Note 1 - Description of Plan:

The following description is provided for general information purposes. Participants of the Paramount Beauty (the "Company") 401(k) Profit Sharing Plan and Trust, (the "Plan"), should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by the Company covering all eligible employees, as defined. Effective March 1 2017, the Plan was amended and restated to bring the Plan in compliance with the Pension Protection Act of 2006 and other legislative and regulatory changes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees of the Company are eligible to participate in the Plan and receive employer discretionary matching and profit sharing contributions, after completing three months of service and upon the attainment of 21 years of age. Employees must also complete at least 500 hours of service and be employed by the Company at year end to be eligible for the discretionary profit sharing contribution. Union employees whose employment is governed by a collective bargaining agreement and nonresident aliens are not eligible to participate in the Plan.

Contributions - Employees are eligible to participate immediately upon meeting the age and eligibility service requirements and may elect to contribute a portion of their compensation to the Plan, subject to the Internal Revenue Code ("IRC") limitations for 401(k) plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 by the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make both a discretionary employer matching contribution and discretionary employer profit sharing contribution. Discretionary employer profit sharing contributions are made at the discretion of the Company and are allocated based on the ratio of the participant's eligible compensation to the total of such compensation of all eligible participants. There were no discretionary employer matching or profit sharing contributions made by the Company to the Plan for the year ended December 31, 2019.

Participant Accounts - Each participant's account is credited with their contributions, employer discretionary matching and discretionary profit sharing contributions, if any, and Plan earnings, thereon. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective deferrals, rollover contributions and actual earnings thereon. Participants vest in the discretionary employer matching and profit sharing contributions in accordance with the following schedule:

Years of Service	Percentage Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 years and over	100%

Payment of Benefits - In most cases, upon termination of service due to death, disability, retirement or termination of employment, vested balances will be distributed to a participant or beneficiary in the form of a lump sum payment directly from the Plan. A participant may request an in-service withdrawal upon attainment of age 59 ½ subjected to other special rules.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service ("IRS") rules and regulations. An Employee's contributions to the Plan will be suspended for six months following a hardship withdrawal.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures due to discretionary employer matching and profit sharing contributions will be used to pay future administrative expenses or reduce the Company's discretionary matching or profit sharing contributions under the Plan. If unused, forfeitures will be allocated to eligible participants pro-rata, based upon eligible compensation. There were no forfeited non-vested accounts at December 31, 2019 and 2018. There were no forfeitures used during the year ended December 31, 2019.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in the statements of net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from and disbursements to participants and recordkeeping are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Money Market Account - Money market fund includes highly liquid short-term investments purchased with maturities of three months or less.

Payment of Benefits - Benefits are recorded when paid.

Concentration of Investment Risk - The Plan's investment in two funds comprise approximately 33% and 32% of total investments at December 31, 2019 and 2018, respectively.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 14, 2020, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Effective January 1, 2020, the Plan adopted changes contained in the Bipartisan Budget Act of 2018 (Act) regarding hardship distributions. These changes include the removal of the required six month suspension of employee contributions deferrals, removal of the requirement for the participant to exhaust all options before applying for a hardship, and the inclusion of earnings as an available source for the participant to borrow from.

The full impact of the COVID-19 outbreak continues to evolve as of the date the financial statements were available to be issued. This pandemic has adversely affected global economic activity and greatly contributed to deterioration and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity, cannot be determined at this time.

Note 3 - Information Certified by the Trustee:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mid Atlantic Trust Company, the Trustee of the Plan, has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.
- Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2019.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Mutual funds*: Valued at the closing price in the active market in which the fund is traded.
- *Money market account:* Value at the closing price on IDC and Bloomberg.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value is as follows:

Investments at Fair Value as of December 31, 2019

	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 3,535,130	$ -	$ -	$ 3,535,130

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5 - Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested and non-forfeitable account balance, whichever is less, and may not have more than one loan outstanding at any time. Loans are secured by the balance in the participant's account, bear interest at a rate of 1% above the prime rate and generally have repayment terms of up to five years from the date granted unless it is for the purchase of a principal residence in which case the loan repayment period may be extended. Principal and interest is paid ratably through monthly payroll deductions.

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' contributions remain fully vested and Company contributions, if any, become fully vested. Under no circumstances may the Company take ownership of any of the Plan's investments as a result of such termination.

Note 7 - Tax Status:

On April 10, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 8 - Parties-in-Interest Transactions:

The Trustee provides administrative and investment services to the Plan. These transactions qualify as party-in-interest transactions. Administrative fees paid to the Trustee totaled $13,166 for the year ending December 31, 2019.

Note 9 - Excess Contributions Payable:

The Plan failed the discrimination test for the year ended December 31, 2018. Excess contributions in 2018 of $2,433 were recorded as a liability in the accompanying Statements of Net Assets Available for Benefits and as a reduction of participant-directed contributions for the respective Plan year. All excess contributions and related investment earnings were reimbursed in 2019. No such liability existed at December 31, 2019.
