schedules:

As of December 31,	**2019**	2018
Investments:		
Mutual funds, at fair value	**$ 5,329,671**	$ 2,448,635
Guaranteed investment contract, at contract value	**201,977**	319,434
Total investments	**5,531,648**	2,768,069
Notes receivable from participants	**$ 26,173**	$ 19,029

For the year ended December 31,	**2019**
Net appreciation in fair value of investments	**$ 604,128**
Interest and dividend income	**85,409**
Interest income on notes receivable from participants	**477**

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB accounting guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

4. Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,329,671	$ -	$ -	$ 5,329,671
Total investments at fair value	$ 5,329,671	$ -	$ -	$ 5,329,671

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,448,635	$ -	$ -	$ 2,448,635
Total investments at fair value	$ 2,448,635	$ -	$ -	$ 2,448,635

5. Guaranteed Investment Contract

Key Guaranteed Portfolio Fund
The Plan has a fully benefit responsive group annuity contract with an insurance company, which is called the Key Guaranteed Portfolio Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses.

Since the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2019 and 2018 was 1.20% and 1.10%, respectively. The actual average yield earned by the Plan for the group annuity contract is derived by averaging the Plan's quarterly interest rates. The average for 2019 and 2018 was 1.20% and 1.10%, respectively.

Principal Fixed Income Guaranteed Option
The Plan has entered into a benefit-responsive investment contract with Principal. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Investments in FBRICs are measured, presented, and disclosed at contract value.

5. Guaranteed Investment Contract (continued)

Principal Fixed Income Guaranteed Option (continued)
Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk on the contract issuer or otherwise. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Related-Party and Party- In- Interest Transactions

The Plan invests in a guaranteed investment contract issued and managed by Great-West Life and Annuity Insurance Company and its subsidiaries. Additionally, the Plan invests in a guaranteed investment contract issued and managed by Principal Life Insurance Company. Certain subsidiaries provide administration and recordkeeping services to the Plan while another serves as the Plan custodian. These specific investments issued by or managed by Great-West Life and Annuity Insurance Company and Principal Life Insurance Company qualifies as party in interest transactions. The Plan made direct payments to the record keeper and custodian totaling $44,575 during the year ended December 31, 2019. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The plan sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Income Tax Status

The Plan has adopted a volume submitter 401(k) and profit sharing plan with cash or deferral arrangement sponsored by Principal Life Insurance Co., which received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the Plan, as then designed, was acceptable under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the Internal Revenue Code (IRC). Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

8. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

9. Risk and Uncertainties

The Plan offers a variety of investment options to participants. These investment options are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Administrative Failure

During the year ended December 31, 2018, management determined that there was inconsistency in the application of the terms in the plan document relating to the definition of eligible compensation for the purposes of calculating employee and employer contributions. Certain participants' compensation related to commissions and bonuses were included in the calculation of compensation in violation of the terms of the Plan Document in 2018 in violation of the terms of the Plan Document. Plan Management corrected this administrative failure by distributing the contributions submitted to the Plan.

During the year ended December 31, 2019, management determined that there was inconsistency in the application of the terms in the plan document relating to the definition of eligible compensation for the purposes of calculating employee and employer contributions. Certain participants' compensation related to commissions and bonuses were excluded in the calculation of compensation from January 1, 2019 to July 15, 2019 in violation of the terms of the Plan Document. Plan Management corrected this administrative failure by making an additional employer match into the Plan.

11. Subsequent Events

SECURE Act
On December 20, 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 was signed into law. Applicable provisions of the SECURE Act, effective January 1, 2020, include changing the required minimum distribution age to 72 for participants who have not reached age 70 ½ as of December 31, 2019 and, for participant deaths after December 31, 2019, requiring most non-spouse beneficiaries to take full distribution of the participant's account within 10 years of the participant's death. Plan management is evaluating the impact of the SECURE Act on the Plan but does not expect it to be material.

11. Subsequent Events (continued)

Plan Amendment
Effective April 1, 2020, the plan was amended to change the definition of Plan compensation to include earnings for bonus, commissions, and overtime.

COVID-19
On March 11, 2020, the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. The pandemic and these containment and mitigation measures have led to economic uncertainties which have resulted in significant volatility in the financial markets, impacting some of the investments held by the Plan. The duration of these uncertainties and volatility, and the ultimate financial effects of COVID-19 on the national and global economies and investment markets, cannot be reasonably estimated at this time.

CARES Act
On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and approved (a) adding COVID-19-related distributions of up to $100,000 for eligible participants, (b) increasing the limit on Plan loans for eligible participants to the maximum amount permitted under the CARES Act, (c) suspending payments on Plan loans otherwise due in 2020 for eligible participants, and (d) suspending required minimum distributions for 2020. The CARES Act allowed these changes to be effective and operationalized immediately, prior to amending the Plan document.
