## 1. DESCRIPTION OF PLAN

### General

The following description of the Medco Enterprises, Inc. & Affiliates Retirement Plan (the "Plan"), formerly the Medco Enterprises Inc. Retirement Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective January 1, 1996, Medco Enterprises, Inc. ("Medco") established the Plan. The Plan is a defined contribution retirement plan covering all eligible employees of Medco. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective May 1, 2019, Port Morris Home Care Agency d/b/a Constant Care Health Services ("CCHS"), an entity affiliated with Medco through common ownership, adopted the Plan. Medco and CCHS are collectively referred to as the Company or the Employer.

### Eligibility

Employees of the Company, who are age twenty-one or older and have completed one year of service, as defined in the Plan document, or, if earlier, one full calendar month of service, are eligible to participate in the Plan. Employees subject to a collective bargaining agreement, leased employees and non-resident aliens are not eligible to participate in the Plan. Additionally, employees who are age twenty-one or older and have completed twelve months of service, including at least 1,000 hours in that year, and are employed on the last day of the year are eligible to share in the Employer non-elective contributions, as defined in the Plan document. Employees of CCHS who receive prevailing wage compensation, see below, are enrolled in the Plan on the date the employee first receives prevailing wage compensation.

### Elective Deferrals

The Plan allows each participant to contribute from 1% to 50% of his or her compensation, as defined, up to the maximum annual amount allowed by law. These deferrals may be made in whole percentages or in specific dollar amounts as designated by the participant. Participants may also elect to defer up to 100% of eligible compensation for one or more pay periods, subject to the maximum annual amounts noted above. In addition, participants may defer 100% of bonus and severance compensation, subject to certain limitations. Catch-up contributions are allowed. After-tax contributions are not allowed.

### Rollovers

Any employee, regardless of whether the Plan's eligibility requirements have been met, may make a rollover contribution into the Plan.

### Employer Contributions

The Employer may, at its discretion, make a non-elective contribution to the Plan in any specific dollar amount or any percentage of elective deferrals. No non-elective contributions were made in the year ended December 31, 2019. The Employer may also make, at its discretion, qualified matching or qualified non-elective contributions. No such contributions were made in the year ended December 31, 2019.

Employees of CCHS who work on a contract covered by Prevailing Wage Law, as defined, will receive an Employer contribution in the amount needed to bring their wages to parity ("wage parity") with comparable classes of workers in the geographical area where that work is performed. Employer contributions to achieve wage parity in the year ended December 31, 2019 totaled $269,958.

## 1. DESCRIPTION OF PLAN (CONTINUED)

### Participant Accounts

The Plan is a participant-directed account plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants' accounts are credited with participant contributions, rollovers and an allocation of any Employer contributions. Plan earnings and administrative expenses are allocated based on a participant's earnings, account balance and specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are at all times 100% vested in elective deferrals, rollovers, qualified matching, qualified non-elective contributions and Employer prevailing wage contributions. Employer matching contributions vest 0% in the first year and 20% each year thereafter. A participant reaching retirement age prior to the normal vesting will become fully vested in their entire account.

### Forfeitures

Forfeitures may be used for several purposes such as to pay Plan expenses. Remaining forfeitures may be allocated to participants' accounts or used to reduce Employer contributions. There were no forfeited amounts in 2019, and there was no balance in the forfeiture account at December 31, 2019 and 2018.

### Investment Options

Contributions are invested by Voya Retirement Insurance and Annuity Company ("Voya"), the trustee of the Plan, according to the options selected by the participants. All participant and Employer contributions are directed by the participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived. The Plan offers investment options in a fixed income fund, and a separate account, which permits mutual funds and one money market fund.

### Notes Receivable from Participants

Participants are permitted to borrow from their participant accounts at a minimum of $1,000 not to exceed a maximum of $50,000, or 50% of the participant's vested account balance, whichever is less. The notes are secured by the participant's vested funds and, except for funds used to acquire a principal residence, must have a repayment period of no greater than five years. The interest rates for loans outstanding as of December 31, 2019 were between 4.50% and 6.50%. Interest rates are commensurate with local prevailing rates at the time of borrowing as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions not less frequently than quarterly. Repayment of the entire balance is permitted at any time.

