Note 1. Plan Description

The following description of the San Joaquin Refining Company 401(k) Plan (the Plan) provides only general information with regard to the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution 401(k) plan covering all full-time non-excluded employees of San Joaquin Refining Company (the Company) who have reached the age of 21 and completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute up to the maximum percentage allowable of pre-tax annual compensation, not to exceed the limits of Code sections 401(k), 404, and 415, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary profit sharing contributions in an amount determined by the Company. The Company may also contribute a fixed amount specified in the collective bargaining agreement. For the year ended December 31, 2019, the employer contribution is equal to $1.74 for non-union participants and $1.89 for union participants for each hour worked, excluding bonuses, overtime and sick time.

The following classifications of employees are not eligible for the specified contributions: non-union employees are not eligible for the fixed non-elective contribution; union employees are not eligible for the discretionary non-elective contribution.

Forfeitures of terminated employees' non-vested account balances can be used to offset employer contributions or Plan expenses. The forfeiture balance at December 31, 2019 and 2018 was $815 and $800, respectively.

Participant accounts:

Separate accounts are kept for each participant. Each participant's account is credited with the Company's contributions, the employee’s contributions, Plan forfeitures and allocation of Plan earnings and expenses. All amounts in participant accounts are participant-directed; participants direct the investment of their contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is immediately 100% vested in employer elective, non-elective and discretionary non-elective contributions.

Notes receivable, participants:

Participants may borrow from their account a minimum of $1,000, up to a maximum of 50% of their vested account balance. The maximum aggregated dollar amount of loans outstanding to a participant is the lesser of 50% of the participant's vested interest less any existing loan balance or $50,000 (reduced by existing loan balance). A participant may obtain up to three loans at any one time. The loans bear interest at prime rate plus 1%. Loans are secured by the participant's vested interest in the Plan.

Benefit payments and withdrawals:

Upon retirement, death, disability or termination, a participant may elect to receive a distribution equal to the vested portion of their account balance. Participants may elect to receive either an installment distribution or a lump sum distribution. Participants automatically become 100% vested upon reaching normal retirement age, death or termination due to disability. If a terminated participant's vested account balance is less than $5,000, they will automatically receive payment in the form of a lump sum distribution. Amounts greater than $1,000 are transferred to an individual retirement account for the participant. Participants with vested account balances greater than $5,000 may elect payments in the form of either a lump-sum, installments or a combination of lump-sum and installments.

Amounts allocated to accounts of persons who, at December 31, 2019, have elected to withdraw from the Plan but have not been paid are $-0-.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments held during the year.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable, participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit payments:

Benefits are recorded when paid.

Plan expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Tax status:

The Plan has been qualified under Section 401(k) of the Internal Revenue Code and, accordingly, income of the Plan is exempt from Federal and state income taxes. The prototype Standardized profit Sharing Plan Adoption Agreement has received its latest favorable determination letter in March 2014 in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 3. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their discretionary employer contributions. Payment of such amounts will be made to participants by the Trustee, as directed by the Plan Administrator.

Note 4. Fair Value Disclosures

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB are described as follows: Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Pooled separate accounts: Separate accounts that invest exclusively in mutual funds are valued at the net asset value of the underlying mutual fund. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

		December 31, 2019		
		Fair Value Measurements Using:		
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Pooled separate accounts	$ 4,006,929	$ -	$ 4,006,929	$ -
Total assets at fair value	$ 4,006,929	$ -	$ 4,006,929	$ -

		December 31, 2018		
		Fair Value Measurements Using:		
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Pooled separate accounts	$ 2,763,725	$ -	$ 2,763,725	$ -
Total assets at fair value	$ 2,763,725	$ -	$ 2,763,725	$ -

Realized and unrealized gains and losses included in the statement of changes in net assets available for benefits for the year ended December 31, 2019, are reported in net appreciation (depreciation) in fair value of investments.

Note 5. Certified Financial Information

The following information as of and for the year ended December 31, 2019 was obtained and certified as complete and accurate by Voya Retirement Insurance and Annuity Company, the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes the following:

	2019
Investments	
Pooled separate accounts	$ 22,998,198
Guaranteed interest account	4,006,929
Notes receivable, participants	903,381
	$ 27,908,508

	2019
Investment income	
Net appreciation in fair value of investments	$ 4,542,189
Interest and dividends	$ 73,652
Interest income-notes receivable, participants	$ 50,913

Note 6. Investment Contract with Insurance Company

The Plan's investment contract with Voya Retirement Insurance and Annuity Company (Voya) is fully benefit-responsive. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate and average yield for the Plan's Voya Fixed Account for 2019 and 2018 was 3%. Such interest rates are reviewed on a periodic basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (e) premature termination of the contact. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants

Note 7. Party-in-Interest Transactions

For the year ended December 31, 2019, certain Plan investments were shares of pooled separate accounts managed by Voya Retirement and Annuity Company (Voya), the Plan's Trustee. Voya is the contract administrator of the Plan and provides administrative services. Fees paid by the Plan to Voya and the Plan's recordkeeper were $25,135 for the year ended December 31, 2019. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rule.

Note 8. Subsequent Events

The Plan has evaluated events and transactions subsequent to December 31, 2019 through the date the financial statements were available to be issued. As a result of COVID-19 (coronavirus), economic uncertainties have arisen which could potentially have a negative impact on the Plan's operations, though such impact is unknown at this time.

The Plan has implemented certain requirements and optional features of the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) subsequent to year-end. The Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) is currently being assessed by the Plan. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

No other subsequent events were identified through October 14, 2020, the date these financial statements were available to be issued
