Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Thompson/Hanson, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the *Plan document* for a more complete description of the Plan's provisions.

General

The Plan was adopted by Thompson/Hanson, Inc. (the Company or the Employer) on January 1, 1997. The Plan is a defined contribution plan covering all employees of the Company who have been employed for six consecutive months and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

On January 1, 2015, the Plan document was amended to only cover the employees of the Company as the other participating employers separated from the Plan.

Contributions

Each year, a participant may contribute a portion of their compensation, in specified whole percentages or dollar amounts, not to exceed the deferral limitation as specified in section 402(g) of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides that the Company may make a discretionary matching contribution to all eligible participants. The discretionary matching contribution is a uniform percentage, as determined by the Company, of participant contributions. For 2019 and 2018, matching contributions were 50% of each participant's contribution up to a maximum of 6% of the participant's salary. The Company may also elect to make a non-elective, discretionary contribution, allocated based on compensation, in addition to the discretionary matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings thereon. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service, except that upon death or total permanent disability, the participant becomes 100 percent vested.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Principal and interest is paid ratably through monthly payroll deductions. Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans.

Payment of Benefits

On termination of services due to death, disability, retirement, or any other reason, a participant may elect to either receive a lump-sum distribution of the entire value of his or her vested account balance, or a single sum distribution of a portion of his or her vested account balance.

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $0, respectively. Forfeitures totaling $1,208 and $0 were applied to administrative expenses for the years ended December 31, 2019 and 2018.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2019 and 2018, and net appreciation in fair value of investments, investment income, and interest income on notes receivable from participants for the years ended December 31, 2019 and 2018, was obtained or derived from information provided to Plan management and certified as complete and accurate by Transamerica Life Insurance Company through July 25, 2019 and John Hancock effective July 26, 2019, the custodians of the Plan. Transamerica held the Plan's investment assets and executed investment transactions from January 1, 2018 to July 25, 2019 and John Hancock held the Plan's investment assets and executed investment transactions as of July 26, 2019 and for the period July 26, 2019 to December 31, 2019.

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at net asset value of shares held by the plan at year end based on quoted market price of the underlying investments. The investments in pooled separate accounts can be redeemed on a daily basis and none of these investments are currently subject to withdrawal restrictions. The Plan has no unfunded commitment in connection with these investments.

The following table summarizes, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	2019	2018
Investments measured at net asset value:		
Pooled separate accounts	$ 3,378,531	$ 2,578,220
	$ 3,378,531	$ 2,578,220

Note 5. Investment Contract with Insurance Company

The Plan held a fully benefit-responsive group annuity investment contract with Transamerica through July 25, 2019. The contract included the Stable Value Advantage Option, which is a general account product. The account is credited with deposits made to the contract, plus interest credited, less any withdrawals and charges or expenses. The issuer is contractually obligated to repay the principal and a specified interest rate established monthly by the issuer.

As described in Note 2, because the Stable Value Advantage Option is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Advantage Option. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and charges or expenses. Participants may ordinarily direct the withdrawal or transfer to other investments, except for any competing fixed funds, of all or a portion of their investments at contract value, without incurring any charges or penalties.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for each month. There is no stated minimum or maximum interest rate for the Stable Value Advantage Option.

Certain events allow the issuer to terminate the contract and could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:(1) the Plan is changed so as to significantly affect the issuer's obligations under the contract, (2) the contract can no longer be treated as a Pension Plan Contract, as that term is defined under the IRC, and the issuer determines that it is not practical to continue the provision of benefits under the contract, (3) the Plan is terminated, (4) the Plan fails to comply with the requirements under the contract, (5) the Plan, except by unintentional omission, fails to provide information needed under the contract or to furnish a copy of any amendments to the Plan or annual report records, or (6) the sum of contract account values equals $20,000 or less. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts and a stable value investment provided through Transamerica through July 25, 2019 and John Hancock beginning July 26, 2019. Transamerica is the custodian and recordkeeper for the Plan through July 25, 2019 and John Hancock beginning July 26, 2019 and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 8. Income Tax Status

The Plan adopted a volume submitter profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated September 30, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

COVID-19

On March 11, 2020, the World Health Organization declared Coronavirus (COVID-19) a pandemic. The extent of the operational and financial impact the COVID-19 pandemic may have on the Plan Sponsor has yet to be determined and is dependent on its duration and spread, any related operational restrictions and the overall economy. The Plan Sponsor is unable to accurately predict how COVID-19 will affect the results of its operations or the Plan because the virus's severity and the duration of the pandemic are uncertain. Potential impacts include, but are not limited to, additional costs for responding to COVID-19, potential shortages of personnel, delays, loss of, or reduction to revenue and overall market decline. Management believes the Plan Sponsor is taking appropriate actions to respond to the pandemic; however, the full impact is unknown and cannot be reasonably estimated at the date the financial statements were available for issuance.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted into law. The CARES Act includes provisions that provide for changes to retirement plans. Plan management is in the process of reviewing the CARES Act and any resulting changes to the Plan.