### Payment of Benefits

Participants' benefits under the Plan are payable to participants or their beneficiaries upon termination of employment, normal retirement, disability, financial hardship or death. Benefits are payable in one lump sum payment. Hardship withdrawals are available, as are in-service distributions to participants who have attained the age of 59½. Corrective distributions are made, returning contributions to participants, in order to comply with Department of Labor regulations.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are absorbed by Voya. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

### Payment of Benefits

Benefits are recorded when paid.

### Investment Valuation and Income Recognition

The Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the most observable inputs to be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs market participants would use at the measurement date. The fair value hierarchy is categorized into three levels based on inputs as follows:

Level 1 - Valuation based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Valuation based on quoted prices for similar assets or liabilities in active markets; for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the financial instrument has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the financial instrument.

Level 3 - Valuation based on inputs that are unobservable and significant to the overall fair value measurement.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Investment Valuation and Income Recognition (continued)

Level 3 assets and liabilities are measured at fair value based on one or more of three approaches noted in accounting pronouncements. The three approaches are as follows:

- Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (i.e. current replacement cost); and
- Income approach - Uses valuation techniques to convert future amounts to a single present discounted amount based on market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investments in the separate account, which is a pooled separate account, are valued at the net asset value ("NAV") of units of the separate account. The NAV, as provided by Voya, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily and are recorded on a trade-date basis. Were the Plan to initiate a full redemption of the separate account, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation/depreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation/depreciation on investments bought and sold as well as held during the year. Interest income is accounted for on the accrual basis. Dividend income is accounted for on the ex-dividend date. Purchases and sales are recorded on a trade-date basis.

### Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation/depreciation in fair value of investments.

### Administrative Expenses

The Company has elected to pay substantially all administrative expenses incurred by the Plan except for certain transaction fees such as loan and distribution requests, which are paid by the Plan. The method of allocating the expenses depends on the nature of the expense itself.

## 3. INVESTMENTS

Voya certified as to the completeness and accuracy of the investment assets, transactions, income and expense, and schedules of investment assets as of December 31, 2019 and 2018 and for the year ended December 31, 2019.

The Voya Fixed Account is considered non-benefit responsive. The interest rate credited to the account, guaranteed not to fall below 3%, was 3% for each of the years ended December 31, 2019 and 2018.

## 3. INVESTMENTS (CONTINUED)

The following information, included in the accompanying financial statements and supplemental schedule at December 31, 2019 and 2018, was obtained from data that has been prepared and certified by Voya:

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2019 and 2018. In accordance with FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement. There have been no changes to the valuation methodologies used at December 31, 2019 and 2018.

** Certain investments that are measured at fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The values presented in the preceding tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

Separate accounts are valued at the NAV of units held by the Plan at year end as reported by the trustee on the last day of the Plan year. The fund's NAV is determined by the trustee sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

The fixed income fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the user.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent):

December 31, 2019

| Investment | Fair Value | Unfunded Commitment | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| Separate account | $ 3,413,845 | $ - | Daily to monthly | None to 30 days |

December 31, 2018

| Investment | Fair Value | Unfunded Commitment | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| Separate account | $ 2,714,194 | $ - | Daily to monthly | None to 30 days |

## 3. INVESTMENTS (CONTINUED)

| Beginning balance | $ 1,298,615 |
| Net realized/unrealized gains included in earnings | 36,695 |

## 4. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in a fixed income account and a separate investment account that invests in publicly-traded mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## 5. RELATED PARTIES/PARTIES-IN-INTEREST

Certain Plan investments are shares in a separate account managed by Voya, which qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment.

## 7. TAX STATUS

The volume submitter plan adopted by the Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service ("IRS") stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The volume submitter plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

## 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right at any time to terminate the Plan in accordance with ERISA by delivering to Voya written notice of such termination. Upon termination of the Plan, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become fully vested.

## 9. SUBSEQUENT EVENTS

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has incurred a significant decline in fair value since December 31, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted on March 27, 2020 in the United States. Due to the recent enactment of this legislation, the Plan adopted the new rules, which eliminate tax penalties on certain early withdrawals and relax certain rules on loans for those affected by COVID-19. The full impact of the COVID-19 outbreak continues to evolve as of the date of the auditor's report.

The Plan has evaluated subsequent events through October 15, 2020, which is the date the financial statements were available to be issued.
